# FIELD NOTES

OF RETRACEMENT OF

Part of S. bdy. of Township 15 North, Range 4 East,  
Part of the Subdivision Lines of Township 15 North, Range 3 East, and  
Patented Mineral Claims in same Township,  
Part of East bdy. of Township 16 North, Range 2 East.

RESURVEY of

Part of the South Boundary of Township 16 North, Range 3 East,

Part of the East Boundary and Subdivision Lines of Township 15 N., R. 3 E. &

SURVEY OF

West and South boundaries, and part of the Subdivision lines of

South Boundary of TOWNSHIP 15 NORTH, RANGE 3 EAST,

Of the Gila and Salt River Base and Meridian,

In the State of Arizona.

EXECUTED BY

Sidney E. Blout,

In the capacity of U. S. Surveyor, under Special Instructions dated October 20, 1916,  
issued by the United States Surveyor General to govern surveys included in Group  
No. 61, which were approved by the Commissioner of the General Land  
Office, November 6, 1916, and Assignment Instructions dated October 19, 1917.

Retracement,  
Resurvey and Survey commenced November 8, 1917.

Retracement,  
Resurvey and Survey completed December 17, 1917.

BOOK 3333

# INDEX DIAGRAM.

— Lines surveyed under this group.

- - - Lines retraced or resurveyed under this group.

— Lines of accepted surveys.

- - - Unsurveyed.

/// Areas surveyed as per accepted plats on file.

Mineral retracements on pages 45 and 46.

Chains.

Survey executed by Sidney E. Blout, U.S. Surveyor, on dates shown on page 48 hereof, using Buff light mountain transit No. 9984, with Smith solar attachment. The horizontal limb is provided with two double verniers, placed opposite to each other, and reading to single minutes of arc, which is also the least count of the verniers of the latitude and declination arcs.

The instrument was examined, tested on the true meridian at Phoenix, Arizona, was found correct, and was approved by the Assistant Supervisor of Surveys for Arizona and California, October 29, 1917, conditional upon satisfactory field tests.

In the surveys made under this group, a five chain tape and clinometer were used, slope measurements were made and angles read, and the correct horizontal distance was computed for each item of topography.

Examine the adjustments of the transit, and correct the level and collimation errors; then, to test the solar apparatus by comparing its indications resulting from solar observations made during a.m. and p.m. hours with a meridian established by observations on Polaris, proceed as follows:

November 5, 1917: At camp, near the cor. of secs. 19, 24, 25 and 30, on the E. bdy. of T. 15 N., R. 3 E.; lat.  $34^{\circ} 40\frac{1}{2}' N.$ ; long.  $111^{\circ} 58\frac{1}{2}' W.$ , at 6 h. 29 m., p.m., l.m.t., observe Polaris in accordance with the Manual of Instructions, and mark a point in the line thus determined by a nail driven in a stake, 5 chs. N. of station.

|   |                         |
|---|-------------------------|
| U.C. of Polaris, Nov. 5, Greenwich Meridian, Civil Date and mean time | 10h. 33.5m. p.m.        |
| Reduction to local meridian,  | 1.2                     |
| U.C. Polaris, Local Meridian,   | <u>10h. 32.3m. p.m.</u> |
| Time of observation,  | <u>6h. 29. m. p.m.</u>  |

|                                      |                               |
|--------------------------------------|-------------------------------|
| Hour angle of Polaris at observation | 4h. 3.3m.                     |
| Azimuth of Polaris at observation    | $1^{\circ} 12\frac{1}{2}' E.$ |

November 6, 1917: At 8h. 10m. a.m., l.m.t., lay off the azimuth of Polaris,  $1^{\circ} 12\frac{1}{2}'$  to the west, and mark the true meridian thus determined by a nail driven in a stake about 5 chs. N. of station.

At 8h. 15m., a.m., l.m.t., set off  $34^{\circ} 40\frac{1}{2}' N.$  on the lat. arc;  $15^{\circ} 55' S.$  on the decl. arc, and determine a meridian with the solar, and mark a point thereof by a nail driven in the stake already set 5 chs. N. of station, on which the solar meridian falls .4 ins. E. of the meridian established by Polaris observation.

At 2h. 44m. p.m., l.m.t., set off  $34^{\circ} 40\frac{1}{2}' N.$  on the lat. arc;  $16^{\circ} 00' S.$ , on the decl. arc, and determine a meridian with the solar, and mark a point thereof by a nail driven in the stake already set, 5 chs. N. of station. This point falls .3 ins. W. of the meridian established by Polaris observation.

The solar apparatus by a.m. and p.m. observations, defines positions for meridians respectively about  $0^{\circ} 21' E.$  and  $0^{\circ} 1' 16'' W.$  of the meridian determined by observations on Polaris; therefore, conclude that the adjustments of the instrument are satisfactory.

Retracement for Resurvey of the  
2. South half of East bdy of Township 15 North, Range 3 East.

Chains.

From the cor. of secs. 13, 18, 19 and 24, on the E. bdy. of T. 15 N., R. 3 E., which is a quartz stone, 8x8x8 ins., above ground, firmly set, marked and witnessed as described by the surveyor general,  
South on retracement, along E. bdy. of T. 15 N., R. 3 E., setting temporary  $\frac{1}{4}$  sec. and sec. cors. at intervals of 40.00 chs. and making diligent search for the original cors., but without success; and at 239.55 chs. fall 24 lks. E. of the original cor. of Ts. 14 and 15 N., Rs. 3 and 4 E., which is a squared and notched stake, set in a mound of stone, without other markings. The true course of this line is therefore S. 0° 3' W., and the length of each individual mile is 79.85 chs.

Retracement: Part of S. bdy. of Township 15 North, Range 4 E.

In order to prove beyond a doubt that above described cor. is the original cor. of Ts. 14 and 15 N., Rs. 3 and 4 E., retrace from this cor. east, and at 39.13 chs., intersect the original  $\frac{1}{4}$  sec. cor. of secs. 6 and 31, which is a stone, set in a mound of stone, marked and witnessed as described by the surveyor general.

Resurvey of S. half of E. bdy. of Township 15 North, Range 3 E.

Reestablish the cor. of Ts. 14 and 15 N., Rs. 3 and 4 E., in the same place as follows:

Set an iron post, 3 ft. long, 3 ins. in diam., 24 ins. in the ground, for reestablished cor. of Ts. 14 and 15 N., Rs. 3 and 4 E., marked on brass cap,

Resurvey of part of the Subdivision of T. 15 N., R. 3 E.

Begin at the original cor. of secs. 13, 14, 23 and 24, hereinbefore described. Reestablish this cor. in the same place as follows:

Set an iron post, 3 ft. long, 2 ins. in diam., 24 ins. in the ground, for reestablished cor. of secs. 13, 14, 23 and 24, marked on brass cap,

|      |      |
|------|------|
| T15N | R 3E |
| S14  | S13  |
| S23  | S24  |
| 1917 |      |

and raise a mound of stone, 2 ft. base, 1½ ft. high, W. of cor.

Thence, S. 89° 41' W., on a true line, bet. secs. 14 and 23. Over rolling mesa, thru. scattering undergrowth.

39.00 Wash, course NE.

40.17½ (Proportional dist.) Set an iron post, 3 ft. long, 1 in. in diam., 26 ins. in the ground for reestablished ¼ sec. cor., marked on brass cap.

|      |
|------|
| S14  |
| S 23 |
| 1917 |

and raise a mound of stone, 2 ft. base, 1½ ft. high, N. of cor.

45.00 Road brs. NW and SE.

80.35 (Proportional dist.) Intersect stake set at proper point for reestablishment of sec. cor., determined as hereinbefore described.

Set an iron post, 3 ft. long, 2 ins. in diam., 24 ins. in the ground, for reestablished cor. of sec. 14, (SW. cor.) marked on brass cap,

|       |
|-------|
| T 15N |
| S14   |
| R3E   |
| 1917  |

And raise a mound of stone, 2 ft. base, 1½ ft. high, NE. of cor.

Land, rolling mesa.  
Soil, sandy and rocky, 3rd rate.  
No timber. Undergrowth, mesquite and catclaw.

From the reestablished cor. of secs. 13, 14, 23 and 24, hereinbefore described,

N. 0° 23' W., on a true line, bet. secs. 13 and 14 (S. ½).

Over rolling land, thru. scattering undergrowth.

18.70 Descend 20 ft.

20.65 Wash, 25 lks. wide, course NE. Ascend 30 ft.

GENERAL DESCRIPTION.

In the part of this Tp. surveyed as described in the foregoing notes, the surface is mountainous, rolling and level. The mountainous surface is confined to the western and southwestern parts, the remainder of the secs. surveyed being rolling with scattered areas of level land. The drainage is toward the east thru washes, ravines and canyons, the principal of which is "Black Canyon", which passes thru the south two tiers of secs.. The only land of agricultural value lies north of Black Canyon, which portion of the Tp. is now occupied by a number of settlers, who have cultivated the land and made many improvements. Along the west bdy. of the Tp. there are indications of valuable mineral deposits, and several patented mining claims are located in secs. 6, 7 and 18. There is very little timber in the Tp., and the undergrowth is mostly scattering.

## CERTIFICATE OF UNITED STATES SURVEYOR.

I, Sidney E. Blout, U. S. Surveyor, hereby certify upon honor that, in pursuance of special instructions received from the U. S. Surveyor General, for Group 61, Arizona, bearing date of the 20th day of October, 1916, I have well, faithfully, and truly in my own proper person, and in strict conformity with said instructions, the Manual of Surveying Instructions, and the laws of the United States, ~~surveyed~~ **retraced** all those parts or portions of the S. bdy. of T.15 N., R.4 E., E. bdy. of T.16 N., R.2 E. and Subdivision lines of T.15 N., R.3 E., and Patented Mineral Claims in same Township; Resurveyed all those parts or portions of the S. bdy. of T.16 N., R.3 E.; E. bdy. and Subdivision lines of T.15 N., R.3 E.; and Surveyed all those parts or portions of the W. and S. bdrs. and Subdivision lines of T.15 N., R.3 E., of the Gila and Salt River Base & Meridian, in the State of Arizona, which are represented in and by diagram on page 48 hereof the foregoing field notes, as having been executed by me, and under my direction; and that all the corners of said **retracement, resurvey and** survey have been established and perpetuated in strict accordance with the Manual of Surveying Instructions, and the special written instructions of the U. S. Surveyor General, for Group 61, Arizona, and in the specific manner described in the field notes, and that the foregoing are the original field notes of such ~~survey~~ **retracement, resurvey and survey**.

*Phoenix, Arizona  
Nov. 28, 1919.*

*Sidney E. Blout*  
U. S. Surveyor.

## APPROVAL.

OFFICE OF THE UNITED STATES SURVEYOR GENERAL,

*Phoenix, Arizona May 14, 1920*

The foregoing field notes of the ~~survey of~~ **retracement** of part of the S. bdy. of T. 15 N., R.4 E., part of the E. bdy. of T.16 N., R.2 E., and part of the Subdivision lines of T.15 N., R.3 E., and Patented Mineral Claims in same Tp., Resurvey of part of the South boundary, of T.16 N., R.3 E., part of E. bdy. and Subdivision lines of T.15 N., R.3 E., and Survey of W. and S. bdrs., and part of Subdivision lines of T.15 N., R.3 E., Gila & Salt River Base & Meridian, in the State of Arizona, executed by Sidney E. Blout, U. S. Surveyor, under ~~his~~ special instructions dated Oct. 20, 1916, for Group 61, Arizona, having been critically examined, and the necessary corrections and explanations made, the said field notes, and the **retracements, resurveys &** surveys they describe, are hereby approved.

*Frank B. Smith*  
U. S. Surveyor General.

I certify that the foregoing transcript of the field notes of the above described surveys in \_\_\_\_\_, has been correctly copied from the original notes on file in this office.
