PRELIMINARY OATHS OF ASSISTANTS.

WE, R. A. Vasquez
and L. D. Burton

do solemnly swear that we will faithfully execute the duties of Chain Carriers; that we will level the chain upon uneven ground, and plumb the tally pins, whether by sticking or dropping the same; that we will report the true distance to all notable objects, and the true length of all lines that we assist in measuring, to the best of our skill and ability.

R. A. Vasquez
L. D. Burton

Sworn to and subscribed before me, this 11th
day of December, 1874

February 16, 1875

To cor. of frac. Secs. 12 & 7 on the E. boundary of the township

Township 6 S. Range 24 East
Gila and Salt River Meridian

General Description:

The Gila River runs through the S. E. part of the township, along this on either side for a width of from one to two miles the land is a rich bottom, which can be easily irrigated from the river. Cottonwood Creek crosses the S. E. cor. of the township and there is some good land along it; but the most of the southern part is a broken mesa with poor soil. Along the western part are flats with soil of good quality. There is cottonwood and willow timber along the river and mesquite in the bottom.

FINAL OATH OF DEPUTY SURVEYOR.

I, Theodore J. White

U. S. Deputy Surveyor do solemnly swear that, in pursuance of a contract with John Wasson, United States Surveyor-General for Arizona, bearing date the 5th day of November

1874 I have well, faithfully and truly, in my own proper person, and in strict conformity with the instructions furnished by the Surveyor-General, the Surveying Manual, and the laws of the United States, surveyed all those portions of

the subdivision lines, and meanders of the Gila River through the township, of Township 6 South of Range 24 East of the Gila and Salt River Meridians

as are represented in the foregoing Field Notes as having

been surveyed under my directions; and I do further solemnly swear that all the corners of said surveys have been established and perpetuated in strict accordance with the Surveying Manual and printed instructions, and also in accordance with the additional requirements contained in circular instructions from the U. S. Surveyor-General for Arizona, dated September 1, 1873, regarding the establishment of corner boundaries of public surveys, and that the foregoing are the true and original Field Notes of such surveys.

Theodore F. White
