FIELD NOTES

DEPENDENT RESURVEY

of

One Mile of the East Boundary

and

COMPLETION SURVEY

of the

Subdivisional Lines

Township 37 North, Range 7 West

Of the Gila and Salt River Meridian,

In the State of Arizona.

EXECUTED BY

Boyd S. Owens, Cadastral Surveyor

Under special instructions dated February 14, 19 63, which provided for the surveys included under Group Number 392, approved February 20, 1963, and assignment instructions dated June 29, 19 64.

Survey commenced September 2, 19 64

Survey completed September 17, 19 64

BOOK 4756

Township 37 North, Range 7 West
Gila and Salt River Meridian, Arizona

13

CHAINS

The south boundary, the Ninth Standard Parallel North, was surveyed in 1915 by T. B. Mathews. The east boundary was surveyed in 1924 by Heister and Hunter. The north and west boundaries were surveyed in 1934 by Hester and Proctor. Sections 2 and 36 were surveyed in 1954 by D. E. Harding.

The following notes are those of a dependent resurvey of one mile of the east boundary and the survey of the subdivisional lines, completing the subdivision of Township 37 North, Range 7 West, Gila and Salt River Meridian, Arizona.

This survey was executed in accordance with the specifications as set forth in the Manual of Surveying Instructions, 1947, and the Special Instructions, dated February 14, 1963.

Only the true line bearings and horizontal distances for the surveyed lines are given in these notes. Unless described, each corner was monumented with a standard iron post 30 inches long, 2½ inches diameter, flanged at the base and with a brass cap riveted to the top.

The geographic position of the southeast corner of the township is: Latitude, 36°33'23.8" North and Longitude 112°59'15.6" West, as calculated from tie to U.S.G.S. triangulation station RESERVOIR.

The magnetic declination was found to be 15° E.

Dependent Resurvey of a Portion of the East Bdy.
Township 37 North, Range 7 West

Reestablishment of the Survey
Executed by Heister and Hunter in 1924

From the ¼ sec. cor. of secs. 19 and 24 on the E. bdy. of the Tp., monumented by an iron post 1 inch diam., set, mkd. and witnessed as described in the official record.

North, bet. secs. 19 and 24.

Over nearly level land, through scattered to moderate undergrowth.

29.60 Wash, 10 lks. wide, 1 ft. deep, drains irregularly N. from SE.

39.50 Point selected for the witness cor. of secs. 13, 18, 19 and 24.

Set the iron post 22 ins. in the ground, cap mkd.

CHAINS

Raise a mound of stone W. of the iron post.

40.00 Point for the cor. of secs. 13, 18, 19 and 24 at proportionate dist. falls on the side of a man-made channel draining N. 15° W. Unable to find any evidence of the original corner.

From the cor. point

The center of the S. pond at Langston Reservoir, bears N. 81° W., 10.40 chs. dist.

The center of the N. pond at Langston Reservoir, bears N. 60° W., 11.90 chs. dist.

Land, nearly level.
Soil, sandy clay loam.
No timber; undergrowth, sage, grass and snake weed.

North, bet. secs. 13 and 18.

Over nearly level land.

2.20 Man-made water channel, drains W.

2.90 Dike, bears W. and E., 2.00 chs. to end.

26.90 Track road, bears N. 30° E. and S. 5° W.

40.00 The ¼ sec. cor. of secs. 13 and 18, monumented by an iron post, 1 inch diam., set, marked and witnessed as described in the official record.

Land, nearly level.
Soil, sandy clay loam.
No timber; undergrowth, sage brush, snake weed and grass.

Survey of the Subdivisional Lines
Township 37 North, Range 7 West

From the cor. of secs. 25, 26, 35 and 36, monumented by an iron post 2½ ins. diam., set, mkd. and witnessed as described in the official record.

N. 0°01' W., bet. secs. 25 and 26.

Over rolling land through moderate undergrowth.

3.00 Draw, drains S. 80° E.

5.50 Low spur, slopes S. 80° E.; desc. over gentle N. slope.

11.80 Enter nearly level land.

17.90 Track road, bears S. 50° E. and N. 50° W.

40.00 Point for the ¼ sec. cor. of secs. 25 and 26.

Set the iron post 22 ins. in the ground, cap mkd.

Land, gently rolling.
 Soil, gravelly clay loam.
 No timber; undergrowth, scattered shadscale, brush and grass.

General Description

The land in Township 37 North, Range 7 West, varies from rolling and broken hills in the south and south-central areas, with a high bench along the western part to gently rolling range land on the remainder. The soil in the mountainous areas is heavy clay loam and lava rock, with sandy clay loam predominating in the gently rolling land to the north.

CHAINS

The grazing of livestock is the primary interest at the present time as there is a good growth of grass throughout the township and several reservoirs and stock tanks have been built, augmenting the water supply and extending the grazing area.

A bladed road, bearing North and South from Short Creek to Tuweep, enters the township in Section 5 and leaves in Section 32. Several track roads branch off, giving access to most of the township.

No minerals or mineral activity was noted during this survey.

CERTIFICATE OF SURVEY

I, Boyd S. Owens, HEREBY CERTIFY upon honor that,
in pursuance of special instructions bearing date of the 14 day of February, 19 63,
I have dependently resurveyed one mile of the east boundary, and surveyed
the subdivisional lines, completing the subdivision of Township 37 North,
Range 7 West

of the Gila and Salt River Meridian, in the State of Arizona, which
are represented in the foregoing field notes as having been executed by me and under my direction;
and that said survey has been made in strict conformity with said special instructions, the Manual
of Instructions for the Survey of the Public Lands of the United States, and in specific manner
described in the foregoing field notes.
