FIELD NOTES
OF THE

DEPENDENT RESURVEY OF A PORTION OF

THE WEST BOUNDARY

AND A PORTION OF THE SUBDIVISIONAL LINES,

THE SUBDIVISION OF SECTIONS 18, 30 AND 31,

AND THE METES-AND-BOUNDS SURVEY OF THE

MOUNT TIPTON WILDERNESS AREA BOUNDARY

IN TOWNSHIP 25 NORTH, RANGE 17 WEST

Of the Gila and Salt River Meridian,
In the State of Arizona

EXECUTED BY

Joe R. Salazar, Cadastral Surveyor

Stephen J. Malloy, Cadastral Surveyor

Dale C. Wilson, Cadastral Surveyor

Under Special Instructions dated, April 8, 1994, approved April 8, 1994, which provided for the surveys included under Group Number 770 and assignment instructions dated January 11, 1995 and July 8, 1996.

Survey commenced July 8, 1996

Survey completed August 1, 1996

CHAINS

The following field notes describe the dependent resurvey of a portion of the west boundary and a portion of the subdivisional lines, the subdivision of sections 18, 30 and 31 and the metes-and-bounds survey of the Mount Tipton Wilderness Area Boundary in Township 25 North, Range 17 West, Gila and Salt River Meridian, Arizona.

The Sixth Standard Parallel North through Range 17 West, and the north, east and west boundaries were surveyed by C. Burton Foster in 1874. The Sixth Standard Parallel North through Range 17 West was resurveyed by H. N. Bradstreet and William B. Kimmel, in 1912-13. The west 1/2 mile of the south boundary of section 31 was independently resurveyed by Royston C. Durnford and H. G. Bardsley in 1915. The west boundary was independently resurveyed by Sidney E. Blout in 1915. The subdivisional lines were surveyed by Sidney E. Blout and S. Frank Walters, in 1915-16.

The survey was executed in accordance with the specifications as set forth in the Manual of Surveying Instructions, 1973, and the Special Instructions dated April 8, 1994, for Group No. 770, Arizona.

Preliminary to the resurvey, the lines of the original survey were retraced and search was made for all corners and other calls of the record. Identified corners were remonumented in their true original positions; lost corners were restored and monumented at proportionate positions based on the original record. The retracement data was thoroughly verified and only the true line field notes are given herein.

The directions of all lines were determined by direct hour angle observations on the sun, and refer to the true meridian. Distances and angles were measured with a Topcon GTS-3B total station instrument.

Geographic positions were determined by static differential positioning techniques using Ashtech GPS models M-XII and MS-XII. U. S. Geological Survey triangulation station "PUTMAN 1958" was used as control, the position of the stan. cor. of secs. 31 and 32 on the S. bdy. of the Tp., is as follows:

Latitude: 35°30'09.53" N. Longitude: 114°07'52.63" W. NAD27

The mean magnetic declination, as taken from the 1985 magnetic declination map published by U.S. Geological Survey, is 15° E.

Dependent Resurvey of a Portion of the West Boundary,

Metes-and-Bounds Survey of the
Mount Tipton Wilderness Area Bdy.,
T. 25 N., R. 17 W., Gila and Salt River Meridian, Arizona

CHAINS

From this cor. point, the 1/4 sec. cor. of secs. 7 and 18, hereinbefore described, bears S. 89°36' E., 18.56 chs. dist.

GENERAL DESCRIPTION

This survey is located about 10 miles north of Kingman, Arizona. Access is provided by Stockton Hill Road.

The elevation ranges from 4500 to 5200 feet above sea level. The terrain consists of high broken ridges, with washes draining predominately easterly, covered with a moderate growth of scrub oak, catclaw brush, pinon pine and juniper trees. The soil is largely sand, gravel and granite boulders.

CERTIFICATE OF SURVEY

We, Joe R. Salazar, Stephen J. Malloy and Dale C. Wilson, Cadastral Surveyors, HEREBY CERTIFY upon honor that, in pursuance of Special Instructions bearing date of the 8th day of April, 1994, we have dependently resurveyed a portion of the west boundary and a portion of the subdivisional lines, subdivided sections 18, 30 and 31 and conducted a metes-and-bounds survey of the Mount Tipton Wilderness Area Boundary, in Township 25 North, Range 17 West, of the Gila and Salt River Meridian, in the State of Arizona, which are represented in the foregoing field notes as having been executed by us and under our direction; and that said survey has been made in strict conformity with said special instructions, the Manual of Instructions for the Survey of the Public Lands of the United States, and in specific manner described in the foregoing field notes.
