Field Notes of Survey of the Baxter Mining Claim

Warren Mining District,
Cochise County,
Arizona Territory.

Survey commenced Feb 27th 1882
Survey completed March 2nd 1882.

By observation of Polaris I find
the variation of my Instrument
to be 11° 32' East.

In order to fully identify this
claim, and harmonize the
inaccuracy of the description
in the Notices of Location.

I make a preliminary survey
and examination of the
ground.

I commence at a 2x4 inch stake
in a monument of stones marked
N Baxter, which stake is desc-
ribed in the Notices of Location
as the N.W. cor Baxter and also
as being upon the East end of the
Satisfaction Mining Claim,
which mining claim has been
re-located and is now known as
the Atlanta Mining Claim
and designated in the official
Survey of the same as Lot No 49.

From which U.S. M.M. No 1.

Warren District bears N 52° 10' E.

388 ft distant.

I then run along the West end
of claim (having discovered the
the other stakes) and near the
center of the Atlanta Mining Claim
find a 2x4" stake in monument of
stone marked N.C. Baxter, and near
the south side line of the Atlanta
Mining Claim find a 2x4 inch

Stake in monument of stone marked N.W. Baxter, which point is described in the notice of location as being the S.E. corner of the Satisfaction mining claim, which claim having been relocated, is now known as the Atlanta Mining Claim, and designated as Lot No 49.

I find the stakes in line and the bearing of this line to be $N 3^{\circ} 03' W$ and $S 3^{\circ} 03' E$.

I then go to the North end of the Hayes Mining Claim, and find a 2x4 inch stake in monument of stone marked N center Hayes. By the side of this stake I find a 2x4" in stake marked S.C. Baxter, in same monument.

I then go along the North end of the Hayes mining claim and find a 2x4 in stake in monument of stone marked N.W. cor Hayes, which point is described in the notice of location as the S.W. cor of the Hayes. By the side of this stake I find a 2x4 in stake, in same monument, marked S.W. Baxter.

I then run the line along the North end line of the Hayes mining claim as it is described as one of the lines of the Baxter mining claim, run $N 80^{\circ} 39' E$,

or $11^{\circ} 22' East$.

273. To Stake marked N.C. Hayes, and one marked S.C. Baxter.

To stake marked N.C. Baxter,

As the end lines are not parallel I select the south line of claims for my course, ~~as~~ being the nearest at right angles to the center line of claims,

I commence by setting a Post 5 ft long 4 ins sq in a monument of stones in place of stake marked N.C. Baxter, and mark it, I.M. Baxter M.C. No 1,

From which U.S. M.M. No 1 bears, $N 27^{\circ} 23' E$, 613.6 ft distant,

I then run $N 80^{\circ} 39' E$.

var $11^{\circ} 22'$ East.
