This survey was made with a Berger transit No. 17503, with horizontal limb  $5 \frac{1}{8}$  ins. diam., having two double opposite verniers and full vertical circle 5 ins. diam., having one double vernier; the verniers read to one minute of arc; a prismatic eyepiece with colored glass was attached to the eyepiece of the transit for making direct observations upon the sun. The instrument was in good condition at the time of the survey and all adjustments were in good order.

All azimuths in the record were determined by the method of deflection angles referred to the meridian, determined by direct observation on the sun.

Oct. 26, 1959, at cor. No. 3 of the Royal Blue No. 3 lode, in latitude  $34^{\circ}21'$  N., and longitude  $110^{\circ}48'55''$  W., turning from cor. No. 3 of the Mesa Verde No. 2 lode to the sun.

True bearing of line 2-3 Mesa Verde No. 2 lode =  $S.85^{\circ}25' E.$

The lines were measured with a Lufkin steel tape 300 feet in length graduated every foot, the first and last foot being graduated to tenths and hundredths; the tape was compared with a Lufkin standard tape at the time of beginning the survey and found correct.

All lines and connections of this survey were run by direct methods. The magnetic declination observed at each corner of the survey gave a uniform value of  $15^{\circ} E.$

INSTRUCTIONS

1. Title 43 Code of Federal Regulations, Part 185, Section 42 requires that this Certificate be filed with the Manager of the Land Office by an applicant for patent at the time of filing the application or at any time within the 60 days of publication.
2. If the record shows that the expenditures for improvements equal or exceed \$500 at the time of survey then this form should be attached by the Cadastral Engineer to the claimant's copy of the field notes.
3. If the record shows that the expenditures for improvements do not equal or exceed \$500 at the time of survey then it is the responsibility of the applicant to have this form executed by the Office Cadastral Engineer and filed with the Manager of the Land Office during the 60-day publication period.

CERTIFICATE OF SURVEYOR

27 May, 1960

I, Richard L. Merritt,  
 Mineral Surveyor, hereby certify upon honor that in pursuance of an order received from the office of  
Cadastral Engineer, at Phoenix, Arizona  
 dated 19 October 1959, and amended  
10 May, 1960, I have faithfully and correctly executed the survey of  
 the mining claim of Johnie G. Patrick and Zelda C. Patrick,  
 known as the Royal Blue Nos. 1, 2 and 3; and Mesa Verde No. 2 lodes  
(Lode, placer, or mill site)  
 situate in Secs. 11 and 12  
T. 11 North, R. 14 East, Gila and Salt River Meridian, Arizona, and  
(State)  
 designated as Survey No. 4511, which is represented in the foregoing field notes as having been  
 executed by me and under my direction, and that said survey has been made in strict conformity with said order,  
 the Manual of Instructions for the Survey of the Public Lands of the United States, and in the specific manner  
 described in the foregoing field notes, and I do further certify that the labor expended and improvements made  
 upon or for the benefit of the lode location(s) embraced in the said mining claim by  
(Lode or placer)  
 claimant(s) or their grantors are fully stated in my report therein, and that the character,  
 extent, location, and itemized value thereof are specified therein with particularity and full detail, and that no  
 portion of, or interest in, said labor and improvements so credited to this claim has been included in the estimate  
 of expenditures upon any other claim.
