## OF THE RETRACEMENT OF

The First Standard Parallel South, thru Part of Range 16 East

and

Part of the Subdivision Lines of Township 6 South, Range 17 East

## OF THE RESURVEY OF

The West boundary, Part of the South boundary

and

Part of the Subdivision Lines of Township 6 South, Range 17 East

## AND OF THE SURVEY OF

The East boundary, Part of the South boundary

and

Part (Completion) of Subdivision Lines of Tp. 6 South, R. 17 East

Of the Gila and Salt River Base and Meridian,

In the State of Arizona

### EXECUTED BY

William E. Hiester, U.S. Surveyor

and

Theodore Vander Meer, U.S. Transitman

In the capacity of U. S. Surveyor <sup>Supplemental</sup>, under Special Instructions dated September 27, 1928, issued by the District Cadastral Engineer to govern surveys included in Group No. 141 Arizona, which were approved by the Commissioner of the General Land Office, November 13, 1928, and Assignment Instructions dated November 17, 1928.

Retracement, Resurvey & Survey commenced December 3, 1928.

Retracement, Resurvey & Survey completed January 16, 1929.

*Resurv.  
 in 1924*

— Surveyed by William E. Hiester, U.S. Surveyor, on dates shown thereon.

- - - Resurveyed by William E. Hiester, U.S. Surveyor, on dates shown thereon.

— Retraced by William E. Hiester, U.S. Surveyor, on dates shown thereon.

— Surveyed by Theodore Vander Meier, U.S. Transitman, on dates shown thereon.

— Accepted surveys, retracements or resurveys.

Retracements, resurveys and surveys hereinafter described were commenced on December 3, 1928, and were executed on the dates shown on the diagram on page 1 hereof, by William E. Hiester, U.S. Surveyor, using Buff and Buff transits Nos. 19423 and 10125 respectively, and Theodore Vander Meer, U.S. Transitman, using Buff and Buff transit No. 9977.

All instruments are equipped with full vertical circles and improved Smith solar attachments. The horizontal limbs are provided with two double verniers placed opposite to each other reading to single minutes of arc, which is also the least count of the verniers of the vertical circles and latitude and declination arcs.

The instruments were approved, subject to the usual field tests, by the District Cadastral Engineer for Arizona.

Unless otherwise specified, all azimuths are determined with the solar attachments.

PRELIMINARY TEST OF TRANSITS Nos. 19423 and 10125.

Examine the adjustments of the instruments and find no errors, then to test the solar apparatus by comparing their indications resulting from a.m. and p.m. hours with a meridian determined by observations on Polaris, proceed as follows:

November 29, 1928, with Buff and Buff transit No. 19423, near the center of sec. 33 of T. 6 S., R. 17 E., G. & S. R. Base Meridian, Arizona, in latitude  $32^{\circ}52'N.$ , longitude  $110^{\circ}36\frac{1}{2}'W.$ , at  $3^h 0^m$  a.m., l.m.t., observe Polaris at western elongation, making four observations, two each with the telescope in direct and reversed positions, and mark the mean point in the line thus determined by a tack driven in a peg firmly set in the ground 5 chains north.

Azimuth of Polaris at western elongation is  $1^{\circ}16'52''$

At the same station, at  $7^h 30^m$  a.m., app.t., lay off the azimuth of Polaris  $1^{\circ}17'$  to the east, and mark the meridian thus determined by a tack driven in a peg firmly set in the ground 5 chains N.

At  $8^h 0^m$  a.m., app.t., set off  $32^{\circ}52'N.$  on the latitude arcs,  $21^{\circ}28'S.$  on the declination arcs, and determine meridians with the solar which are found to agree within 1' with the true meridian.

At app. noon, with the latitude arcs unchanged, observe the sun on the meridian; the resulting reading of each declination arc is  $21^{\circ}31\frac{1}{2}'S.$ , which agrees with the computed declination of the sun.

At  $4^h 0^m$  <sup>p.m.</sup> app.t., with the latitude arcs unchanged, set off  $21^{\circ}31\frac{1}{2}'S.$  on the declination arcs and determine meridians with the solar, which are found to agree within 1' with the true meridian.

PRELIMINARY TEST OF TRANSIT NO. 9977

Transit No. 9977 used by Theodore Vander Meer, U.S. Transitman, was tested on the meridian heretofore described as follows:

Dec. 18, 1928,

At  $8^h 0^m$  a.m., app.t., set off  $32^{\circ}52'N.$  on the latitude arc,  $23^{\circ}20\frac{1}{2}'S.$  on the declination arc and determine a meridian with the solar, which is found to agree within 1' with the true meridian.

At app. noon, with the lat. arc unchanged, observe the sun on the meridian; the resulting reading of the declination arc is  $23^{\circ}23'S.$ , which agrees with the computed declination of the sun.

At  $4^{h}0^{m}$ , p.m., app. t., with the lat. arc unchanged, set off  $23^{\circ}21'S.$  on the declination arc, and determine a meridian with the solar, which is found to read within  $1'$  of the true meridian.

As all of the observations made during the usual hours of solar work come within  $1'$  of the true meridian, conclude that the adjustments of the instrument are satisfactory.

At intervals throughout the survey, meridians determined by solars during a.m. and p.m. hours were tested on the meridian determined by observations on Polaris and the instruments were maintained in proper adjustment.

-----  
FINAL INSTRUMENT TESTS.  
-----

At the conclusion of the survey, on the meridian hereinbefore described, test the instruments as follows:

January 18, 1929, at  $8^{h}0^{m}$  a.m., app. t., set off  $32^{\circ}52'N.$  on the lat. arcs,  $20^{\circ}30'S.$  on the declination arcs, and determine meridians with the solars, which are found to read within  $1'$  of the true meridian.

At app. noon, with the lat. arcs unchanged, observe the sun on the meridian; the resulting reading of each of the declination arcs is  $20^{\circ}30'S.$ , which agrees with the computed declination of the sun.

At  $4^{h}0^{m}$ , p.m., app. t., with the lat. arcs unchanged, set off  $20^{\circ}26'S.$  on the declination arcs, and determine meridians with the solars, which are found to agree with the true meridian.

As all of the solar observations made during the usual hours of solar work come within  $1'$  of the true meridian, conclude that the instruments have remained in satisfactory adjustment throughout the surveys described in the field notes in this book.

Unless otherwise specified, all measurements herein recorded were made with Lufkin and Lallie five chain steel tapes, found correct by comparison with a Keuffel and Esser standard steel tape, one chain in length.

The measurements are made on the slope, the vertical angles determined with clinometers or transit, and the slope measurements properly reduced to true horizontal distances for entry in the field notes.

-----

Chains The South bdy. of T.6 S., R.17 E., with the exception of the portion S. of sec.35, was surveyed in 1905 by J.F.Hesse, U.S.D.S., establishing all cor.monuments thereon with a common reference to areas on both sides of the line. The S. bdy. of sec.35 was measured by Surveyor Hesse in 1905, by means of an offset thru sec. 2, and no  $\frac{1}{4}$  sec.cor. or witness cor. thereto was established, therefore such portion of the Tp.bdy. remained unsurveyed.

In 1924, the N. bdy. of sec.2, T.7 S., R.17 E., was surveyed by Theodore Vander Meer, U.S.T., establishing the  $\frac{1}{4}$  sec. cor. with reference to the quarters of sec.2 only, thus leaving the S. bdy. of sec.35, technically unsurveyed.

In 1924, Transitman Vander Meer made a dependent resurvey of Tp. bdy. bet. secs.3 and 34, and bet. E. halves of secs.4 and 33, and an independent resurvey of N. bdy. of sec.1, T.7 S., R.17 E. In his resurvey of N. bdy. of sec.1, the  $\frac{1}{4}$  sec.cor. and sec. cor. were reestablished and monumented to refer to areas S. of line only, leaving the cor. of secs.35 and 36, and the  $\frac{1}{4}$  sec.cor. of sec.36, to be reestablished by future resurvey of S. bdy. of sec.36 in connection with completion of the survey of subdivision lines of T.6 S., R.17 E.

No other resurveys or retracements of this Tp. bdy. are of record.

The following notes describe a resurvey of the S. bdrs. of secs.31, 32, 33 and 36. In this resurvey of S. bdrs. of secs.31, 32 and 33 the existing cor.monuments thereon are reconstructed and altered to refer to areas S. of line only, and  $\frac{1}{4}$  sec. and sec.cor. monuments with reference to areas N. of line only, are reestablished, alternately, at 40 ch. intervals in departure, counting from the cor. of secs.3, 4, 33 and 34, and placed in proper alinement bet. existing cors.

The resurvey of S. bdy. of sec.36 was accomplished by merely changing the previously reestablished  $\frac{1}{4}$  sec. cor. of sec.1, and cor. of secs.1 and 2, to properly refer to areas on both sides of the line, and no retracement of the line was made. As presented in these notes the course and dist. of S. bdy. of sec.36 are copied from the record of the 1924 resurvey of N. bdy. of sec.1, T.7 S., R.17 E., and topography has been omitted.

-----  
 Resurvey.  
 -----

The cor. of Ts. 6 and 7 S., Rs. 16 and 17 E., as reconstructed  
 in original position in 1905, is a granite stone,  
 14x12x 8 ins. above ground, firmly set, marked with  
 6 notches on each of N., S., E. and W. faces, and wit-  
 nessed by a mound of stone, 4 $\frac{1}{2}$  ft. base, 2 $\frac{1}{2}$  ft. high,  
 S. of cor. No bearing trees.

No reconstruction or alteration of this cor. monument is  
 necessary.

Thence  
 N. 89° 39' E., on true line, on S. bdy. of sec. 31.  
 Over rolling land, thru scattering undergrowth.

21.87 Wash, 15 lks. wide, course S.  
 35.37 Intersect original  $\frac{1}{4}$  sec. cor. of secs. 6 and 31, which is  
 a sandstone 18x14x6 ins., marked  $\frac{1}{4}$ , and lying in the  
 center of a mound of stone, and witnessed by two  
 bearing trees:  
 a paloverde, 8 ins. diam., S. 20° W., 57 lks. dist.  
 marked  $\frac{1}{4}$  S6 BT  
 a paloverde, 6 ins. diam., N. 49 $\frac{3}{4}$ ° E., 74 lks. dist.,  
 marked  $\frac{1}{4}$  S31 BT

Reconstruct this cor. monument and alter its reference  
 as follows:  
 remove the old mound of stone and in center of its  
 position, reset old cor. stone 12 ins. in the ground,  
 and alongside same set an iron post, 3 ft. long, 1 in.  
 in diam., 30 ins. in ground, for  $\frac{1}{4}$  sec. cor. of sec. 6 only,  
 marked on brass cap.

$\frac{1}{4}$  S6

1928

Change the marking on the old NE. bearing tree to  
 read BT only.

Thence,  
 N. 89° 41' E., on true line, continuing measurement of S.  
 bdy. of sec. 31.

36.13 (40.00 chs. in west departure from reestablished cor. of  
 secs. 31 and 32) Set an iron post, 3 ft. long, 1 in. in  
 diam., 14 ins. in ground to bedrock, deposit a stone  
 marked with a cross (X) at base of post, and raise a  
 mound of stone, 3 $\frac{1}{2}$  ft. base, 22 ins. high, around post,  
 for reestablished  $\frac{1}{4}$  sec. cor. of sec. 31 only, marked on  
 brass cap.

Intersect the original cor. of secs. 3, 4, 33 and 34, reconstructed in 1924, which is an iron post, 2 ins. in diam., projecting 18 ins. above ground, firmly set in ground and mound of stone, alongside the original cor. stone, and properly marked on brass cap. No bearing trees.  
This cor. monument retains its original common reference therefore no alteration of same is required.

Land, mountainous.

Soil, sandy and rocky, 3rd rate.

Timber, none.

Undergrowth, scrub paloverde, mesquite, catclaw, yucca, and cactus.

The cor. of secs. 1 and 2, T. 7 S., R. 17 E., reestablished in 1924 is an iron post, 2 ins. in diam., projecting 8 ins. above ground, firmly set, properly marked on brass cap for said secs., and witnessed by two properly marked mesquite bearing trees, one each SE. and SW. of cor.  
Alter this cor. monument to refer to secs. 1, 2, 35 and 36 by changing marking on brass cap to read,

$$\text{T } 6 \text{ S } \text{ R } 17 \text{ E}$$

$$\text{S } 35 \text{ S } 36$$

$$\text{S } 2 \text{ S } 1$$

$$\text{T } 7 \text{ S } \text{ R } 17 \text{ E}$$

1924-28

	(For topography see 1924 record of resurvey of N. bdy. of sec. 1, T. 7 S., R. 17 E.)
80.00	The cor. of Ts. 6 and 7 S., R. 17 E., reestablished in 1924, which is an iron post, 3 ins. in diam., projecting 8 ins. above ground, firmly set, properly marked on brass cap, and witnessed by a mound of stone W. of cor. No bearing trees. This cor. monument retains same reference.

Retracement of 1st Standard Parallel S., thru Part of R.16 E.

Chains The First Standard Parallel South thru Range 16 East, as South bdy. of T.5 S., R.16 E., was surveyed in 1877 by J.L.Harris, U.S.D.S., and resurveyed in 1904 by P. Contzen, U.S.D.S.

No other resurvey or retracement of the Parallel in R.16 E. is of record.

The following notes describe a retracement of the Parallel on E.  $\frac{1}{2}$  of S. bdy. of sec. 36, T.5 S., R.16 E., for the purpose of reestablishing thereon, by proportional measurement, the missing closing cor. of Ts. 6 S., Rs. 16 and 17 E.

9.20 From previously reestablished std. cor. of Ts. 5 S., Rs. 16 and 17 E., West, on random line, on S. bdy. of sec. 36 (E.  $\frac{1}{2}$ ) (Record dist.) Diligent search in this vicinity fails to reveal any trace of the original closing cor. of Ts. 6 S., Rs. 16 and 17 E., established by J.L.Harris, U.S.D.S. in 1877.

39.69 Set temp. closing cor. and continue line and measurement. Fall 5 lks. S. of the previously reestablished std.  $\frac{1}{4}$  sec. cor. of sec. 36, which is a sandstone, 10x8x9 ins. above ground, firmly set, marked SC  $\frac{1}{4}$  on N. face, and witnessed by a mound of stone N. of cor. No bearing trees. True course and dist. of E.  $\frac{1}{2}$  of S. bdy. of sec. 36 are therefore, S. 89° 56' E., 39.69 chs.

30.57 Thence S. 89° 56' E., on true line, on S. bdy. of sec. 36 (E.  $\frac{1}{2}$ ) Over mountainous land, thru scattering undergrowth. Asc. 592 ft. over SW. slope to

(Proportional dist.) Set an iron post, 3 ft. long, 3 ins. in diam., 6 ins. in the ground to bedrock, deposit a stone marked with a cross (X) at base of post, and raise a mound of stone 5  $\frac{1}{2}$  ft. base, 2  $\frac{1}{2}$  ft. high, around post, for reestablished closing cor. of Ts. 6 S., Rs. 16 and 17 E., marked on brass cap,

18 Survey of Part of the South boundary of T.6 S.,R.17 E.

Chains

The following notes describe a survey of the South bdy. of Sec.35, T.6 S.,R.17 E. This portion of the Tp. bdy. is identical in position with the North bdy. of sec.2, T.7 S.,R.17 E., which was surveyed in 1924 by Theodore Wander Meer, U.S.T., establishing the 1/4 sec.cor.thereon with reference to quarters of sec.2 only.

The survey of South bdy. of sec.35 herein described is accomplished by merely altering the existing 1/4 sec. cor. monument to give it proper reference to both secs. 2 and 35, and no retracement of the line is made.

As presented in these notes, the course of the line, and the marginal distances, are copied from the record of the survey of N. bdy. of sec.2, and the topography has been omitted.

The cor.of secs.2,3,34 and 35 as reconstructed in original position in 1924, is an iron post, 2 ins.in diam., projecting 7 ins.above ground, firmly set, properly marked on brass cap, and witnessed by a mound of stone W. of cor. No bearing trees.

Thence, N.89°54'E., on true line, bet. secs.2 and 35.

(For topography see 1924 record of survey of N. bdy. of sec.2; T.7 S.,R.17 E. )

40.23 (Midpoint) The original 1/4 sec.cor.of sec.2 only, which is an iron post, 1 in.in diam., projecting 8 ins. above ground, firmly set, properly marked on brass cap, and witnessed by a mound of stone S. of cor. No bearing trees.

Alter this cor.monument to refer to the quarters of secs. 2 and 35, by changing marking on brass cap to read,

1924-28

Destroy old mound of stone S. of cor., and raise a mound of stone, 3 ft.base, 2 ft.high, N.of cor.

(For topography see 1924 record of survey of N. bdy. of sec. 2, T.7 S.,R.17 E. )

80.46 The reestablished cor. of secs.1,2,35 and 36, hereinbefore described.

Chains	<p>The following notes describe a survey of the East bdy. of T.6 S.,R.17 E., due North, establishing two sets of cors. thereon, one set referring to areas in T.6 S., R.17 E., only, and the other set referring to areas in T.6 S.,R.18 E. only, and establishing a closing cor. of Ts.6 S.,Rs.17 and 18 E. at the point of intersection of the range line with the 1st Std.Par. S.</p> <p>The <math>\frac{1}{4}</math> sec. and sec. cors.referring to areas in T.6 S., R.18 E. are established,alternately,at intervals of 40 chs. counting from the reestablished cor.of Ts.6 and 7 S.,R.18 E.</p> <p>The <math>\frac{1}{4}</math> sec.cor.of sec.36,and the cor.of secs.25 and 36, are established on the range line at 40 and 80 chs. respectively,North from the reestablished cor.of Ts. 6 and 7 S.,R.17 E.</p> <p>The north four latitudinal subdivision lines of the East range of secs.in T.6 S.,R.17 E. are surveyed easterly to intersections with the range line where sectional closing cors.are established.</p> <p>The <math>\frac{1}{4}</math> sec.cors.of secs.12,13,24 and 25,T.6 S.,R.17 E. are established on the range line at the midpoints of E. bdrs.of said secs.as determined from the positions of the closing cors., and the <math>\frac{1}{4}</math> sec.cor.of secs 1 is established at 40 chs. N. from C.C. of secs.1 and 12.</p> <p>-----</p> <p>From the reestablished cor.of Ts.6 and 7 S.,R.17 E., hereinbefore described, North, on true line, on E. bdy. of sec.36. Survey of the East boundary of T.6 S., R.17 E.

Chains

North, on true line, on E. bdy. of sec. 24.  
 Over mountainous land, thru scattering undergrowth.  
 Asc. slightly over SW. slope.  
 0.21 Ridge, bears NW. and SE. Desc. 90 ft. over NE. slope to  
 5.11 Set an iron post, 3 ft. long, 2 ins. in diam., 6 ins. in  
 ground to bedrock, deposit a stone marked with a cross  
 (X) at base of post, and raise a mound of stone around  
 post, for cor. of secs. 19 and 30 only, marked on brass  
 cap,

No bearing trees available.

40.18 Desc. 468 ft. over NE. slope to  
 Set an iron post, 3 ft. long, 1 in. in diam., 28 ins. in the  
 ground, for  $\frac{1}{4}$  sec. cor. of sec. 24 only, marked on brass  
 cap,

No bearing trees available.  
 raise a mound of stone, 4 ft. base, 2 $\frac{1}{2}$  ft. high, W. of cor.

41.71 Desc. 70 ft. over NE. slope.  
 Wash, 35 lks. wide, course NW. in bottom of canyon.  
 Asc. 96 ft. over steep SW. slope to foot of cliff.

44.65 Set an iron post, 3 ft. long, 1 in. in diam., 30 ins. in the  
 ground, for witness cor. to  $\frac{1}{4}$  sec. cor. of sec. 19 only,  
 marked on brass cap,

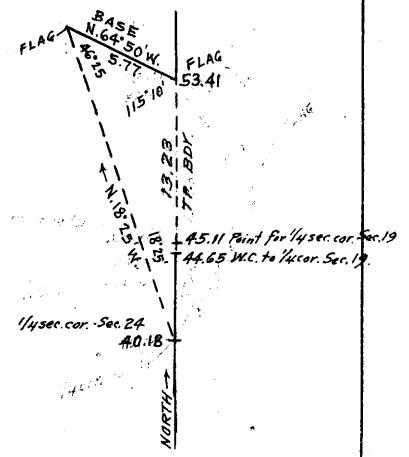

No bearing trees available.  
 raise a mound of stone, 4 $\frac{1}{2}$  ft. base, 2 $\frac{1}{2}$  ft. high, E. of cor.

45.01 Foot of cliff, 90 ft. high, facing SW.  
 Discontinue chaining.

45.11 True point for  $\frac{1}{4}$  sec. cor. of sec. 19 only falls on face of  
 same cliff, where it is impracticable to monument the  
 cor., therefore establish wit. cor. at 46 lks. S. as  
 hereinbefore described.

To obtain measurement on Tp. bdy. across cliffs, make a  
 triangulation as described as follows:

Set a flag ahead on Tp. bdy. at  
 top of cliffs, from which  
 measure a base N. 64° 50' W.,  
 5.77 chs. and set another flag.  
 From the  $\frac{1}{4}$  sec. cor. of sec. 24  
 the flag at NW. end of base  
 bears N. 18° 25' W.  
 Vertical angle from said  $\frac{1}{4}$  sec.  
 cor. to flag on Tp. bdy. at top  
 of cliffs is + 29°.

Dist. to  $\frac{1}{4}$  sec. cor. = 40.18 chs. N.  
 Dist. triangulated = 13.23 " N.  
 Station of flag = 53.41 " N.

53.41 Triang. flag at top of cliffs, bearing NW. and SE., facing  
 SW. Continue line and measurement by chaining.

63.11 Asc. 30 ft. over gradual SW. slope.  
 Ridge, bears NW. and SE.

75.50 Desc. 200 ft. over NE. slope.  
 Ravine, course NW. Asc. 100 ft. over S. slope.

Chains  
78.00

Point of spur, sloping W., and top of a series of cliffs facing N. and NW. Discontinue chaining and triangulate to point ahead on Tp.bdy. as described as follows:

Set a flag ahead on Tp. bdy., from which measure a base S.67°18'E., 5.00 chs. and set another flag. From 78.00 ch. station the flag at SE. end of base bears N.22°20'E. and vertical angle from same station to flag on Tp.bdy. is - 22½°. All bearings checked by direct reading of the solar, and all angles checked by deflection.

Dist. on E. bdy. sec. 24 = 78.00 chs. N.  
Dist. triangulated = 13.16 " N.  
Station of flag = 91.16 chs. N.  
Return chaining = 10.80 " S.  
Station of C.C. = 80.36 chs. N.

80.36 Intersect the subdivision line bet. secs. 13 and 24, surveyed N.89°50'E. Closing cor. of said secs. established at this point as hereinafter described. This point is on sloping bench bet. cliffs, 285 ft. below 78.00 ch. station of E. bdy. of sec. 24.

Land, mountainous.  
Soil, rocky, 4th rate.  
Timber, none.  
Undergrowth, scrub paloverde, catclaw, mesquite & cactus.

North, on true line, on E. bdy. of sec. 13.  
Over mountainous land, thru scattering undergrowth.  
Desc. 30 ft. over N. slope to

4.75 Set an iron post, 3 ft. long, 2 ins. in diam., 30 ins. in the ground, for cor. of secs. 18 and 19 only, marked on brass cap.

1928

No bearing trees available.  
raise a mound of stone, 4 ft. base, 2 ft. high, E. of cor.

26.75 Desc. 454 ft. over steep broken N. slope.  
Aravaipa Creek, 20 lks. wide, course NW.  
Asc. 284 ft. over steep S. slope to

39.68 Set an iron post, 3 ft. long, 1 in. in diam., 12 ins. in the ground to bedrock, deposit a stone marked with a cross (X) at base of post, and raise a mound of stone around post, for ¼ sec. cor. of sec. 13 only, marked on brass cap.

1928

No bearing trees available.

42.94 Asc. 43 ft. over S. slope.  
Spur, slopes SE. Thence along E. slope.

-----

GENERAL DESCRIPTION

-----

The land embraced within the township is mountainous.  
 The soil of the bottom land along Aravaipa Creek, is  
 rich sandy loam, capable of producing abundant crops  
 with irrigation. The soil of the remaining portion of  
 the township is rocky 4 th rate, with scattering  
 desert growth mesquite, catclaw, creosote, palo verde,  
 yucca and cactus.  
 Sycamore, orange, grapefruit, lemon and cottonwood timber  
 are found along Aravaipa Creek, cedar, juniper and  
 scrub oak, are found in the remaining portion of the  
 township.  
 Aravaipa Creek, traverses through the southeastern portion  
 of the township, entering the township near the  $\frac{1}{4}$  sec.  
 cor. of sec. 13 on E. bdy. of the township, and leaving  
 same near the cor. of secs. 3, 4, 33 and 34 along the south  
 boundary of the township.  
 There are two known springs, one each in secs. 7 and 20,  
 on Whitright's Goat ranchs.  
 There are no known mineral deposits within the township.

CERTIFICATE OF UNITED STATES SURVEYOR.

72

I, Theodore Vander Meer, U. S. Transitman, hereby certify upon honor that, in pursuance supplemental of special instructions received from the District Cadastral Engineer, for Group 141, Arizona bearing date of the 27th day of September, 1928, I have well, faithfully, and truly in my own proper person, and in strict conformity with said instructions, the Manual of Surveying Instructions, and the laws of the United States, surveyed all those parts or portions of

the Subdivision lines of

Township 6 South, Range 17 East of the Gila and Salt River Base and Meridian, in the State of Arizona, which are represented in the foregoing field notes and by diagram on Page 1 hereof as having been executed by me, and under my direction; and that all the corners of said survey have been established and perpetuated in strict accordance with the Manual of Surveying Instructions, and the special written instructions of the District Cadastral Engineer, for Group 141, Arizona and in the specific manner described in the field notes, and that the foregoing are the original field notes of such survey.

Place: Phoenix, Arizona.

Date: June 24, 1929.

Theodore Vander Meer U.S. Transitman

APPROVAL.

Office of U. S. Supervisor of Surveys,

19

The foregoing field notes of the survey of

executed by

under his special instructions dated, 19, having been critically examined, and the necessary corrections and explanations made, the said field notes, and the surveys they describe, are hereby approved.

U. S. Supervisor of Surveys.

I certify that the foregoing transcript of the field notes of the above-described surveys in

has been correctly copied from the original notes on file in this office.

U. S. Supervisor of Surveys.

## CERTIFICATE OF UNITED STATES SURVEYOR.

74  
BOOK 1073

I, William E. Hiester, U. S. Surveyor, hereby certify upon honor that, in pursuance of <sup>supplemental</sup> special instructions received from the District Cadastral Engineer, for Group 141, Arizona bearing date of the 27th day of September, 1928, I have well, faithfully, and truly, in my own proper person, and in strict conformity with said instructions, the Manual of Surveying Instructions, and the laws of the United States, ~~retraced~~ all those parts or portions of the First Standard Parallel South in Range 16 East, and the Subdivision lines of T.6 S., R.17 E.; resurveyed all those parts or portions of the South and West bdrs. and Subdivision lines of T.6 S., R.17 E.; and surveyed all those parts or portions of the South and East bdrs. and Subdivision lines of Township 6 South, Range 17 East of the Gila and Salt River Base and Meridian, in the State of Arizona, which are represented in the foregoing field notes <sup>and by diagram on page 1 hereof</sup> as having been executed by me, and under my direction; and that all the corners of said ~~retracement~~, ~~resurvey~~ and survey have been established and perpetuated in strict accordance with the Manual of Surveying Instructions, and the special written instructions of the District Cadastral Engineer, for Group 141 Arizona and in the specific manner described in the field notes, and that the foregoing are the original field notes of such ~~retracement~~, ~~resurvey~~ and survey.

*William E. Hiester*  
U. S. Surveyor.  
Place: San Francisco, California. Date: June 4, 1929.

## APPROVAL.

OFFICE OF U. S. SUPERVISOR OF SURVEYS,

Denver, Colo., December 7, 1929.

The foregoing field notes of the ~~retracement~~ of the 1st Standard Parallel S. thru Part of Range 16 East, and Part of the Subdivision lines of T.6 S., R.17 E.; of the resurvey of the West boundary, part of the South bdy., and part of the Subdivision lines of T.6 S., R.17 E.; and of the survey of the East boundary, part of the South bdy., and part (Completion) of the Subdivision lines of Township 6 South, Range 17 East of the Gila and Salt River Base and Meridian, in the State of Arizona executed by William E. Hiester, U.S. Surveyor and Theodore Vander Meer, U.S. Transitman, under <sup>supplemental</sup> special instructions dated Sept. 27, 1928 for Group 141 Arizona, having been critically examined, and the necessary corrections and explanations made, the said field notes, and the ~~retrac-~~ ~~ments, resurveys and surveys~~ they describe, are hereby approved.

*William A. Johnson*  
U. S. Supervisor of Surveys.

~~I certify that the foregoing transcript of the field notes of the above described retracements, resurveys, and surveys in Book "D" of Group 141, Arizona, has been correctly copied from the original notes.~~

*U. S. Supervisor of Surveys*
