OATH OF ASSISTANTS

We hereby certify that we assisted Charles D. Hodson, Surveyor - Draftsman [Forest Service Title.]

in surveying all those

, in the State 351 parts or portions of Homestead Entry Survey No. of Arizona , which are represented in the following field notes as having been surveyed by him and under his direction; and that said survey has been in all respects, to the best of our knowledge and belief, well and faithfully surveyed, and the corner monuments established, according to the instructions furnished by the United States Surveyor General for Arizona.

Note: It would have been very expensive and inconvenient to appear before an officer to administer oaths to Assistants; hence, they were taken by the Surveyor.

OATH OF SURVEYOR

Surveyor - Draftsman I. Charles D. Hodson, [Forest Service Title.]

do solemnly swear that, in strict conformity with the special instruc-tions of the United States Surveyor General for Arizona , dated April 20 , 1915 , and the laws of the United States, I have well, faithfully, and truly, in my own proper person, surveyed a tract of land embraced in List No.3-2312, dated February 21, 1913, and a tract of land upon the application of Joseph G. Estes,

Application Patent	, No. 283		bh 31 , 19 16 of June 11	
the same to be known	as Homestead	Entry Survey	No. 351	,
situated within the	PRESC	OTT	National	Forest, in
un surveyed Section		wnship 17 N.		• , and
unsurveyed Section	26 / , To	wnship 17 N.	, Range 5 W	• , ,

of the G. and S. R. B. and meridian, Arizona , and the related retracements and resurveys and section subdivisions, which are represented in the following field notes as having been surveyed by me; and I further solemnly swear that all the corners of said survey have been established and perpetuated in strict accordance with the stated special instructions, and in the specific manner described in the field notes, and that the following are the original field notes of such survey.

DIRECTIONS.—1. Carry out calculations to two decimals only.
DIRECTIONS.—1. Carry out calculations to two decimals only.
Directions and Departures do not obliterate or change the footing of the original figures.
In Plancing Latitudes and Departures above in red ink. Do not change the footing of the original figures, but put below them the corrected footing in red ink.
The corrections for balancing failings should be proportional to the lengths of the lines.
In calculations of fallings take result to nearest link. In calculations of N. and S. areas drop all after second decimal. Surveyors are required to use the Standard Field Tables issued by the G. L. O.
Any three copies of this tabulation are necessary, for the District Office, the Surveyor General, and the Commissioner.
