WE, _____ and _____
do solemnly swear that we will well and faithfully execute the duties of chainmen; that we will level the chain upon even and uneven ground, and plumb the tally pins, either by sticking or dropping the same; that we will report the true distances to all notable objects, and the true lengths of all lines that we assist in measuring, to the best of our skill and ability, and in accordance with instructions given us, in the survey of _____

_____, Chainman.
_____, Chainman.

Subscribed and sworn to before me this _____
day of _____, 190 }

WE, _____ and _____
do solemnly swear that we will well and truly perform the duties of moundmen in the establishment of corners, according to the instructions given us, to the best of our skill and ability, in the survey of _____

_____, Moundman.
_____, Moundman.

Subscribed and sworn to before me this _____
day of _____, 190 }

WE, _____ and _____
do solemnly swear that we will well and truly perform the duties of axmen in the establishment of corners and other duties, according to instructions given us, to the best of our skill and ability, in the survey of _____

_____, Axman.
_____, Axman.

Subscribed and sworn to before me this _____
day of _____, 190 }

I, _____, do solemnly swear that I will well and truly perform the duties of flagman according to instructions given me, to the best of my skill and ability, in the survey of _____

_____, Flagman.

Subscribed and sworn to before me this _____
day of _____, 190 }

Survey Commenced July 1st 1908 and executed with a Young and Sons light mountain transit No. 10 with the Smith solar attachment, the horizontal limb being provided with two double verniers placed opposite to each other reading to single minutes of arc which is also the least count of the verniers of the latitude and declination arcs.

Began at the Cor. of Twp 25 and 26 N, R 18 and 19 E ^{described in Exterior Book "A"} which was established June 17th 1907, Latitude $35^{\circ} 35' 48''$ N, Longitude $110^{\circ} 22' 12''$ W

At this Cor. At 12^h 50.3^m a.m. l.m.t. by my watch which is correct local mean time I observed Polaris at Eastern elongation in accordance with the instructions in the manual and mark a point in the direct outward determined by a tach driver in a stake set in the ground 5 Chs. N. of the cor.

At 6^h 30^m a.m. ^{l.m.t.} Lay off the azimuth of Polaris $1^{\circ} 27'$ to the west and mark the meridian thus determined by a tach driver in a stake set in the ground 5 Chs. N. of the cor. then I run East. Sec. 26 and 31

Over level land through sage brush and greasewood undergrowth

39.49

Set a malapas stone 12x9x7 ins. 8 ins. in the ground for 1/4 sec. cor. marked 1/4 on N. face.

Dig pits 18x18x12 ins. E and W of stone 3 ft. dist and raise a mound of earth 3 1/2 ft. tall 1/2 ft. high N. of cor.

79.49

Set a malapas stone 12x9x5 ins. 8 ins. in the ground for cor. of sec. 5, 6, 31 and 32. marked with 5 notches on E and 1 notch on Wedges.

Dig pits 18x18x12 ins. in each sec 5 1/2 ft. dist and raise a mound of earth 4 ft. tall 2 ft. high. W of cor.

Land level.

Soil sandy and a dol. 2nd and 3rd rate

July 2nd 1908

This 2nd day of July 1908. I employ Charles A. Dutton to perform the duties of Axman, Walter C. Snuffer to perform the duties of Chainman, and Robt. E. Claborn to perform the duties of Flagman, No officer authorized to administer oaths other than myself, being available without inconvenience. Delay and expense I administered the required preliminary oaths.

Sidney E. Blous
 U.S. Examiner of Surveys
 July 2nd 1908

July 3rd 1908 At 7^h 04^m am l.m.l. Dip off 35° 41' N.
