General Description.

The foregoing are the field notes of the survey of fields in Secs. 2, 11, and and the E. 1/2 of secs. 3, 10 and 15 of Tp. 14 S. Range 13 E., Gila and Salt River Meridian, Arizona granted to settlers by an act of Congress entitled an "Act to grant title to certain lands in Arizona" approved February 8, 1875.

X Acting under contract made by me with parties in interest, in conformity to instructions issued by the Hon. Commissioner to the Register at Florence of date April 8, 1875, I made

a preliminary survey of these fields or lots in Oct. 1875 and verified the same under oath. This preliminary survey furnished the Register the necessary information concerning the various fields and the present survey is identical with the preliminary one with such slight alterations as were rendered necessary by the decisions of the Register.

The posts mentioned in the notes, which were set in the preliminary survey, are all about 3 ft. in length. 2 in. diameter and driven 2 ft. in the ground, They are all plainly marked

and will be lasting. No instructions were given concerning posts the fence bounding and marking the fields perfectly well.

These fields lie in the valley of the Santa Cruz river directly in front and to the west of the Town of Tucson. The soil is exceedingly fertile yielding now as it has done for years two full crops each year. Water is plentiful and irrigating ditches are found throughout the fields.
