BUREAU OF LAND MANAGEMENT

ORIGINAL

FIELD NOTES

of the
Dependent Resurvey
of a
Portion of the Subdivision Lines
and
Certain Boundaries of Mineral Surveys
and the
Survey
of Certain Lots in
Sections 14, 22 and 23
of
Township 19 North, Range 20 West

Of the Gila and Salt River Meridian,
In the State of Arizona

EXECUTED BY

John P. Bennett, Supervisory Cadastral Surveyor

Under special instructions dated February 22, 19 80, approved February 25, 1980,
and Supplemental Special Instructions dated and approved April 16, 1981

_____, which provided for the surveys included under U.S. Survey/Group
Number 617, and assignment instructions dated February 27, 1981.

Survey commenced March 4, 1981

Survey completed June 24, 1982

CHAINS

The following field notes are those of the dependent resurvey of a portion of the subdivision lines, and certain boundaries of mineral surveys and the survey of certain lots in sections 14, 22 and 23, of Township 19 North, Range 20 West, Gila and Salt River Meridian, Arizona.

The subdivisional lines were surveyed by Guy H. Richardson, U.S. Surveyor, and Hugo Price, U.S. Transite-man, in 1915. There are numerous mineral surveys of record in the area, some prior to the 1915 survey.

The survey and resurvey were executed in accordance with specifications set forth in the Manual of Surveying Instructions, 1973, and the Special Instructions for Group No. 617, Arizona, dated February 22, 1980, and Supplemental Special Instructions dated April 16, 1981.

Preliminary to the resurvey the lines of the original survey were retraced and a search was made for all corners and other calls of the record. Identified corners in an obliterated condition were remonumented in their original positions; lost corners were restored and monumented at proportionate positions. The retracement data were thoroughly verified and only the true line field notes are given herein.

The direction of lines were determined from the U.S.C.&G.S. triangulation station "OBS", and refer to the true meridian. Distances were measured electronically with Hewlett Packard 3820 and Zeiss SM-4 instruments.

The geographic position of the corner of sections 26, 27, 34 and 35, T 19 N, R 20 W, determined by traverse to U.S.C.&G.S. triangulation station "OBS", is as follows:

Latitude: 34°59'47.72" N Longitude: 114°23'07.43" W

The mean magnetic declination is 15° E.

Dependent Resurvey, a Portion of the Subdivisional Lines
T 19 N, R 20 W, Gila and Salt River Mer., Arizona

(Restoring the survey executed by G.H. Richardson
and H. Price in 1915)

From the cor. of secs. 23, 24, 25 and 26, monumented with an iron post, 2 ins. diam., projecting 12 ins. above a mound of stone, 4 ft. base, 2 ft. high, with brass cap mkd.

Mineral Survey No. 1699A
Billy Bryan Lode

From Cor. No. 4, M.S. No. 1699A Billy Bryan lode, identical with Cor. No. 3, M.S. 1699A Line Road lode, monumented with a wood post, 4 ins. sq., projecting 3 ft. above ground, mkd. BB31699A on N face and BB4 on E face, with an igneous stone 24 x 4 x 6 ins. above ground, mkd. BB2 on top set alongside. Both monuments set in a mound of stone, 3 ft. base, 1½ ft. high, and not remonumented.

From this point the cor. of secs. 11, 12, 13 and 14, bears S 85°35' E, 21.40 chs. dist., heretofore described.

N 40°13' E, on line 4-1, M.S. 1699A Billy Bryan lode, identical with line 3-2, M.S. 1699A Line Road lode.

8.55 The witness cor. to Cor. No. 1, M.S. 1699A Billy Bryan lode, identical with the witness cor. to Cor. No. 2, M.S. 1699A Line Road lode and Cor. No. 4, M.S. 1699A Climax lode, monumented with a wood post, 4 ins. sq., 4 ft. long, loosely set in a mound of stone, 4 ft. base, 1½ ft. high, mkd. C4 on N face, LR2 on W face, and other illegible scribe marks.

from which

The marks + BR LR4, of unknown origin, on NE face of a rock outcropping, 30 x 15 x 25 ft. above ground, bears S 50° W, 15 lks. dist.

At the cor. point

Set an aluminum post, 3 ft. long, ¾ in. diam., 26 ins. in the ground, in a mound of stone, 4 ft. base, to top, with cap mkd.

Deposit the wood post in the mound of stone.

9.08 True point for Cor. No. 1, M.S. 1699A Billy Bryan lode, identical with Cor. No. 2, M.S. 1699A Line Road lode, and Cor. No. 4, M.S. 1699A Climax lode, at record dist. Point falls in abandoned wagon road, bears SE and NW and is not monumented.

Thence

S 48°50' E, on line 1-2, M.S. 1699A Billy Bryan lode.

Survey of Lots 14 and 15 in Sec. 22
T 19 N, R 20 W, Gila and Salt River Mer., Arizona

Memorandum

The boundaries of lots 14 and 15 were surveyed as identified by personnel of the Bureau of Land Management, Kingman Area Office and interested parties residing within said lots.

Lot 14

From cor. 1, lot 14, on line 3-4, M.S. 2704 Giant lode, in center of Old Highway No. 66, asphalt surfaced, bears N 28° E and S 28° W.

At the cor. point

Set a railroad spike flush with road with top mkd.

from which

A cotton picker spindle, driven into a telephone pole, bears S 85° E, 54 lks. dist., lines extend N 30° E and S 30° W.

Cor. No. 4, M.S. 2704 Giant lode, identical with Cor. No. 3, M.S. 2704 New York lode, bears N 72°46.6' W, 8.914 chs. dist., heretofore described.

N 72°46.6' W, on line 1-2, lot 14, identical with a portion of line 3-4, M.S. 2704 Giant lode.

2.65 Gate across track road, bears S 75° E and N 75° W.

3.50 Point for cor. 2, lot 14, identical with cor. 1, lot 15, and on line 3-4, M.S. 2704 Giant lode.

Set an aluminum post, 3 ft. long, 3/4 in. diam., 38 ins. below surface of track road, bears S 75° E and N 75° W, with cap mkd.

from which a building located in lot 14

The NW cor. of a house trailer, 13 x 67 ft., bears S 9 1/4° E, 63 lks. dist., long side bears S 20° W.

GENERAL DESCRIPTION

The land encompassed in this survey is around the town of Oatman, Arizona, located in the southwest quarter of section 14, on Old Highway No. 66. The elevation ranges from 2,400 to 3,600 ft. above sea level. The land is generally rocky and mountainous with scattering cacti, creosote and sparse native grasses.

Extensive abandoned mining and milling operations are located throughout the area. There is minor active mining in section 23.

The magnetic declination is 15° E.

CERTIFICATE OF SURVEY

(I) ~~(XX)~~, John P. Bennett, Supervisory Cadastral Surveyor, HEREBY

CERTIFY upon honor that, in pursuance of special instructions bearing date of the 22nd day of February, 1980, and Supplemental Special Instructions bearing the date of the 16th day of April, 1981, (I) ~~(XX)~~ have dependently resurveyed a portion of the subdivision lines and certain boundaries of mineral surveys; and have surveyed certain lots in sections 14, 22 and 23, of Township 19 North, Range 20 West

of the Gila and Salt River Meridian, in the State of Arizona, which are represented in the foregoing field notes as having been executed by (me), ~~(XX)~~ and under (my) ~~(XXX)~~ direction; and that said survey has been made in strict conformity with said special instructions, the Manual of Instructions for the Survey of the Public Lands of the United States, and in specific manner described in the foregoing field notes.

SEP 14 1983

(Date)

John P. Bennett
Supervisory (Cadastral Surveyor)

(Date)

(Cadastral Surveyor)

CERTIFICATE OF APPROVAL

Arizona State Office
BUREAU OF LAND MANAGEMENT
~~Denver, Colorado~~
Phoenix, Arizona

The foregoing field notes of the dependent resurvey of a portion of the subdivision lines and certain boundaries of mineral surveys; and the survey of certain lots in sections 14, 22 and 23, of Township 19 North, Range 20 West, Gila and Salt River Meridian, Arizona

executed by John P. Bennett, Supervisory Cadastral Surveyor

having been critically examined and found correct, are hereby approved.

SEP 15 1983

(Date)

James P. Kelley
~~Chief, Division of Survey, Examination and Approval Staff~~
Chief Cadastral Surveyor of Arizona

CERTIFICATE OF TRANSCRIPT

I CERTIFY That the foregoing transcript of the field notes of the above-described surveys in T 19 N, R 20 W, G&SRM, Arizona, is a true copy of the original field notes.
