BOOK 4852

Dependent Resurvey of a Portion of the Fort Apache Indian Reservation Township 8 North, Range 23 East Gila and Salt River Meridian, Arizona 17

CHAINS

The northern boundary of the White Mountain Indian Reservation (now the Fort Apache Indian Reservation) was surveyed by Jesse B. Wright, in September and October 1906, as shown upon the official plat of Township 8 North Range 23 East, approved November 29, 1909.

The following field notes are those of the dependent resurvey of a portion of the northern boundary of the Fort Apache Indian Reservation, Township 8 North, Range 23 East, Gila and Salt River Meridian, Arizona.

The survey was executed in accordance with the specifications as set forth in the <u>Manual of Surveying Instructions</u>, 1947, and the special instructions dated July 1, 1969.

The directions of all lines of this survey were determined by direct altitude observation of the sun for azimuth and carried forward by normal transit traverse.

The geographic position of Angle Point No. 258 is: Latitude: 34° 06.6' N., Longitude 109° 51.5' W., as determined by scaling on a reliable U. S. Geological Survey Topographic map, McNary, Arizona, 1961.

The magnetic declination was read at a number of stations throughout the survey and the average of the several readings was found to be 14° E.

Before restoring the corners, the lines of the original surveys were retraced and a diligent search made for any evidence of the original corners, bearing trees, and calls of the original field note records. When duly identified the corner positions were remonumented.

The rules of proportionate measurement were applied in order to ascertain the position of lost corners, after completing the necessary retracements to connect the identified corner locations, but not until exhausting every reasonable possibility of finding direct evidence for the control of each particular corner.

Beginning at Angle Point No. 258, monumented by a pine tree, 24 ins. (record 15 ins.) in diam., mkd. BMFR on the N. and PNBWMIR 258 on the S., substantiated by:

A pine, 14 ins. in diam., bears S. 76° E., 80 lks. dist., mkd. AP 258 FAIR BT.

A pine, 25 ins. in diam., bears S. $2\frac{1}{2}$ ° W., 40 lks. dist., mkd. with an overgrown blaze.

An oak stump, 8 ins. in diam., bears S. $56\frac{1}{2}^{\circ}$ W., 22 lks. dist., scribing illegible.

Thence, on line 258-259.

S. 62° 16' W., 16.144 chs. dist.

O.160 The closing corner of Tps. 8 N., Rs. 23 and 24 E., secs. 7 and 12, monumented with an iron post, 2 ins. in diam., projecting 18 ins. above the ground, and in a collar of stone, with brass cap mkd.

CERTIFICATE OF SURVEY

I, Marlin G. Livermore, II	, HEREBY CERTIFY upon honor that,
in pursuance of special instructions be	aring date of the 1st day of July , 1969 ,
I have dependently resurveyed	a portion of the Fort Apache Indian Reser-
vation in Township 8 North,	Range 23 East
of the Gila and Salt River	Meridian, in the State of Arizona , which
are represented in the foregoing field n	otes as having been executed by me and under my direction;
and that said survey has been made in	strict conformity with said special instructions, the Manual
of Instructions for the Survey of the	Public Lands of the United States, and in specific manner
described in the foregoing field notes.	Ω
