General Description.

The May Mining Claim is situated in Tombstone Mining District, Cochise County, Arizona Territory. Situated about $2\frac{3}{4}$ miles South of Tombstone and $\frac{3}{4}$ of a mile South East of the Randolph House. And is bounded upon the South East by the Lizzie Mining Claim.

The work done and improvements made consist of three shafts, as shown upon the accompanying Plat.

Field notes of survey of the

May Mine,

General Description, continued,

and I hereby certify that
the work done and in-
struments made exceed
in value the sum of
Five Hundred Dollars,

A. G. Stone,

U. S. Deputy Surveyor
of Mineral Lands,

Supplemental Report of Journey
 May Mining Claims
 Substone Mining District
 Borlase County, Mo.

1st

I now order to prove conclusively that the center of the North East end of the May Mining Claim is located upon the ledge. I have secured a shaft 4x5 ft. and 5 feet deep to be sunk S40° W. and 6 ft distant from Post No 5. and as indicated upon the Diagram accompanying Journey, and from this shaft I should take the sample of ore representing this deposit.

2nd

The Spittick monument situated near the South West end of the claim and shown upon Diagram as Post No 1, is located upon the croppings of the ledge, which dips to the South East, and the shaft sunk 8 ft distant N 80 E from said Spittick monument (Post No 1,) is sunk on the East side of the ledge at the surface of but cuts the ledge a few feet of 3 feet on the West side of the shaft, and from this point down the shaft is in ledge matter to the bottom of shaft.

3rd

The South West center end monument Post No 2, is placed upon the croppings but there being no development work

done at this point cannot say that this part and movement is upon the exact center of nothing: but's threads do meet as can be determined from the development done upon the skin.

4th

An affidavit ^{made} by the Superintendent of the May Mining Cordway shows forward showing the above facts, and will forward to you as a part of this Supplemental Report.

Very respectfully,

H. G. Stone

U. S. Deputy Surveyor
of Mineral Lands.

Embodiment,
