County Recorder.

An Act Concerning Mines.

Be it Enacted by the Legislative Assembly of the Territory of Arizona:

SECTION 1. Every notice of location of a mining claim shall contain: First the name of the claim located; second, the name of the locator; third, the date of location; fourth, the number of feet in length of said claim and the number of feet claimed on each side of the center of the discovery shaft, lengthwise of the claim; fifth, the general course of the lode deposit or premises located; sixth, the locality of the claim with reference to some natural object or permanent monument, as will identify the claim.

SECTION 2. All mining locations hereafter located, the certificate of location of which shall not contain: First the name of the lode or premises; second, the name of the locator or locators; third, the date of location; fourth, the number of feet in length of said claim and the number of feet claimed on each side of the center of the discovery shaft, lengthwise of the claim; fifth, the general course of the lode or premises, as near as may be; sixth, the locality of the claim with reference to some natural object, or permanent monument, as will identify the claim, shall be void.

SECTION 3. Before filing such location certificate with the county Recorder of the proper County, the discoverer shall locate his claim by: First, sinking a discovery shaft upon the premises so claimed, to a depth of at least ten feet from the lowest part of the rim of such shaft at the surface and deeper if necessary, until there is shown by such work a lode deposit of mineral in place; second, by posting at the point of discovery, on the surface, a plain sign or notice substantially conforming to the location certificate; third, by marking such claim or premises on the ground so that its boundaries can be readily traced.

SECTION 4. Such surface boundaries shall be marked by **Eight substantial Posts projecting at least Three Feet Above the Surface of the Ground**, or by substantial **Stone Monuments** at least **Three Feet High**, to-wit: One at each corner of said claim, and one at the center of each end and side line thereof.

SECTION 5. Any open-cut cross-cut, adit or tunnel which shall be made as above provided for, as a part of the location of a mining claim and which shall be equal in amount of work to a shaft ten feet deep and four feet wide by six feet long, which shall cut a lode or mineral in place at the depth of ten feet from the surface, shall be equivalent, as a discovery work, to a shaft sunk from the surface.

SECTION 6. The discoverer shall have ninety days from the date of discovering the lode and the posting of the notice thereon, to perform said discovery work thereon.

SECTION 7. If at any time the locator of any mining claim heretofore or hereafter located, or his assigns, shall learn that his original certificate was defective, or that the requirements of the law had not been complied with before filing, or shall be desirous of changing his surface boundaries, or of taking in any additional ground which is subjected to location, or in case the original certificate was made prior to the passage of this law, and he shall be desirous of securing the benefits of this Act, such locator or his assigns, may file an amended certificate of location subject to the provisions of this Act, regarding the making of new locations.

SECTION 8. The amount of assessment, or representation, work or improvements to be done or made during each year, after the completion of the location as heretofore provided, and the time for doing the same, shall be as provided by the laws of the United States.

SECTION 9. Within three months after the expiration of the period of time fixed for the performance of annual labor or the making of improvements upon any mining claims or premises, the person on whose behalf such work or improvement was made, or some person from him knowing the facts, may make and record in the office of the County recorder of the county wherein such claim is situated an affidavit in substance as follows:

TERRITORY OF ARIZONA, }
 County of } ss.
 I, _____, being duly sworn deposes and says, that he is a citizen of the United States, and more than 21 years of age, and resides at _____, _____ County, Arizona Territory, and is personally acquainted with the mining claim and premises located and known as _____ mining claim or lode, situated in _____ Mining District, county of _____, Arizona Territory, the notice of location of which premises is recorded in the office of the County Recorder of said county, in Book _____ of Records of Mines, at page _____; that between the _____ day of _____, A. D. 189 _____ and the _____ day of _____, A. D. 189 _____ at least _____ dollars worth of work and improvements were done and performed upon said premises or lode, not including the location work of said claim. Such work and improvements were done and performed at the expense of _____ owners of said premises for the purpose of complying with the law of the United States pertaining to assessments or annual work, and (here name the miners or men who worked upon the claim in doing the work) were the men employed by said owner and who labored on said premises and who did said work and improvements, and said work so done upon said premises is described as follows, to-wit: (Here describe the work done).

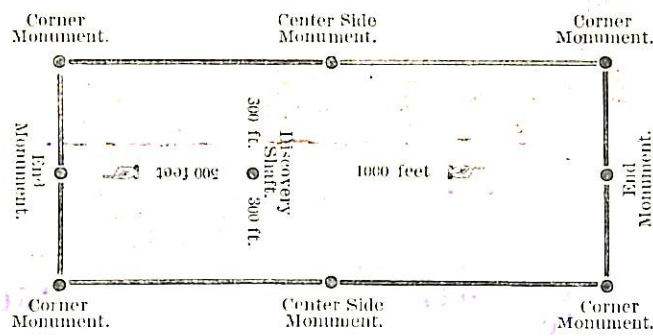

Subscribed and sworn to before me _____ this _____ day of _____, 189 _____ (Signature)

[SEAL] _____ Notary Public.

SECTION 10. Such affidavit when so recorded shall be prima facie evidence of the performance of such labor or the making of such improvements, and said original affidavit after it has been recorded, or a certified copy of record of same, shall be received as evidence accordingly by all the Courts of this Territory.

SECTION 11. The relocation of forfeited or abandoned lode claims shall only be made by sinking a new discovery shaft and fixing new boundaries in the same manner and in the same extent as is required in making a new location; or the relocator may sink the original discovery shaft ten feet deeper than it was at date of commencement of such relocation, and shall erect new or make the old monuments the same as originally required. In either case a new location monument shall be erected, and the location certificate shall state if the whole or any part of the new location is located as abandoned property.

SECTION 12. This Act shall take effect and be in force from and after July 1st, 1895.
SECTION 13. All Acts and parts of Acts in conflict with this Act are hereby repealed.

The above diagram is to give the locator a general idea of plan of location under the new law. Your discovery shaft can be in the center of claim or any distance from either end you desire. In the diagram we have placed it 300 feet from one end and 100 feet from the other. In description be careful to state locality of claim with reference to some natural object, or permanent monument, as will identify the claim.

NOTICE OF MINING LOCATION.

Quartz Claim.

TO ALL WHOM IT MAY CONCERN:

This mining claim, the name of which is the TRAVIS Mining claim, situate on lands belonging to the United States of America, and which there are valuable mineral deposits, was entered upon and located for the purpose of exploration and purchase by Thomas E. Teegarden, the undersigned, on the first day of January 1900.

The length of this claim is Fifteen Hundred feet and I claim Seven hundred and fifty feet in an Easterly direction and Seven hundred & fifty feet in an Westerly direction from the center of the discovery shaft, at which this notice is posted, lengthwise on the claim, together with Three hundred feet in width of the surface grounds, on each side of the center of said claim. The general course of the lode deposit and premises is from the Easterly to the Westerly.

The claim is situated and located in the Amole Mining District, in Pima County, in the Territory of Arizona, The discovery shaft being about 2400 feet in a Northwesterly direction from the apex of Gold mountain and about 10500 feet in a westerly direction from the Bee Hive mountain, and when the surveys of the vacant lands of the U.S. are completed this claim will lie partly in the N.E. 1/4 of section 11, and partly in the N.W. 1/4 of sec. 12, Tp. 15 S; R. 12 E. Gila Salt River Meridian.

The surface boundaries of the claim are marked upon the ground as follows-:

- 2 -

Beginning at a monument of stone and stake, at a point in a westerly direction 750 feet from the discovery shaft, (at which this notice is posted) being in the center of the Westerly end line of said claim; thence North Westerly 300 feet to a monument of stone and post, being the North West Corner of said claim; thence Easterly 750 feet to a monument of stone & post at the center of the North side line of said claim; thence Easterly 750 feet to a mon. of stone & post being at the North east corner of said claim; thence Southeasterly 300 feet to a monument of stone& post at the center of the Easterly end of said claim; thence south easterly 300 feet to a mon. of stone & post, being at the South East corner of said claim; thence Westerly 750 feet to a mon. of stone & post, being at the South east corner of said claim; thence Westerly 750 feet to a mon. of stone& post, being at the center of the South side line of said claim; thence Westerly 750 feet to a monument of stone & post at the South West corner of said claim; thence North Westerly 300 feet to place of beginning.

The whole of the above described mining claim is located on abandoned property.

All done under the provisions of Chapter Six, of Title XXXII, of the Revised Statutes of the United States, and of an Act of the General Assembly of Arizona, entitled " An Act Concerning Mines", approved March 20th, 1895, also under the provisions of an Act of the General Assembly of Arizona entitled, " An Act Concerning Mines" approved March 2nd, 1899.
