ment

General Description

This Township is very level
covered with a dense growth of
greasewood brush from 4 to 8 ft high
The Santa Cruz creek flows
through the T_p from S E to N W
It contains water only during
the wet season and hence during
most part of the year there is

Paris Subdivision T9 S. R. & E - Continued

no water in the township. The soil
is rich. There are no settlers and
no improvements in the township.
There is considerable scrub mesquite
scattered over the township.
