# OATH OF ASSISTANTS

We hereby certify that we assisted Walter G. Turley
Surveyor-Forest Service in Surveying all blose
parts or portions of Homestead Entry Survey No. 100, in
unsurveyed Section 1 Township D. N. Kange Lo.
unsurveyed Section 12 , Township 6 N. Range 13 E.
Chatage Arizons Which
of the G.& S.R.B. & meridian, State of Arizons, which
are represented in the following field notes as having been
surveyed by him and under his direction; and that said survey has been in all respects, to the best of our knowledge
and belief, well and faithfully surveyed, and the corner
monuments established, according to the instructions fur-
nished by the United States Surveyor General for Arizona.
nisited by the onlined braves barveyer denoted a
Note: It would have been Charles OHodson Chainman
very inconvenient and ex-
pensive to appear before an Charles Bacche Chainman
officer to administer the
oaths to the Assistants;
hence, they were taken by
the Surveyor.

McFadden: Application Nos. 6 and 347, dated October 17, 1906 and September 30, 1912: List Nos. 1416 and 3-2214, dated April 14, 1908, and January 14, 1913; Homestead Entry Nos. 0401 and 022331 made in the Phoenix Land Office on August 5, 1908, and May 26, 1913, by Wm. McFadden whose postoffice address is Roosevelt, Arizona.

Surveyed under Acts of June 11, 1906 and June 30, 1914; and special instructions from the Surveyor General for . Arizona, dated November 29, 1913, and designated as . . . Homestead Entry Survey No. 155:

. Situated in what will probably be when surveyed secs. 1 and 12, T. 6 N., R. 13 E., Gila and Salt River Base and Meridian, within the Tonto National Forest, Arizona.

. Survey commenced September 24, 1914, and executed with a W. & L. E. Gurley light mountain transit No. 12953, provided with prism eye piece, stadia wires, vertical circle, and Burt solar attachment. The horizontal limb of the transit has two double verniers placed opposite to each other and graduated to single minutes of are, which is also the graduation upon the verniers of the latitude and declination arcs.

. I test the adjustments of the transit and solar attachment and make necessary corrections. The stadia wire interval is adjusted to read 1:132.

All distances are horizontal; and were reduced from measurements made directly on the slope, with a standard 500 link steel tape. The slope angles were determined with a clinometer. The strip of land excepted from List 3-2214 has been included in this survey. exception will be listed as a basis for entry.

This claim is situated on McFadden Creek at an elevation of approximately 5800 ft. and is best adapted for a cattle ranch. The drainage is southward into the Roosevelt Reservoir.

There is some timber in this section and a few trees are included in this survey.

Sufficient water for all purposes is obtained from McFadden Creek which is perennial.

of the temperate zone with irrigation. Good crops
of alfalfa, fruit, berries, corn and small grains
have been produced.

Surveyor, Forest Service.

Sheet No. 3.—Revised Feb., 1915.

Surveyors are required to use the Standard Field Tables issued by the G. L. O.

DIRECTIONS.—1. Carry out calculations to two decimals only.

2. In balancing Latitudes and Departures do not obliterate or change the original figures.

Put the corrected figure or figures above in red ink. Do not change the footing of the original figures, but put below them the corrected figure or figures above in red ink. Do not change the footing of the lines.

The corrections for balancing fallings should be proportional to the lengths of the lines.

3. In calculations of fallings take result to nearest link. In calculations of N. and S. areas drop all after second decimal. Surveyors are required to use the Standar 4. Only three copies of this tabulation are necessary, for the District Office, the Surveyor General, and the Commissioner.

#### APPROVAL

Office of the United States Surveyor General,

Phoenix, Arizona, June 18 , 1917

The foregoing field notes of Homestead Entry Survey No.

155

executed by Walter G. Turley, Surveyor Forest Service [Forest Service Title.] under his special instructions, dated November 29, 1913, having been critically examined, and the necessary corrections and explanations made, the said field notes, and the surveys they describe, are hereby approved.

U. S. Surveyor General.

I certify that the foregoing transcript of the field notes of the above-described survey in the State of Arizona , has been correctly copied from the original notes on file in this office.

Frank P. Trott

U. S. Surveyor General.

8-2349
