

FIELD NOTES

BOOK 3903

OF THE SURVEY OF THE

Subdivision Lines of

Township 15 North, Range 7 West

Of the Gila and Salt River Base and Meridian,

In the State of Arizona

EXECUTED BY

William E. Hiester, U.S. Surveyor

and

Charles E. Hunter, U.S. Transitman

In the capacity of U. S. Surveyors, under Special Instructions dated June 24, 1929, issued by the District Cadastral Engineer to govern surveys included in Group No. 159 - Arizona, which were approved by the Commissioner of the General Land Office, July 10, 1929, and Assignment Instructions dated Jan. 2, 1930

Survey commenced March 6, 1930

Survey completed April 3, 1930

*Surveyed in 1915*

*Surveyed in 1915*

*Surveyed in 1915*

Surveyed by William E. Hiester, U.S. Surveyor under this group on dates (1930) shown thereon. Notes herein.

Surveyed by Charles E. Hunter, U.S. Transitman under this group on dates (1930) shown thereon. Notes herein.

Surveyed under this group. Date diagram and notes in Book "D" of this group.

Accepted surveys.

The surveys herein described were executed on dates shown on diagram page 1 hereof, by William E. Hiester, U.S. Surveyor, and Charles E. Hunter, U.S. Transitman, using respectively Buff and Buff transit No. 19423 and Young and Sons transit No. 8584; the instruments are equipped with improved Smith solar attachments. The horizontal limbs are provided with two double verniers placed opposite each other and reading to single minutes of arc, which is also the least count of the verniers of the vertical circles, latitudes and declination arcs.

The instruments were approved, subject to the usual field tests by the District Cadastral Engineer for Arizona.

Unless otherwise specified all azimuths are determined by the solar attachments, and all measurements are made with Lallie steel tapes 5 chains in length, compared with a Lufkin standard steel tape and found correct. The measurements are made on the slope, the vertical angle determined with clinometers or transit, and the measurements properly reduced to true horizontal distances for entry in the field notes.

For preliminary and final tests of instruments on a meridian determined by Polaris, see the field notes for exteriors and subdivisions in Book "D" of this group.

---

Subdivision of T.15 N., R.7 W.

Chains

The E. and S. bdys. of T.15 N., R.7 W., was surveyed by John F. Hesse, U.S.S., in 1915, establishing cors. thereon with common reference to areas on both sides of the lines. The S. bdy. of T.16 N., R.7 W., was surveyed by A.B. Mader, U.S.D.S., in 1905, establishing cors. thereon with common reference to areas on both sides of the line. No retracement or resurvey of any part of these lines is of record. The following notes describe the subdivision of T.15 N., R.7 W.

The cor. of secs. 23, 24, 35 and 36, on S. bdy. of T.15 N., R.7 W. is an iron post, 3 ins. diam., projecting 12 ins. above ground, with brass cap marked

79.65

Intersect N. bdy. of the Tp. at 3.81 chs. S. 89° 55' W. from the 1/4 sec. cor. of secs. 3 and 34, which is a malpais stone 10x7x5 ins. above ground, firmly set, marked 1/4 on N. face, and witnessed by a mound of stone No. 1 cor. No bearing trees.

This cor. monument now refers to the quarters of sec. 34 only, and no physical change of same is required.

The cor. of secs. 3, 4, 33 and 34 is a part of a malpais ledge projecting 6x3x2 ft. above the surrounding surface, marked with a cross (x) on top at exact cor. point, 3 notches each E. and W. of cross, and witnessed by a mound of stone W., and two properly marked juniper bearing trees, S. 36° E. 226 lks., and N. 74 1/2° E. 241 lks. dist.

Alter this cor. monument to refer to secs. 33 and 34 only by moving mound of stone from W. to N. of cor., and changing the marking on the SE. bearing tree to read "BT" only.

At point of intersection, set an iron post, 3 ft. long, 2 ins. diam., 18 ins. in the ground, to bedrock, and raise a mound of stone around post, for closing cor. of secs. 3 and 4, with brass cap

GENERAL DESCRIPTION.

The land embraced within this township is very rough and mountainous, with the exception of the northeastern portion of the township which is rolling mesa land. The soil is of granite formation, the land in the northeastern portion is covered with malpais stones, which can nearly all be classed as 3<sup>rd</sup> rate. Scattering cedar, pinyon and juniper timber are found throughout the township. The land is used for grazing purposes and is covered with dense undergrowth, scrub - oak, catclaw, mahogany, laurel, cactus and scattering nutritious grasses. Ralph C. Anderson's homestead is located in the south east quarter of sec. 4 of this township and is used for agriculture purposes. The Black Pearl Mining Co. has several mining claims and buildings in secs. 7 and 8, but there are no officially surveyed claims within the township.
