BUREAU OF LAND MANAGEMENT  
ORIGINAL

FIELD NOTES

of the  
Dependent Resurvey  
of portions of the  
North, East and West Boundaries  
and portions of the  
Subdivisional Lines  
and certain  
Boundaries of Mineral Surveys  
and the  
Survey of Subdivisions  
in  
Sections 8, 21, 33, 35 and 36  
in  
Township 9 North, Range 4 West  
Of the Gila and Salt River Meridian,  
In the State of Arizona

EXECUTED BY

Harry K. Smith Cadastral Surveyor  
John P. Bennett Cadastral Surveyor

Under special instructions dated January 3, 1979, approved January 4, 1979  
and Second Supplemental Special Instructions dated December 10, 1979 and  
approved December 11, 1979, which provided for the surveys included under ~~U.S. Survey~~ Group  
Number 611, and assignment instructions dated January 3, 1979  
and January 21, 1980

Survey commenced December 20, 1979

Survey completed January 4, 1984

T 9 N, R 4 W, Gila and Salt River Mer., Arizona

## CHAINS

The following field notes are those of the dependent resurvey of a portion of the north, east and west boundaries, a portion of the subdivisional lines, certain boundaries of mineral surveys and the survey of subdivisions in sections 8, 21, 33, 35 and 36.

The south boundary (The Second Standard Parallel North) was surveyed by Johnston B. McLaughlin in 1883 and independently resurveyed by Benjamin J. Kinsey in 1929. A portion of the south boundary was dependently resurveyed by Paul L. Reeves, in 1979, under this same Group, as shown on the plat accepted May 4, 1981. The west boundary was surveyed by Charles M. Pidgeon in 1916. The north boundary, the east boundary and the subdivisional lines were surveyed by Benjamin J. Kinsey in 1929. The metes-and-bounds survey of the Mesa Grande lode in section 8, was executed by Ty White in 1952. The survey history of the various mining claims can be found in the individual mineral survey field notes.

The survey was executed in accordance with specifications set forth in the Manual of Surveying Instructions, 1973, and the Special Instructions for Group No. 611, Arizona, dated January 3, 1979, and Second Supplemental Special Instructions dated December 10, 1979.

The directions of lines were determined by direct solar observations and refer to the true meridian.

Prior to restoration of any corners, the lines of the original survey were retraced, and diligent search was made for any evidence of the original monuments and other calls of the official record. Identified corners were remonumented in their original positions. Lost corners were reestablished at proportionate positions based on the original record but not until exhausting every reasonable possibility of finding direct evidence for the control of each corner. The retracement data were thoroughly verified and only the true line field notes are given herein.

The survey was done with a Zeiss SM 4 Total Station instrument.

The geographic position of the southeast corner of the township, as scaled from the U.S.G.S. quadrangle map "MORGAN BUTTE, ARIZ.", prepared in 1969, is as follows:

Latitude: 34°04.2' N Longitude: 112°37.2' W

The mean magnetic declination is 14°30' E.

---

Dependent Resurvey of a Portion of the E Bdy.,  
T 9 N, R 4 W, Gila and Salt River Mer., Arizona

---

Restoring the 1929 survey by Benjamin J. Kinsey

---

Beginning at the stan. cor. of Tps. 9 N, Rs. 3 and 4 W, monumented with an iron post, 3 ins. diam., described in the field notes of T 8 N, R 4 W, executed concurrently.

N 0°03' W, bet. secs. 31 and 36.

Dependent Resurvey of a Portion of the E Bdy.,  
T 9 N, R 4 W, Gila and Salt River Mer., Arizona

CHAINS

Over rolling land, through medium undergrowth.

37.58

Point for the witness  $\frac{1}{4}$  sec. cor. of secs. 31 and 36, monumented with a scattered mound of stone, and is accepted as a careful and faithful perpetuation of the position of the original cor.

At the cor. point

Set an iron post,  $2\frac{1}{2}$  ins. diam., 28 ins. long, 16 ins. in the ground, and in a mound of stone,  $2\frac{1}{2}$  ft. base, to top, with brass cap mkd.

from which

A mesquite, 12 ins. diam., bears North, 28 lks. dist., mkd. X BT at the base.

A mesquite, 6 ins. diam., bears N  $74^\circ$  W, 11 lks. dist., mkd. X BT at the base.

N  $0^\circ 02'$  W, beginning new measurement.

2.69

Point for the  $\frac{1}{4}$  sec. cor. of secs. 31 and 36, on the E bdy. of the Tp., at proportionate dist., falls in the Hassayampa River, 3 chs. wide, course West, where it is impracticable to establish a permanent monument.

42.51

The cor. of secs. 25, 30, 31 and 36, on the E bdy. of the Tp., monumented with an iron post, 2 ins. diam., firmly set, projecting 15 ins. above ground, in a mound of stone, 3 ft. base, 12 ins. high, with brass cap mkd.

from which the original bearing tree

A mesquite, 10 ins. diam., bears N  $68^\circ$  W, 28 lks. dist., no marks visible.

Dependent Resurvey of a Portion of the E Bdy.,  
T 9 N, R 5 W, Gila and Salt River Mer., Arizona

Restoring the 1916 survey by Charles M. Pidgeon

Beginning at the witness  $\frac{1}{4}$  sec. cor. of sec. 13 only, of T 9 N, R 5 W, monumented with an iron post, 1 in. diam., projecting 12 ins. above ground, and in a mound of stone,  $2\frac{1}{2}$  ft. base, to top, with brass cap mkd.

Dependent Resurvey of a Portion of the E Bdy.,  
T 9 N, R 5 W, Gila and Salt River Mer., Arizona

<p>GENERAL DESCRIPTION</p>		
<p>The area encompassed in this survey is located approximately 7 miles east of Congress, Arizona. The elevation ranges from 2400 to 5400 feet above sea level.</p> <p>The Hassayampa River flows through the SW portion of the township in a southwesterly direction.</p> <p>Access is by way of the Stanton-Octave Road, with a graded surface, which enters the township from the west. There are several unimproved roads and jeep trails traversing the township.</p> <p>The vegetation throughout the township consists primarily of mesquite, palo verde, creosote and cacti.</p> <p>Mining activity was noticed, primarily in the NW portion of the township.</p>		

CERTIFICATE OF SURVEY

(X)(We), Harry K. Smith and John P. Bennett, Cadastral Surveyors , HEREBY

CERTIFY upon honor that, in pursuance of special instructions bearing date of the 3rd day

of January , 19 79, (X)(We) have and second supplemental special instructions dated December 10, 1979, we have dependently resurveyed portions of the north, east and west boundaries and portions of the subdivisional lines and certain boundaries of mineral surveys; and have surveyed subdivisions in sections 8, 21, 33, 35, and 36, Township 9 North, Range 4 West,

of the Gila and Salt River Meridian, in the State of Arizona , which are represented in the foregoing field notes as having been executed by (us) and under (our) direction; and that said survey has been made in strict conformity with said special instructions, the Manual of Instructions for the Survey of the Public Lands of the United States, and in specific manner described in the foregoing field notes.

JAN 10 1984 (Date)

Harry K. Smith (Cadastral Surveyor)

JAN 10 1984 (Date)

John P. Bennett (Cadastral Surveyor)

CERTIFICATE OF APPROVAL

Arizona State Office BUREAU OF LAND MANAGEMENT Denver, Colorado Phoenix, Arizona

The foregoing field notes of the dependent resurvey of portions of the north, east and west boundaries and portions of the subdivisional lines and certain boundaries of mineral surveys; and the survey of subdivisions in sections 8, 21, 33, 35, and 36, T. 9 N., R. 4 W., Gila and Salt River Meridian, Arizona,

executed by Harry K. Smith and John P. Bennett, Cadastral Surveyors, having been critically examined and found correct, are hereby approved.

JAN 11 1984 (Date)

James P. Kelley Chief Cadastral Surveyor of Arizona

CERTIFICATE OF TRANSCRIPT

I CERTIFY That the foregoing transcript of the field notes of the above-described surveys in T. 9 N., R. 4 W., G&SRM, Arizona , is a true copy of the original field notes.

(Date)

Chief Cadastral Surveyor of Arizona
