Deputy Mineral Surveyor
under instructions from the
Surveyor General bearing date

Description of Survey,
I commence at the location
monument as described in the
notice of location which point
is situated upon the north
end line of claim which is
also the south end line of
the Silver Belt Mining claim.
a monument of stones,
from which the initial or
location monument of the
Silver Belt. bears $N 17^{\circ} 24' E$ 200 ft.
I find the bearing of the north
end line of claim to be $N 74^{\circ} 36' W$
and $S 74^{\circ} 36' E$.

This claim having been devel-
oped and a mineral bearing
lead discovered, and the lo-
cation monument not being
over the lead or vein. I set
a post on the north end line.

opment. Post 5 ft long 4 in sq

Along the east side line of the Empire mining claim.

Note. The Official notes furnished me by the Surveyor General give this line at $S 17^{\circ} 40' W$ while from a careful adjustment of my Transit and from a point with the whole line in sight I find the line to be $S 17^{\circ} 24' W$.

Feet, The distance to this line in the notice of location is given as being about 350 ft. And by careful measurement I find the length of this line to be 295 ft.
