Nov 16th 79

Sir, I submit herewith field notes of the survey of the Kaunakeg Mining Claim, as surveyed in pursuance with your instructions dated Nov. 11th 79. in making the survey I find certain portions, conflict with the Grand Central Claim, which has already been surveyed for Patent, and accepted, as so shown on plat, and in my field notes. My bearing along west line of Grand Central differs from the bearing given by Wallis in his official survey; My bearings are carefully taken with the True meridian, and an observation taken to the polar star for that purpose.

- I make the bearing of the west line of Grand Central $N 22.16 - E$ and "Allis" makes it $N. 22. 30 E$. giving a difference of $14'$. The survey of Kaunakeg and that of Contention, agree.

J. Wasson Esq
Surv. General

Yours Ob. Servt.

U. S. Surveyor General's Office.

Tucson, A. D., December 9, 1879.

By reference to the foregoing copy of notice
of location, it will be seen that the
1500 ft. southerly, forming the west side
boundary is omitted, making the location
imperfect; but this office having become
satisfied from the report of the Deputy Surveyor
and the statements of parties cognizant of the
facts that the original location was com-
plete and that the omission was not in
any way attributable to the locator or
their grantee, the survey was approved

John R. Faull.

Chief Clerk.

U. S. Surveyor General's Office.
Tucson, A. T., Dec. 10, 1879.

The foregoing field-notes of the survey of the Warrick Reag Mining Claim, situated in Tombstone Mining District, Pima County, A. T., claimed by Moody and Parish and surveyed upon their application; survey executed by A. J. Mitchell, D. S., under instructions from this office, having been critically examined and the necessary corrections and alterations made, the said field-notes and the survey they describe are hereby approved.

John Mason,
Surveyor General.
