This survey was made with a Gurley Mountain Transit. The courses were deflected from the true meridian as determined from observation on the North Star, and explained in detail below. The distances were measured with a 50 ft. chain and a 100 ft. steel tape.

This observation was made September 6th. 1897. Eastern elongation about 8:30 p.m. Cloudy weather at time of survey prevented observation at that time.

NOTICE OF MINING LOCATION.
Quartz Claim.

TO ALL WHOM IT MAY CONCERN:

This mining claim the name of which is the Red Jacket Mining Claim, situate on lands belonging to the United States of America, and in which there are valuable mineral deposits, was entered upon and located for the purpose of exploration and purchase by W.A. Clark the undersigned, on the 7th, (seventh) day of January 1897.

The length of this claim is fifteen hundred feet, and I claim one thousand feet in a northerly direction and five hundred feet in a southerly direction from the center of the discovery shaft, at which this notice is posted, lengthwise of the claim, together with three hundred feet in width of the surface grounds on each side of the center of said claim.

The general course of the lode deposit and premises is from the north to the south.

The claim is situated and located in Verde Mining District, in Yavapai County, in the Territory of Arizona, about one mile in a southwesterly direction from the United Verde Co's smelter at Jerome and about four hundred feet in a westerly direction from where the U.V. Co's tramway crosses Walnut Gulch.

The surface boundaries of the claim are marked upon the ground as follows Beginning at a stone monument at a point in a northerly direction one thousand feet from the discovery shaft (at which this notice is posted) being in the center of the northerly end line of said claim; thence easterly three hundred feet to a stone monument, being the northeast corner of said claim; thence southerly seven hundred and fifty ft. to a stone monument at the center of the easterly side line of said claim; thence southerly seven hundred & fifty feet to a stone monument being at the southeast corner of said claim; thence westerly three hundred feet to a stone monument at the center of the southerly end of said claim; thence westerly three hundred feet to a stone monument, being at the southwest corner of said claim; thence northerly seven hundred & fifty feet to a stone monument, being at the center of the westerly side line of said claim; thence northerly seven hundred & fifty feet to a stone monument at the northwest corner of said claim; thence easterly three hundred feet to the place of beginning.

The surface boundaries of the claim are marked upon the ground as follows Beginning at a point in a northerly direction one thousand feet from the discovery shaft (at which this notice is posted) being in the center of the northerly end line of said claim; thence easterly three hundred feet to a stone monument, being the northeast corner of said claim; thence southerly seven hundred and fifty ft. to a stone monument at the center of the easterly side line of said claim; thence southerly seven hundred & fifty feet to a stone monument being at the southeast corner of said claim; thence westerly three hundred feet to a stone monument at the center of the southerly end of said claim; thence westerly three hundred feet to a stone monument, being at the southwest corner of said claim; thence northerly seven hundred & fifty feet to a stone monument, being at the center of the westerly side line of said claim; thence northerly seven hundred & fifty feet to a stone monument at the northwest corner of said claim; thence easterly three hundred feet to the place of beginning.

All done under the provisions of Chapter Six, of Title XXXII, of the Revised Statutes of the United States, and of an Act of the General Assembly of Arizona, entitled "An Act Concerning Mines", approved March 20th. 1895.

Dated and posted on the ground this seventh day of January 1897.
