# FIELD NOTES

OF THE SURVEY OF THE

East Boundary.....

West Boundary.....

North Boundary, and.....

Subdivision lines.....

of.....

TOWNSHIP 26 NORTH, RANGE 11 WEST,

*(within the Hualpai Indian Reservation)*

Of the Gila and Salt River Base and Meridian,

In the State of Arizona.

EXECUTED BY

Horace M. Muscott, and Claude F. Warner,

U. S. Transitmen.

In the capacity of U. S. Surveyors, under Special Instructions dated February 26, 1920,

issued by the United States Surveyor General to govern surveys included in Group

No. 108, Arizona, which were approved by the Commissioner of the General Land

Office, March 10, 1920, and Assignment Instructions dated August 7, 1920  
Sept. 28, 1920

Survey commenced October 8, 1920.

Survey completed November 5, 1920.

For dates of survey of this line, see Book "D" of this Group

Blue lines on above diagram indicate surveys executed by Claude F. Warner, U. S. Transitman, on dates shown thereon.

Red lines on above diagram indicate surveys executed by Morace M. Muscott, U. S. Transitman, on dates shown thereon

Survey commenced October 8, 1920, and executed with Young and Sons light mountain transit No. 8489 and Buff Rocky Mountain Favorite transit No. 9977; the instruments are equipped with full vertical circle and the Smith solar attachments; unless otherwise specified, all azimuth determinations are accomplished with the solar attachment.

September 22, 1920. We examine the adjustments of the instruments and correct all errors; then to test the solar apparatus by comparing their indications from observations made during a. m. and p. m. hours with a meridian established by Polaris observation, we proceed as follows:

Determination of meridian by Mr. Muscott:

September 22, 1920. In camp in the SW.  $\frac{1}{4}$  of sec. 2, T. 25 N., R. 11 W., G. and S. R. B. and M., Arizona, lat.  $35^{\circ} 34\frac{1}{2}'$  N., long.  $113^{\circ} 26'$  W., at 7 hrs. 30 m., p. m., i. m. t., I observe Polaris at eastern elongation, making four observations, two each with the telescope in direct and reversed positions, and mark the mean point in the line thus determined, on a peg driven firmly in the ground, 5 chs. N.

Azimuth of Polaris at eastern elongation is  $1^{\circ} 22' 36''$ .

September 23, 1920. At 7 hrs. 0 m., a. m., i. m. t., I lay off the azimuth of Polaris,  $1^{\circ} 22\frac{1}{2}'$  to the west, and mark the meridian thus determined by a tack driven in a peg, set firmly in the ground, 5 chs. N.

Field tests of instruments by Mr. Muscott and Mr. Warner.

October 2, 1920. Using the meridian determined as above described, at 9 hrs. 0 m., a. m., i. m. t., we set off  $35^{\circ} 34\frac{1}{2}'$  N. on the lat arcs;  $3^{\circ} 37'$  S. on the decl. arcs; and determine a meridian with each solar, which agrees with the true meridian.

At apparent noon, with the lat. arcs unchanged, we observe the sun on the meridian with each transit; the resulting readings of the decl. arcs are  $3^{\circ} 40'$  S. in each case, which agrees with the computed declination of the sun.

At 3 hrs. 0 m., p. m., i. m. t., with the lat arcs unchanged, we set off  $3^{\circ} 42\frac{1}{2}'$  S. on the decl. arcs; and determine a meridian with each solar, which we find to agree with the true meridian.

As all of the solar observations during the usual hours of solar work come within  $1' 30''$  of the true meridian, we conclude that the adjustments of the instruments are satisfactory.

Unless otherwise specified, all measurements are made with a Lufkin 5 ch. steel tape, compared with a Lufkin 1 ch. standard steel tape and found correct. The measurements are made on the slope, the vertical angle determined, and the slope measurements properly reduced to true horizontal distances.

## East Boundary of T. 26 N., R. 11 W.

Chains From the cor. of Ts. 25 and 26 N., Rs. 10 and 11 W., described in Book "C".

The continued satisfactory adjustment of the instruments thruout the survey of this township is indicated from field tests as shown in Book "F"

## GENERAL DESCRIPTION.

This township lies entirely within the Hualpai Indian Reservation. The greater portion of the township is rolling, although there are some portions mountainous.

The soil range is from 1st to 4th rates, the greater portion being 3rd and 4th rates. There is very little timber on the township; what there is being scrub juniper and pinyon.

There are no permanent streams and no settlers.

A road crosses the township in a northerly and southerly direction, leading from Lower Peach Springs to the Colorado River.

No apparent indications of mineral deposits were found.

Lower Peach Springs is located in Sec. 34 and Mesquite Spring in Sec. 2.

CERTIFICATE OF UNITED STATES TRANSITMAN.

BOOK 3545

I, Claude E. Warner, U.S. Transitman, hereby certify upon honor that, in pursuance of special instructions received from the U. S. Surveyor General, for Group 108, Arizona, bearing date of the 20th day of February, 1920, I have well, faithfully, and truly in my own proper person, and in strict conformity with said instructions, the Manual of Surveying Instructions, and the laws of the United States, surveyed all those parts or portions of the North boundary, and Subdivision lines of TOWNSHIP 26 NORTH, RANGE 11 WEST,

of the Gila and Salt River Base & Meridian, in the State of Arizona, and by diagram on page 1 hereof the foregoing field notes as having been executed by me, and under my direction; and that all the corners of said survey have been established and perpetuated in strict accordance with the Manual of Surveying Instructions, and the special written instructions of the U. S. Surveyor General, for Group 108, Arizona, and in the specific manner described in the field notes, and that the foregoing are the original field notes of such survey.

Place Helena Mont. Claude E. Warner U.S. Transitman.

Date Apr 11, 1923 APPROVAL.

OFFICE OF THE UNITED STATES SURVEYOR GENERAL,

191

The foregoing field notes of the survey of

executed by under his special instructions dated 191, having been critically examined, and the necessary corrections and explanations made, the said field notes, and the surveys they describe, are hereby approved.

U. S. Surveyor General.

I certify that the foregoing transcript of the field notes of the above-described surveys in, has been correctly copied from the original notes on file in this office.

U. S. Surveyor General.

CERTIFICATE OF UNITED STATES TRANSITMAN.

I, Horace M. Muscott, U. S. Transitman, hereby certify upon honor that, in pursuance of special instructions received from the U. S. Surveyor General, for Group 108, Arizona, bearing date of the 20th day of February, 1920, I have well, faithfully, and truly in my own proper person, and in strict conformity with said instructions, the Manual of Surveying Instructions, and the laws of the United States, surveyed all those parts or portions of the East Boundary West boundary, North boundary, and Subdivision lines of

TOWNSHIP 20 NORTH, RANGE 11 WEST,

of the Gila and Salt River Base and Meridian, in the State of Arizona, and by diagram on page 1 hereof the foregoing field notes as having been executed by me, and under my direction; and that all the corners of said survey have been established and perpetuated in strict accordance with the Manual of Surveying Instructions, and the special written instructions of the U. S. Surveyor General, for Group 108, Arizona, and in the specific manner described in the field notes, and that the foregoing are the original field notes of such survey.

Place Los Angeles, Calif. Horace M. Muscott U.S. Transitman, Date March 22, 1923

APPROVAL.

OFFICE OF THE UNITED STATES SURVEYOR GENERAL,

Phoenix, Arizona, JUN 18 1923

The foregoing field notes of the survey of the East Boundary West boundary, North boundary, and Subdivision lines of

TOWNSHIP 20 NORTH, RANGE 11 WEST,

of the Gila and Salt River Base & Meridian, in the State of Arizona,

executed by Horace M. Muscott, and Claude F. Warner, U. S. Transitmen, under special instructions dated Feby. 20, 1920, for Grp. 108, Arizona, having been critically examined, and the necessary corrections and explanations made, the said field notes, and the surveys they describe, are hereby approved.

Frank D. Smith U. S. Surveyor General.

I certify that the foregoing transcript of the field notes of the above described surveys in has been correctly copied from the original notes on file in this office.

U. S. Surveyor General.
