# FIELD NOTES

## RETRACEMENT

OF A

PORTION OF THE WEST BOUNDARY

OF

TOWNSHIP 9 SOUTH, RANGE 27 EAST

DEPENDENT RESURVEY

OF THE

WEST BOUNDARY

AND A

PORTION OF THE SUBDIVISIONAL LINES

WITH

ESTABLISHMENT OF CERTAIN  $\frac{1}{4}$  SECTION

CORNERS OF MINIMUM CONTROL

ALONG THE EAST AND NORTH BOUNDARIES,

TOWNSHIP 9 SOUTH, RANGE 26 EAST

Of the Gila and Salt River Meridian,

In the State of Arizona

## EXECUTED BY

Louis D. Gilbert

Cadastral Surveyor

Under special instructions dated February 17, 19 69, which provided for the surveys included under Group Number 467, approved February 17, 1969, and assignment instructions dated February 18, 19 69.

Survey commenced March 5, 19 69

Survey completed April 2, 19 69

Township 9 South, Range 26 East  
Gila and Salt River Meridian, Arizona

CHAINS

The east and north boundaries were surveyed in 1875 by T. F. White. The east and north boundaries were resurveyed in 1904 by P. Contzen who altered the original corners to function for the adjoining townships only. The south and west boundaries and the subdivisional lines were surveyed in 1904 by P. Contzen. The south boundary was resurveyed by W. B. Kimmel in 1917. The south boundary of Township 8 South, Range 26 East, was resurveyed by D. E. Harding in 1957 and also retraced by Louis D. Gilbert, and is described in the field notes of Township 8 South, Range 26 East executed concurrently under Group No. 470. Certain corners along the west boundary were remonumented by L. S. Mann in 1960. The west boundary of Township 9 South, Range 27 East, was resurveyed by Dell Cazier in 1961.

The following field notes are those of a retracement of a portion of the west boundary of Township 9 South, Range 27 East, and a dependent resurvey of the west boundary and a portion of the subdivisional lines, designed to restore the corners in their true original location according to the best available evidence, and the establishment of certain  $\frac{1}{4}$  section corners of minimum control along the east and north boundaries of Township 9 South, Range 26 East, Gila and Salt River Meridian, Arizona.

This survey was executed in accordance with the specifications as set forth in the Manual of Surveying Instructions, 1947, and the Special Instructions dated February 17, 1969. The direction of all lines were determined by solar observations and all lines refer to the true meridian.

Only the true line bearings and horizontal distances for the surveyed lines are given in these field notes. Unless described, each corner is monumented with a standard iron post 30 inches long,  $2\frac{1}{2}$  inches diameter, flanged at the base and with a brass cap riveted to the top.

The geographic position of the closing corner of sections 25 and 36 on the east boundary of the township as determined by traverse from U.S.G.S. benchmark 23 RS 3635 in Sec. 30, T. 9 S., R. 27 E. is: Latitude  $32^{\circ}36'52.6''$  N. and Longitude  $109^{\circ}37'49.7''$  W.

The mean magnetic declination was found to be  $13^{\circ}$  E.

	Land, gently rolling to nearly level.
	Soil, sandy loam.
	No timber; undergrowth, creosote bush, mesquite, cacti and bunchgrass.
GENERAL DESCRIPTION	
Township 9 South, Range 26 East is located about 12½ miles south of Safford, Arizona. U. S. Highway No. 666 traverses through the township entering in section 5 and leaving in section 33. There are a number of side roads which vary from jeep trails to partially maintained roads.	
The elevation ranges from about 4,000 ft. above sea level along the south boundary of section 31 to about 3,300 ft. in the northeast corner of the township. The drainage is from the south to the north in the west portion of the township and from the southwest to the northeast in the east portion. The land varies from nearly level to rolling. The soil varies from a sandy to rocky loam. Vegetation consists mainly of creosote bush, small mesquite, cacti and bunchgrass. There are numerous stock tanks, ponds and wells, mostly in the northwest portion of the township. Grazing is the principle use of the land. There is no evidence of mining claims or of mining activity in the township. A number of houses are located in sections 5 and 6.

CERTIFICATE OF SURVEY

(I) ~~XXX~~ Louis D. Gilbert, HEREBY  
 CERTIFY upon honor that, in pursuance of special instructions bearing date of the 17th day  
 of February, 1969, (I) ~~XXX~~ have retraced a portion of the west boundary  
 of Township 9 South, Range 27 East and dependently resurveyed the west boundary  
 and a portion of the subdivisional lines, along with establishment of certain  
 1/2 section corners of minimum control along the east and north boundaries of  
 Township 9 South, Range 26 East,

of the Gila and Salt River Meridian, in the State of Arizona, which  
 are represented in the foregoing field notes as having been executed by (me), ~~XXS~~ and under (my)  
~~XXX~~ direction; and that said survey has been made in strict conformity with said special instruc-  
 tions, the Manual of Instructions for the Survey of the Public Lands of the United States, and in  
 specific manner described in the foregoing field notes.
