FIELD NOTES

OF THE SURVEY OF THE

East boundary of Township 7 South, Range 13 East, and the

North boundary and

Subdivision lines of

TOWNSHIP 7 SOUTH, RANGE 14 EAST.

Of the Gila and Salt River Base and Meridian,

In the State of Arizona

EXECUTED BY

Herbert N. Raymond, U. S. Cadastral Engineer

and

Dupree R. Averill, U. S. Transitman.

In the capacity of U. S. Surveyors, under Special Instructions dated 191 ,
issued by the United States Surveyor General to govern surveys included in Group
No. 81 , which were approved by the Commissioner of the General Land
Office, February 27 , 1918 , and Assignment Instructions dated February 7 , 1919

Survey commenced April 12 , 1919 .

Survey completed April 19 , 1919 .

Accepted survey

For dates of execution of survey of this line see book "N"

Dotted red lines on above diagram indicate surveys executed by Herbert N. Raymond, U. S. Cadastral Engineer, on dates shown thereon.

Blue lines on above diagram indicate surveys executed by Dupree R. Liverill, U. S. Transitman, on dates shown thereon.

Survey hereinafter described executed by Herbert N. Raymond, U. S. Cadastral Engineer and Dupree R. Averill, U. S. Transitman, on dates shown on diagram on page 1 hereof, using respectively W. and L. E. Gurley transit "Memo G" and Young and Sons' light mountain transit No. 8541, both of which are described, with certificate of approval by the Assistant Supervisor of Surveys, In Book "U".

We examine the adjustments of the transits and correct all errors; then, to test the solar apparatus, by comparing their indications, resulting from solar observations made during a.m. and p.m. hours, with a meridian determined by observations on Polaris at elongation, we proceed as follows:

Apr. 13, 1919: At our camp in sec. 21, T. 7 S., R. 14 E., G. and S. R. B. and M., in lat. $32^{\circ}49'N.$, long. $110^{\circ}54\frac{1}{2}'W.$, at 6 hrs. 13 m., a.m., l.m.t., we observe Polaris at eastern elongation, in accordance with the Manual of Instructions, and mark a point in the line thus determined by a tack in a stake, driven firmly in in the ground, 5 chs. N. of our station. We lay off the azimuth of Polaris, $1^{\circ}20\frac{1}{2}'$ to the west, and mark the true meridian thus determined by a tack in a stake, driven firmly in the ground, 5 chs. N. of our station.

At 9 hrs. 0 m., a.m., l.m.t., we set off $32^{\circ}49'N.$ on the lat. arcs; $8^{\circ}50\frac{1}{2}'N.$ on the decl. arcs; and determine a meridian with each solar, which agrees with the true meridian.

At apparent noon, with the lat. arcs unchanged, we observe the sun on the meridian; the resulting reading of the decl. arcs is $8^{\circ}53'N.$, which is the computed decl. of Polaris.

At 3 hrs. 0 m., p.m., l.m.t., with the lat. arcs; unchanged, we set off $8^{\circ}56'N.$ on the decl. arcs; and determine a meridian with each solar, which we find to agree with the true meridian.

As all of the solar observations during the usual hours of solar work come within 1'30" of the true meridian, we conclude that the adjustments of the instruments are satisfactory.

Survey of East bdy. of Township 7 South, Range 13 East.

The continued satisfactory adjustment of the solar apparatus during the survey of this township is indicated from field tests as described in Book "R" of this group.	

GENERAL DESCRIPTION.

SURFACE: Secs. 1 and 12, and west of secs. 6 and 31 is mountainous; balance of township rolling.

SOIL: Rocky, 1st to 4th rate, in the NE. portion, along the west boundary, and scattering other places, gravelly, 2nd and 3rd rate, in the southeast portion; balance, sandy, 1st and 2nd rate.

UNDERGROWTH: Catclaw, cactus, mesquite, manzanita, buck thorn, yucca, palo verde, oak brush, black brush, and thorn brush; dense west of sec. 30; balance scattering.

TIMBER: Oak, cedar and catclaw, in sec. 6, north of sec. 5, west of sec. 31, and bet. secs. 8 and 17.

EVIDENCE OF MINERAL: None.

WATERING PLACES: A windmill in sec. 21, windmills and tents in sec. 27, and windmill and well in sec. 31.

SETTLEMENT: Houses in secs. 5, 7, 21, 27 and 32.

INDUSTRY: The township can be used for grazing purposes.

IMPROVEMENTS: Roads and fences as shown, houses and windmills as stated, and a school house in sec. 7.
