FIELD NOTES
OF THE
DEPENDENT RESURVEY OF

THE SEVENTH STANDARD PARALLEL NORTH THROUGH RANGE 16 EAST,

THE FOURTH GUIDE MERIDIAN EAST THROUGH TOWNSHIP 29 NORTH,

THE NORTH BOUNDARY

AND THE SUBDIVISIONAL LINES,

AND

THE SUBDIVISION OF SECTION 34,

TOWNSHIP 29 NORTH, RANGE 16 EAST

Of the Gila and Salt River Meridian,
In the State of Arizona

EXECUTED BY

Stephen K. Hansen

Cadastral Surveyor

Under Special Instructions dated July 20, 1998, approved July 20, 1998, which provided for the surveys included under Group Number 832, and assignment instructions dated July 20, 1998.

Survey Commenced August 18, 1998

Survey Completed November 10, 1998

INDEX DIAGRAM

TOWNSHIP 29 NORTH, RANGE 16 EAST,

Subdivision of Section 34

pp. 48-50

T. 29 N., R. 16 E., Gila and Salt River Meridian, Arizona

CHAINS

The following field notes describe the dependent resurvey of the Seventh Standard Parallel North through Range 16 East, the Fourth Guide Meridian East through Township 29 North, the north boundary and the subdivisional lines, and the subdivision of section 34, Township 29 North, Range 16 East, Gila and Salt River Meridian, Arizona.

John C. Smith surveyed the Seventh Standard Parallel North, a portion of the Fourth Guide Meridian East, a portion of the subdivisional lines, and the subdivision of certain sections by the three mile method in 1891. Sidney E. Blout resurveyed the Seventh Standard Parallel North, a portion of the Fourth Guide Meridian East, and a portion of the subdivisional lines in 1908-09, and surveyed the West and North boundaries and the remainder of the Fourth Guide Meridian East and the subdivisional lines in 1908-09. Blout's survey superseded Smith's survey, eliminating the subdivision of sections by the three mile method. Joe R. Salazar dependently resurveyed the west boundary, in 1998-99.

The survey was executed in accordance with the specifications as set forth in the Manual of Surveying Instructions, 1973, and the Special Instructions dated July 20, 1998, for Group No. 832, Arizona.

Preliminary to the resurvey, the lines of the previous surveys were retraced and search was made for all corners and other calls of the record. Identified corners were remonumented in their original positions; lost corners were restored and monumented at proportionate positions based on the latest record. The retracement data were thoroughly verified and only the true line field notes are given herein.

The directions and distances of all lines were determined by use of the Trimble 4400 real time kinematic survey system, and bearings refer to the true meridian.

The geographic position of the standard corner of Townships 29 North, Ranges 16 and 17 East, was determined by the system of differential positioning using the Trimble Navigation 4400 Model Global Positioning System. First order U. S. Coast and Geodetic Survey Triangulation Station "N 70 1934", with published latitude of 35°51'29.99114 N., and published longitude of 110°37'46.24765 W., NAD 83 (1992) was used as the control station. The geographic position is as follows:

Latitude: 35°52'02.88" N. Longitude: 110°33'47.35" W.
NAD 83 (1992)

The mean magnetic declination is 12 1/2° E.

Many of the lower areas along the Oraibi Wash are used for dry land farming of drought resistant varieties of corn and beans. Much of the township contains rolling sand dunes and grasslands. The remainder of the township is rocky and mountainous.</p> <p>Timber in the higher areas consists of juniper and pinon pine. There are a number of peach and apple orchards scattered throughout the area. The grasslands are used for the grazing of cattle, horses and sheep.</p> <p>Elevation ranges from about 5500 to 6500 feet above sea level.</p> <p>No evidence of mineral activity was noted.</p> <p>The mean magnetic declination of 12 1/2° E., was derived from the United States Geological Survey computer program "MAGPOINT", utilizing the Regional Magnetic Field Model for Epoch 1995 for the dates of survey.</p> <hr/>

CERTIFICATE OF SURVEY

I, Stephen K. Hansen, Cadastral Surveyor, HEREBY CERTIFY upon honor that, in pursuance of Special Instructions bearing date of the 20th day of July, 1998, I have dependently resurveyed the Seventh Standard Parallel North through Range 16 East, the Fourth Guide Meridian East through Township 29 North, the north boundary and the subdivisional lines, and subdivided section 34, Township 29 North, Range 16 East, of the Gila and Salt River Meridian, in the State of Arizona, which are represented in the foregoing field notes as having been executed by me and under my direction; and that said survey has been made in strict conformity with said special instructions, the Manual of Instructions for the Survey of the Public Lands of the United States, and in specific manner described in the foregoing field notes.

07/05/2000
(Date)

Stephen K. Hansen
(Cadastral Surveyor)

CERTIFICATE OF APPROVAL

BUREAU OF LAND MANAGEMENT
Arizona State Office
Phoenix, Arizona

The foregoing field notes of the dependent resurvey of the Seventh Standard Parallel North through Range 16 East, the Fourth Guide Meridian East through Township 29 North, the north boundary and the subdivisional lines, and the subdivision of section 34, Township 29 North, Range 16 East, Gila and Salt River Meridian, Arizona, executed by Stephen K. Hansen, Cadastral Surveyor, having been critically examined and found correct, are hereby approved.

July 20, 2000
(Date)

Kenny J. Ravnikar
(Chief Cadastral Surveyor of Arizona)

~~CERTIFICATE OF TRANSCRIPT~~

~~I CERTIFY that the foregoing transcript of the field notes of the above-described surveys in T. 29 N., R. 16 E., Gila and Salt River Meridian, Arizona, is a true copy of the original field notes.~~
