## General Description

The San Pedro River runs through the center of this Township. Bordering it is much good farming land, more particularly in the S. or S.W. portion; a number of settlers are there engaged in farming.

In section 15, the valley closes in to a narrow cañon, but afterwards widens somewhat. There are no settlers along the river N. of the cañon.

The remainder of the township falls on hilly land, sometimes very broken.

The most of this is good pasture land.
