Township 4 S. R. 73 E.  
 Gila Salt River Meridian  
 Sec. General Description.

The Gila river runs diagonally nearly through the center of this township. Along the river is rich bottom land from a mile to two miles in width, which will produce heavy crops. The N.E. part of the Twp. lies on a rocky mesa, and broken hills. Secs. 11. 12. 13. 14. 23 and 24, are covered by some black hills, worthless, and not known to contain mineral. There is some cactus over the surface. I did not survey these sections. There is cottonwood, willow, and mesquite timber along the river.

Theodore H. White

U.S. Deputy Surveyor.
