Territory.

Survey commenced March 30<sup>th</sup> / 89  
Survey completed March 31<sup>st</sup> / 89

By observation of Polaris I find  
the variation of My Transit (a  
Gurley Transit No 25.) to be  
11° 54' East.

I commence at the initial mo-  
nument of the claim as described  
in the certified copy of location,  
where I find a stake marked  
NW center Grand View, and in  
a Geost Powder can in the mo-  
nument a location notice  
weather worn and water  
stained, which I compare  
and find it to agree with the  
certified copy.

I then select a point in line  
from which both center end  
monuments can be seen, and  
find the center line of the  
claim to bear N 62° 47' W and  
S 62° 47' E,  
Nor 11° 54' East.

I then commence at the initial  
monument, where I set post 4x4,  
is 5ft long marked I.M. GRAND  
VIEW M.C. No 1. 1ft in the ground  
and build around it a mon-  
ument of stone and earth 4 1/2 ft  
at base and 3 feet high.  
I then run a line through the  
center of the claim.
