By comparison with the Standard Meridian established for Tombstone mining District, I find the variation of my Transit to be  $11^{\circ} 25'$  East.

I commence at the initial monument as described in the Notice of Location, where I find a post of a long 4 ins sqs in monument of stone, marked T. M. Tombstone M. C. being now at the center of the E. end line of the Carbonate mining Claims and having a copy of the official field notes of this line. The official notes give the same line at  $N 17^{\circ} 42' W$  and  $S 17^{\circ} 42' E$ , which shows a difference
