brush 79.56 chains

Nov 4<sup>th</sup> 1900

General Description of  
Township 28 N R. 1 E. of the  
Gila and Salt River Base  
and Meridian in the Territory  
of Arizona -

This Township is rough and  
hilly in the North Eastern part  
and rolling in the central and  
western part, while the rough and  
hilly portion is covered with  
Cedar and Piñon timber there is  
no timber in the central and  
western part. The Santa Fe  
and Grand Canyon R.R. which

Township, 28 N., R. 1 E.,

branches off of the Santa Fe Pacific  
R.R. at Williams runs through  
the township nearly due North.

There are a few valleys and  
flats which seem to have a  
good soil over them, but the  
township for the most part is  
rocky and gravelly. Especially in  
the eastern part is this true.

There being copper deposits  
and outcroppings over the entire  
Eastern half. No mines have been  
developed although there are  
numerous prospect holes.

There is no water, little grass,  
and no settlers.

J. B. Girard  
U.S. Deputy Surveyor.

## A P P R O V A L.

OFFICE OF THE UNITED STATES SURVEYOR GENERAL

Tucson, Arizona.

Dec. 18, 1900.

The foregoing field notes of the survey of The Sub-units of T 28X.

R. I. C. Guay of Salt River

executed by James B. Girard

under his contract No. 72, dated June

13, 1900, having been critically

examined, and the necessary corrections

and explanations made, the said field

notes, and the surveys they describe,

are hereby approved.

U. S. Surveyor General for Arizona.
