There has been in all probability  
 labor expended in developing  
 this mine to the value of (\$3000)  
 three thousand dollars

From Post 4 N 24° E at  
 an angle of depression of 18° and 500  
 distance is made in an arroyo among  
 rocks and probably by excavating  
 quite a supply may be obtained

This mine is on a mountainside  
 facing or inclining north east at an  
 angle of 18°

It will cost some money to get a  
 suitable wagon road to the mine  
 so far nothing has been taken  
 from there except on pack animals

No prominent mountain peaks in  
 the vicinity with which to connect  
 and identify this mine

S R DeLong

I certify that the value of the above labor  
 and improvements, placed on this claim,  
 by the claimant and his grantor is in  
 excess of five hundred dollars.
