OATH OF ASSISTANTS

We hereby certify that we assisted . Charles D. Hodson, Surveyor - Draftsman
[Forest Service Title.] in surveying all those

parts or portions of Homestead Entry Survey No. 354 , in the State of Arizona , which are represented in the following field notes as having been surveyed by him and under his direction; and that said survey has been in all respects, to the best of our knowledge and belief, well and faithfully surveyed, and the corner monuments established, according to the instructions furnished by the United States Surveyor General for Arizona.

Note: It would have been very expensive and inconvenient to appear before an officer to administer oaths to Assistants; hence, they were taken by the Surveyor.

Applicant for listing, Joseph A. Harris; Application No. 98, dated February 28, 1911; List No. 3-1366, dated June 30, 1911; H. E. 026808, made in the Phoenix Land Office on February 20, 1915 by Charles L. Alvis.

Surveyed under special instructions from the Surveyor General for Arizona, dated April 20, 1915 and designated as Homestead Entry Survey No. 354.

Situated in what will probably be, when surveyed, secs.

7 and 8, T. 18 N., R. 4 W., Gila and Salt River Base
and Meridian, within the Prescott National Forest,
Arizona.

Surveyed under the Acts of June 11, 1906 and March 4,

n noinw earevery vd .J. ib .ano

Survey commenced July 29, 1915 and executed with a Buff and Buff transit No. 9700-6, equipped with Smith solar attachment.

I test the adjustments of the transit and make necessary

a 500 link steel tape. The slope angles were determined with a clinometer.

At 7h. 00m. a.m., l.m.t., I set off 34° 58' N. on the lat. arc, 18° 57' N. on the decl. arc and determine a meridian with the solar at my station near cor. No. l of H. E. S. No. 353. The meridian thus determined falls 0° 00' 30" E. of the meridian established by me by Polaris observation of July 27, 1915, in connection with H. E. S. 353.

This claim is situated on Walnut Creek near where it and leaves the hills. Approximately 75 per cent of the area is bottom land composed of a sandy loam. The hillsides are non-agricultural but are well adapted to grazing.

At the time of survey there was approximately one acre

Walnut Creek, a perennial stream, traverses this claim

Chains

There was no evidence of water development on the claim but I was told that water could be reached within 20 feet of the surface anywhere along the creek bottom.

There is very little timber on the claim and that has no commercial value.

I saw no indication of mineral upon the claim.

CONFLICTS AND ADJOINING CLAIMS

There are no conflicts or adjoining claims.

Simmons, the nearest post office, is approximately 17 miles in a southeasterly direction and is reached by fair wagon road. Prescott, the nearest railroad and market point, is approximately 44 miles in a southeasterly direction and is reached by 17 miles of fair wagon road and 27 miles of good auto road.

No. 1, 8. 74 06' 24" W., 79.86 cns. dist.

Form 85. Sheet No. 3.—Revised Feb., 1915.

DIRECTIONS.—1. Carry out calculations to two decimals only.

2. In balancing Latitudes and Departures do not obliterate or change the original figures.

2. In balancing Latitudes and Departures do not obliterate or change the footing of the original figures, but put below them the corrected figure or figures above in red ink. Do not change the footing of the lines.

The corrections for balancing fallings should be proportional to the lengths of the lines.

3. In calculations of fallings take result to nearest link. In calculations of N. and S. areas drop all after second decimal. Surveyors are required to use the Standard Field Tables issued by the G. L. O. 4. Only three copies of this tabulation are necessary, for the District Office, the Surveyor General, and the Commissioner.
