Subdivision of T 30. N. R. 4 W.

Survey commenced July 31st 1901, and was executed with a light mountain Transit with a Burt Solar attachment.

In order to try the adjustment of my transit I test it on the true Meridian established July 25th 1901 at my camp, record of which is in the book containing the notes of the North and West Boundaries of this Tp.

I find the adjustment practically correct.
