FIELD NOTES
OF THE
DEPENDENT RESURVEY OF
A PORTION OF THE WEST BOUNDARY,
AND A PORTION OF THE SUBDIVISIONAL LINES,
THE SUBDIVISION OF SECTION 22,
AND
METES-AND-BOUNDS SURVEYS IN CERTAIN SECTIONS,
TOWNSHIP 3 NORTH, RANGE 9 WEST,
OF THE GILA AND SALT RIVER MERIDIAN,
IN THE STATE OF ARIZONA.

EXECUTED BY

Marshall S. Wixom, Cadastral Surveyor

Under Special Instructions dated September 01, 2017, approved September 01, 2017, which provided for the surveys included under Group No. 1160, and assignment instructions dated September 01, 2017.

Survey commenced September 11, 2017

Survey completed November 28, 2017

CHAINS

The following field notes describe the dependent resurvey of a portion of the west boundary, and a portion of the subdivisional lines, the subdivision of section 22, and metes-and-bounds surveys in certain sections, Township 3 North, Range 9 West, Gila and Salt River Meridian, Arizona.

The history of surveys pertaining to this survey is as follows:

The West Boundary, Township 3 North, Range 9 West, Gila and Salt River Meridian, was surveyed by Jessie B. Wright, U.S. Surveyor, in 1914. (Book 2791)

The East Boundary, Township 3 North, Range 9 West, Gila and Salt River Meridian, was surveyed by G. F. Sawyer, U.S. Surveyor, in 1925. (Book 3742)

The Subdivisional Lines, Township 3 North, Range 9 West, Gila and Salt River Meridian, were surveyed by Dupree R. Avrill, U.S. Surveyor, in 1929. (Book 3880)

A private survey plat by John M. Labrum (R.L.S. 6536) pertains to this area and is recorded at the Maricopa County Recorder's office in Book 266 Page 49, dated 05/09/1984.

The Bureau of Reclamation surveyed in sections 19, 20, 21, 22, 23, 25, and 26, in 1988. This information can be found on the MCDOT Plat Index website under the plat names BOR HR5 T3N R9W S19 1988, BOR HR5 T3N R9W S20 1988, BOR HR5 T3N R9W S21 1988, BOR HR5 T3N R9W S22 1988, BOR HR5 T3N R9W S23 1988, BOR HR5 T3N R9W S25 1988, and BOR HR5 T3N R9W S26 1988.

Marshall S. Wixom, Cadastral Surveyor, surveyed a portion of the east boundary (west boundary, Township 3 North, Range 8 West) concurrently under this same group.

The survey was executed in accordance with the specifications as set forth in the Manual of Surveying Instructions, (2009), and the Special Instructions dated September 01, 2017, for Group Number 1160, Arizona.

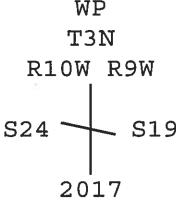

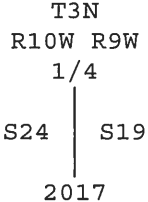

The true meridian direction and length of all lines were determined by real time kinematic global positioning system observations using Trimble Navigation R8 model receivers.

Preliminary to the resurvey, the lines of the prior surveys were retraced and search was made for all corners and other calls of record. Identified corners were remonumented in their original positions. Lost corners were reestablished and remonumented at proportionate positions based on the official record. The retracement data were thoroughly verified and only the true line field notes are given herein.

**Description of Southerly C.A.P. Security Fence,
T. 3 N., R. 9 W., Gila and Salt River Meridian, Arizona**

CHAINS

The following is for informational purposes only.

NOTE

Orange carsonite posts marked "Fiber Optic Vault" are present along the southerly C.A.P. security fence throughout the survey area. C.A.P. personnel have indicated that these markers are associated with a different fiber optic cable than the existing buried communication line described in the Special Instructions dated September 01, 2017. There are also concrete vaults located along the southerly C.A.P. security fence at irregular intervals. These structures appear to be the best available surface evidence regarding the location of the existing buried communication line with which this survey is concerned.

From the witness point of secs. 19 and 24, on the southerly right-of-way line of the Central Arizona Project Canal, hereinbefore described, located N. 0°03' W., 27.65 chs. dist., from the cor. of secs. 19, 24, 25, and 30.

N. 0°03' W., 0.07 chs. dist., to a point where the W. bdy. of the Tp. intersects the southerly C.A.P. security fence.

Thence, S. 81°15' W., 1.34 chs. dist., along the southerly C.A.P. security fence, within the southerly right-of-way line of the Central Arizona Project Canal, to a point at the intersection with the southerly right-of-way line of the Central Arizona Project Canal.

Thence, S. 81°15' W., 0.35 chs. dist., along the southerly C.A.P. security fence, outside of the southerly right-of-way line of the Central Arizona Project Canal, to an angle point.

Thence, S. 86°10' E., 0.35 chs. dist., along the southerly C.A.P. security fence, to a point at the intersection with the southerly right-of-way line of the Central Arizona Project Canal.

Thence, continuing S. 86°10' E., 3.52 chs. dist., along the southerly C.A.P. security fence, within the southerly right-of-way line of the Central Arizona Project Canal, to an angle point.

Thence, N. 87°05' E., 3.00 chs. dist., along the southerly C.A.P. security fence, to an angle point.

Thence, S. 87°20' E., 7.10 chs. dist., along the southerly C.A.P. security fence, to an angle point.

Thence, S. 77°25' E., 5.09 chs. dist., along the southerly C.A.P. security fence, to a point at the intersection with the southerly right-of-way line of the Central Arizona Project Canal.

Thence, continuing S. 77°25' E., 7.63 chs. dist., along the southerly C.A.P. security fence, within the southerly right-of-way line of the Central Arizona Project Canal, to an angle point.

Thence, S. 77°30' E., 6.18 chs. dist., along the southerly C.A.P. security fence, to a point at the intersection with the southerly right-of-way line of the Central Arizona Project Canal.

Thence, continuing S. 77°30' E., 2.09 chs. dist., along the southerly C.A.P. security fence, outside of the southerly right-of-way line of the Central Arizona Project Canal, to an angle point.

Thence, S. 89°45' E., 2.11 chs. dist., along the southerly C.A.P. security fence, to a point at the intersection with the southerly right-of-way line of the Central Arizona Project Canal.

Thence, S. 89°45' E., 9.08 chs. dist., along the southerly C.A.P. security fence, within the southerly right-of-way line of the Central Arizona Project Canal, to a point on the Tp. line bet. secs. 25 and 30, Tps. 3 N., Rs. 8 and 9 W. From this point, the witness point of secs. 25 and 30, on the southerly right-of-way line of the Central Arizona Project Canal, bears South, 0.08 chs. dist., hereinbefore described. From this same point, the SW cor. of a concrete vault, 5 x 5 ft., bears N. 22°53' E., 0.12 chs. dist., one side bears N. 85° E. and S. 85° W. This structure is located within both the southerly security fence and the southerly right-of-way.

T. 3 N., R. 9 W., Gila and Salt River Meridian, Arizona

CHAINS

GENERAL DESCRIPTION

The land encompassed in this survey is approximately 12 miles northwest of Tonopah, Arizona. Approximate elevations range from 1,300 to 1,500 feet above sea level.

The Central Arizona Project Canal enters the township on the west boundary of section 19 and traverses easterly. Access is provided by Salome Road, the road along the canal, and other secondary roads.

The terrain is gently rolling and generally drains to the south within the area of the survey, but rapidly becomes more mountainous to the north. Creosote, scattered paloverde, ironwood, and saguaro cacti are found throughout most of the area.

The mean magnetic declination of $10 \frac{3}{4}^{\circ}$ E. was derived from the United States Geological Survey computer program GEOMAG, utilizing the World Magnetic Model for Epoch 2015 for the dates of survey.

CERTIFICATE OF SURVEY

I, Marshall S. Wixom, Cadastral Surveyor, HEREBY CERTIFY upon honor, that in pursuance of special instructions bearing date of the 1st day of September, 2017, I have dependently resurveyed portions of the west boundary, and a portion of the subdivisional lines, subdivided section 22, and performed metes-and-bounds surveys in certain sections, T. 3 N., R. 9 W., of the Gila and Salt River Meridian, in the State of Arizona, which are represented in the foregoing field notes as having been executed by me and under my direction. Said survey has been made in strict conformity with said special instructions, the Manual of Surveying Instructions, (2009), and in specific manner described in the foregoing field notes.

Marshall S. Wixom
(Cadastral Surveyor)

CERTIFICATE OF APPROVAL

BUREAU OF LAND MANAGEMENT
Phoenix, Arizona

The foregoing field notes of the dependent resurvey of portions of the west boundary, and a portion of the subdivisional lines, the subdivision of section 22, and metes-and-bounds surveys in certain sections, T. 3 N., R. 9 W., Gila and Salt River Meridian, in the State of Arizona, executed by Marshall S. Wixom, Cadastral Surveyor, having been critically examined and found correct, are hereby approved.

9/13/2018
(Date)

(Chief Cadastral Surveyor of Arizona)

~~CERTIFICATE OF TRANSCRIPT~~

~~I CERTIFY That the foregoing transcript of the field notes of the above described surveys in T. 3 N., R. 9 W., Gila and Salt River Meridian, Arizona, is a true copy of the original field notes.~~
