ing through U. S. Min. Now. No 2 -
Owing to rocky character of ground
it was found impracticable to set
posts in a hole.

By notes sent me from U. S. Sur-
Gen's Office, the bearing of the S. W.
end line of the Merindac (Lot No 51) is
S 82°-15' E while it should be (see page
3 pp 1) S 58°-39' E

The diff being 23°-36' or within
2' of twice the variation, consequently
I suppose the rat to have been taken
west instead of East.

Course No 2 - S. 48°-18' W along
side line of Clipper (Lot No 105)
differs from notes from Sur Gen's Office
by 3°-37' - This diff. I can not explain
as the bearing S 48°-18' W is correct.
