PRELIMINARY OATHS OF ASSISTANTS IN SURVEY OF MINING CLAIM.

WE, E H Draper and J. O. Andrews,

do solemnly swear that we will well and faithfully execute the duties of chain carriers; that we will level the chain upon even and uneven ground and plumb the tally-pins, either by sticking or dropping the same; that we will report the true distance to all notable objects, and the true length of all lines that we assist in measuring, to the best of our skill and ability, and in accordance with instructions given us, in the survey of the Mining Claim of the Jerome Copper Company

Survey No 1285

This claim is the southerly extension of the United Verde copper mines. The mineral zone appearing to be about 4000 feet in width and extending the entire length of the claim. The ore bodies occurring in large deposits, capped over with a porphyritic iron rock. There being no regular defined quartz veins.

Discrepancy

I found errors in the course of Survey No 867 Azure S.E. and also in course and distance of Surveys No's 869 and 870. Venture North and Venture South.

Instrument

The survey was made with a Gurley solar transit. The courses were deflected from the true meridian as determined by solar and Polar observations. The distances were measured with a 100 foot steel chain.

AMENDED NOTICE OF LOCATION.

TO ALL WHOM IT MAY CONCERN:

This mining claim the name of which is the Ella Mining Claim which said claim was entered upon and located for the purpose of exploration and purchase by Ralph Dillon and Emma C. Dillon, the undersigned, on the twenty third day of March A.D. 1897, the location notice whereof is recorded in Book No. 48 of Mines, pages 26 to 28, records of Yavapai County, Arizona, and the requirements of the United States Mining Laws, as well as the mining laws of the Territory of Arizona have been complied with to the best knowledge and belief of the undersigned at the time of making said location, and it now appearing to said Ralph Dillon and Emma C. Dillon, the undersigned, that the said notice of location is defective, in as much as it does not properly describe the surface boundaries of said mining claim now, therefore, under and in accordance with the provisions of section seven of an act of the Legislative Assembly of Arizona, concerning mines, we hereby amend said Ella Mining Claim, the location and boundaries as amended being described as follows, viz: The general course and direction of the premises is from the Northwest to the Southeast, the course being the same as that of the Venture North Mine (U.S. Survey), the exterior boundaries being as follows: Beginning at a stone monument at Northwest end center of claim, the said Northwest end center being identical with the Southwest corner of the No. 1 Mining Claim, and running thence South 38 Deg. W/300 feet to monument at Northwest corner of claim, the said Northwest corner being at Northeast side line of the Venture North Mine (the Northeast corner of said Venture North Mine being N. 52 Deg. W. 380 Feet); thence in a Southeasterly direction, fifteen hundred feet to a stone monument at Southwest corner of claim (the said ^{North} ~~South~~ east side line of the Venture North Mine being

identical with the southeast side line of this claim for a distance of 940 feet; then the side line continues on in a course identical with said Venture North Northeast side line the requisite length to make up 1500 feet); thence Northeasterly, six hundred feet, to monument at Southeast corner of claim; thence N. 52 Deg. W. 1250 feet to monument at Northeast corner of claim, being at the south end line of the No. 1 Mining Claim, at a point about two hundred feet Southwesterly from Southeast corner of said No. 1 Mine; thence, Southwesterly, along the South end line of said No. 1 Mine, 380 feet to monument at Northwest end center and place of beginning.

The surface boundaries form a rectangular figure, except that portion of the Northeast corner, which, if squared out, would conflict with the No. 1 location.
