FIELD NOTES  
OF THE  
DEPENDENT RESURVEY OF A PORTION OF THE NORTH BOUNDARY  
AND A PORTION OF THE SUBDIVISIONAL LINES,  
AND  
THE SUBDIVISION OF SECTIONS 3 AND 4,  
TOWNSHIP 9 SOUTH, RANGE 17 EAST,  
OF THE GILA AND SALT RIVER MERIDIAN,  
IN THE STATE OF ARIZONA.

**EXECUTED BY**

**Blas J. Urena, Cadastral Surveyor**

Under Special Instructions dated October 25, 2017, approved October 25, 2017, which provided for the surveys included under Group No. 1179, and assignment instructions dated October 24, 2017.

**Survey commenced December 5, 2017**

**Survey completed September 25, 2018**

## T. 9 S., R. 17 E., Gila and Salt River Meridian, Arizona

## CHAINS

The following field notes describe the dependent resurvey of a portion of the north boundary and a portion of the subdivisional lines, and the subdivision of sections 3 and 4, Township 9 South, Range 17 East, Gila and Salt River Meridian, Arizona.

The history of surveys pertaining to this survey is as follows:

Theodore F. White, United States Deputy Surveyor, surveyed the south boundary of Township 8 South, Range 17 East, in 1877, (Book 1573). John L. Harris, United States Deputy Surveyor, surveyed the subdivisional lines of Township 9 South, Range 17 East, in 1877, (Book 733).

The survey was executed in accordance with the specifications as set forth in the Manual of Surveying Instructions, 2009, and the Special Instructions dated October 25, 2017, for Group Number 1179, Arizona.

The true meridian direction and length of all lines were determined by static or real time kinematic Global Navigation Satellite System observations using Trimble Navigation R8-3 and R10 model receivers.

Preliminary to the resurvey, the lines of the prior surveys were retraced and search was made for all corners and other calls of record. Identified corners were remonumented in their original positions. Lost corners were reestablished and remonumented at proportionate positions based on the official record. The retracement data were thoroughly verified and only the true line field notes are given herein.

Geodetic control was derived from Global Navigation Satellite System (GNSS) static observations post processed by Trimble CenterPoint RTX Post-Processing Service. The NAD 83(2011) (EPOCH: 2010.0000), geographic position of the section corner of sections 2, 3, 10, and 11, is as follows:

Latitude: 32°40'21.147" N.                      Longitude: 110°35'09.552" W.

The NAD 83(2011) (EPOCH:2010.0000), geographic position of the section corner of sections 4, 5, 32, and 33, on the north boundary of Township 9 South, Range 17 East, is as follows:

Latitude: 32°41'12.569" N.                      Longitude: 110°37'11.819" W.

The mean magnetic declination is 9 3/4° E.

Dependent Resurvey of a Portion of the North Boundary,  
T. 9 S., R. 17 E., Gila and Salt River Meridian, Arizona

CHAINS

Restoring the survey executed by  
Theodore F. White, in 1877

Beginning at the cor. of secs. 4, 5, 32, and 33, on the N. bdy. of the Tp., monumented with a rebar, 5/8 in. diam., firmly set, projecting 2 ins., above ground, in a collar of stone, witnessed by a "U" shape steel post N. of cor. Found and accepted by Chad R. Erickson, Arizona R.L.S. No. 40590, who attached an aluminum cap, in 2004, according to Book 10 of Surveys, Page 175, on file at Pinal County Recorder's Office. The aluminum cap, 2 1/2 ins. diam., "DARLING ENV. & SURVEYING RLS 29869 2004", mkd. T8S R17E S32 S33 S5 S4 T9S. This position is harmoniously related to existing orig. cors., has long been recognized as the cor. by adjacent landowners, and is accepted as the best available evidence of the orig. cor. position.

At the corner point

Set a stainless steel post, 28 ins. long, 2 1/2 ins. diam., 26 ins. in the ground, in a collar of stone, with brass cap mkd.

S 5	S 4
T 9 S	

2018

Deposit a magnet, in a white plastic case, and the aluminum cap, at the base of the stainless steel post. Deposit the rebar, 18 ins. long, inside the stainless steel post.

From this cor., a fence cor., bears S. 31°34' E., 2.41 chs. dist., barbed wire, 4 strand, with fences extending N. 88°11' E., S. 20°44' E., and S. 87°36' W.

From this same cor., a mound of stone in concrete, 2 ft. base, 3 ins. high, anchoring a fence cor., with a wood post, 42 ins. long, 3 ins. sq., laying loose and nearby, bears S. 58°29' W., 4.28 chs. dist.

From this same cor., a rebar, 1/2 in. diam., firmly set, projecting 2 ins. above ground, bears S. 58°53'30" W., 4.343 chs. dist.

From this rebar, a fence cor., bears N. 74°18' W., 1.8 lks. dist., barbed wire, 4 strand, with fences extending N. 88°18' E. and N. 89°10' W.

From this same cor., a rebar, 5/8 in. diam., firmly set, projecting 7 ins. above ground, bears S. 89°20'00" W., 65.4 lks. dist.

Dependent Resurvey of a Portion of the North Boundary,  
T. 9 S., R. 17 E., Gila and Salt River Meridian, Arizona

CHAINS	
	<p>From this same cor., a dirt road, bears West, 48 lks. dist., 8 ft. wide, bears S. 40° E. and N. 40° W.</p>
	<p>N. 89°22'20" E., bet. secs. 4 and 33, on the N. bdy. of the Tp.</p>
	<p>Over rolling and broken terrain.</p>
1.55	<p>A rebar, 5/8 in. diam., of unknown origin, firmly set, projecting 6 ins. above ground.</p>
17.08	<p>San Pedro River, main channel, 100 ft. wide, course N. 18° W.</p>
38.324	<p>A rebar, 1/2 in. diam., firmly set, projecting 4 ins., above ground, found and accepted as the 1/4 sec. cor. of secs. 4 and 33, by Alan Speth, Arizona R.L.S. No. 15933, in 1990, according to Book 2 of Surveys, Page 111, on file at Pinal County Recorder's Office. This rebar is not harmoniously related to the controlling corners, and is not utilized in the course of this resurvey.</p>
	<p>This rebar is located along a barbed wire fence, 5 strand, bears S. 83°15' E. and N. 83°15' W.</p>
39.255	<p>The 1/4 sec. cor. of secs. 4 and 33, reestablished by Chad R. Erickson, Arizona R.L.S. No. 40590, in 2004, according to Book 10 of Surveys, Page 175, on file at Pinal County Recorder's Office, monumented with a rebar, 5/8 in. diam., firmly set, projecting 3 ins. with an aluminum cap, 2 1/2 ins. diam., "DARLING ENV. &amp; SURVEYING RLS 29869 2004", mkd. T8S R17E S33 1/4 S4 T9S. This position is harmoniously related to the controlling cors., and is accepted as a careful and faithful reestablishment of the orig. cor. position.</p>
	<p>With a rebar, 19 ins. long, 5/8 in. diam., with one end pointed, typical of monuments set by Vincent Coxon, Arizona R.L.S. No. 4154, laying loose nearby, in an area disturbed by farm equipment, and also with a steel "T" post laying loose nearby.</p>
	<p>At the corner point</p>
	<p>Set a stainless steel post, 28 ins. long, 2 1/2 ins. diam., 28 ins. in the ground, underpinned with the rebar, 30 ins. long, 42 ins. in the ground, with brass cap mkd.</p>

## T. 9 S., R. 17 E., Gila and Salt River Meridian, Arizona

CHAINS

## GENERAL DESCRIPTION

---

The lines surveyed and resurveyed within T. 9 S., R. 17 E. are located approximately 3.5 miles, S. 35° E., of Mammoth, Arizona. Access is provided by Arizona State Route Number 77, Kino Street, Catalina Avenue, Bluebird Avenue, East Copper Creek Road and River Road.

The terrain is generally rolling with scattered to medium mesquite trees being the predominant species. The mean elevation is approximately 2560 feet above sea level.

The San Pedro River runs through a portion of sec. 4 and drains to the northwest. Mulberry Wash runs through a portion of the north half of sec. 3 and a portion of the east half of sec. 4 and drains into the San Pedro River. Smelter Wash runs through a portion of the west half of sec. 4 and also drains into the San Pedro River.

The mean magnetic declination of 9 3/4° E. was derived from the United States Geological Survey computer program GEOMAG, utilizing the World Magnetic Model for Epoch 2015 for the dates of survey.

---

## CERTIFICATE OF SURVEY

I, Blas J. Urena, Cadastral Surveyor, HEREBY CERTIFY upon honor, that in pursuance of special instructions bearing date of the 25th day of October, 2017, I have dependently resurveyed a portion of the north boundary and a portion of the subdivisional lines, and subdivided sections 3 and 4, T. 9 S., R. 17 E., of the Gila and Salt River Meridian, in the State of Arizona, which are represented in the foregoing field notes as having been executed by me and under my direction. Said survey has been made in strict conformity with said special instructions, the Manual of Surveying Instructions, (2009), and in specific manner described in the foregoing field notes.

5/20/2019

(Date)

Blas J. Urena

(Cadastral Surveyor)

## CERTIFICATE OF APPROVAL

BUREAU OF LAND MANAGEMENT  
Phoenix, Arizona

The foregoing field notes of the dependent resurvey of a portion of the north boundary and a portion of the subdivisional lines, and the subdivision of sections 3 and 4, T. 9 S., R. 17 E., Gila and Salt River Meridian, in the State of Arizona, executed by Blas J. Urena, Cadastral Surveyor having been critically examined and found correct, are hereby approved.

6/3/2019

(Date)

[Signature]

(Chief Cadastral Surveyor of Arizona)

~~CERTIFICATE OF TRANSCRIPT~~

~~I CERTIFY That the foregoing transcript of the field notes of the above described surveys in T. 9 S., R. 17 E., Gila and Salt River Meridian, Arizona, is a true copy of the original field notes.~~

~~(Date)~~

~~(Chief Cadastral Surveyor of Arizona)~~
