Dependent Resurvey of H.E.S. No. 391 Pages 10-24

Tp. 14 N., R. 10 E., Gila and Salt River Meridian, Arizona

CHAINS

The following field notes describe the dependent resurvey of a portion of the subdivisional lines and the dependent resurvey of Homestead Entry Survey No. 391, Township 14 North, Range 10 East, Gila and Salt River Meridian, Arizona.

The history of surveys pertaining to this survey is as follows:

Theodore F. White, Deputy Surveyor, surveyed the exterior lines and the subdivisional lines of Township 14 North, Range 10 East, in 1881. Walter G. Turley, U. S. Forest Service Surveyor, surveyed Homestead Entry Survey No. 97, in 1914. R. P. A. Johnson, U. S. Forest Service Surveyor - Draftsman, surveyed Homestead Entry Survey No. 391, in 1916. Gordon R. Bubel, Cadastral Surveyor, resurveyed a portion of the subdivisional lines of Township 14 North, Range 10 East, and resurveyed Homestead Entry Survey No. 97, in 2015.

The survey was executed in accordance with the specifications as set forth in the Manual of Instructions for the Survey of the Public Lands of the United States, 2009, and the Special Instructions dated November 4, 2013 and the Supplemental Special Instructions dated August 3, 2016, for Group Number 1123, Arizona.

The true meridian direction and length of all lines were determined by static, real time kinematic Global Navigation Satellite System observations using Trimble Navigation R10 and R8-3 model receivers and by terrestrial observations using a Trimble Navigation S6 model 3" total station.

Preliminary to the resurvey, the lines of the prior surveys were retraced and search was made for all corners and other calls of record. Identified corners were remonumented in their original positions. Lost corners were reestablished and remonumented at proportionate positions based on the official record. The retracement data were thoroughly verified and only the true line field notes are given herein.

The survey was needed for the purpose of locating and identifying property boundaries between portions of the Coconino National Forest (CNF) System and other ownership lands necessary for the implementation of the Four Forest Restoration Initiative. Steel fence posts, with attached USFS sign # 54-2, were set on the forest boundary at intervals of 4 chains +/-.

The "USFS signs # 54-2" referred to in these notes are marked "PROPERTY BOUNDARY National Forest land behind this sign". The "USFS signs # 54-4" are marked "ATTENTION To willfully destroy, deface, change, or remove any Government Survey Corner or Monument, or to willfully cut down any Witness Tree or Blazed Tree marking the line of a Government Survey, is punishable by a Fine of \$250.00 or Six Months Imprisonment or both".

Tp. 14 N., R. 10 E., Gila and Salt River Meridian, Arizona

CHAINS

The "USFS signs # 54-9" are marked "LAND SURVEY MONUMENT Please do not disturb".

Geodetic control was derived from Global Navigation Satellite System (GNSS) static observations post processed by National Geodetic Survey, Online Positioning User Service (OPUS), utilizing Continuously Operating Reference Stations DL1882 AZFL NAU FLAGSTAFF CORS, DL6010 AZSV STAR VALLEY CORS, DL1898 AZPS PRESCOTT CORS. The NAD 83 (CORS2011) (EPOCH: 2010.0000), geographic position of the corner of sections 28, 29, 32, and 33, is as follows:

Latitude: 34°33'48.486" N. Longitude: 111°18'21.602" W.

The NAD 83 (CORS2011) (EPOCH: 2010.0000), geographic position of corner No. 9, Homestead Entry Survey No. 391, is as follows:

Latitude: 34°34'59.218" N. Longitude: 111°18'40.670" W.

The mean magnetic declination is 10 1/2° E.

in sections, 20, 28, and 29,
Tp. 14 N., R. 10 E., Gila and Salt River Meridian, Arizona

CHAINS	
0.21	A point, 6 lks. W. from an angle point on a barbed wire fence, 4 strand, bears S. 16° W. and N. 5° W.
3.66	A point, 6 lks. W. from the same fence, bears N. 16° E. and S. 20° W.
4.05	A point, 3 lks. W. from the same fence, bears N. 20° E. and S. 16° W.
4.16	<p>Intersect the line bet. secs. 28 and 29, hereinbefore described.</p> <p>From this point of intersection, the 1/4 sec. cor. of secs. 28 and 29, hereinbefore described, bears N. 0°20' E., 3.337 chs. dist.</p> <p>From this same point of intersection, the cor. of secs. 28, 29, 32, and 33, hereinbefore described, bears S. 0°20' W., 36.928 chs. dist.</p> <p>Thence within sec. 29.</p>
4.34	Cor. No. 1, H.E.S. No. 391, the point of beginning.
<hr/> GENERAL DESCRIPTION <hr/>	
<p>The area resurveyed within T. 14 N., R. 10 E., is located within Coconino National Forest, in the Clint's Well area, approximately 19 miles NE of Strawberry, Arizona. The terrain varies from rolling to gently rolling. The elevation ranges from 6810 to 6870 ft. above sea level.</p>	
<p>Access to the area resurveyed is provided by Arizona Highway No. 87, Coconino County Road No. 3 (Lake Mary Road), U. S. Forest Service Roads 630 and 680. There are two homes in the southern portion of Homestead Entry Survey No. 391, and Long Valley Camp occupies the northern portion.</p>	
<p>The mean magnetic declination of 10 1/2° E. was derived from the United States Geological Survey computer program GEOMAG, utilizing the World Magnetic Model for Epoch 2015 for the dates of survey.</p> <hr/>	

CERTIFICATE OF SURVEY

I, Blas J. Urena, Cadastral Surveyor, HEREBY CERTIFY upon honor, that in pursuance of special instructions bearing date of the 4th day of November, 2013, and supplemental special instructions bearing date of the 3rd day of August, 2016, I have dependently resurveyed a portion of the subdivisional lines and dependently resurveyed H.E.S. No. 391, T. 14 N., R. 10 E., of the Gila and Salt River Meridian, in the State of Arizona, which are represented in the foregoing field notes as having been executed by me and under my direction. Said survey has been made in strict conformity with said special instructions, supplemental special instructions, the Manual of Instructions for the Survey of the Public Lands of the United States, 2009, and in specific manner described in the foregoing field notes.

1/03/2017
