Mineral Survey No. 1480

Lot No. Course to the Mexico side
to the Mountain

Land District.

FIELD NOTES

OF THE SURVEY OF THE MINING CLAIM OF

L. Fraissinet

KNOWN AS THE

Arizona and New Mexico sides
Copper Mountain Mining District,

Graham County, Arizona

Section ^{approx} Fractional, Township 4 South, Range 29 East

Surveyed under instructions dated June 9th, 1900,

by R. J. Young,
U. S. Deputy Mineral Surveyor.

Claim located..... 1

Survey commenced Sept: 24th, 1900

Survey completed Sept 28th, 1900

Address of claimant.

L. Fraissinet.

Clifton, Arizona.

PRELIMINARY OATHS OF ASSISTANTS IN SURVEY OF MINING CLAIM.

WE, Charles Arnett and Juan Martinez, do solemnly swear that we will well and faithfully execute the duties of chain carriers; that we will level the chain upon even and uneven ground and plumb the tally-pins, either by sticking or dropping the same; that we will report the true distance to all notable objects, and the true length of all lines that we assist in measuring, to the best of our skill and ability, and in accordance with instructions given us, in the survey of the Mining Claim of L. F. Prasson

known as the Arizona and New Mexico Lodes situate in 6th of per Mountain mining district, Graham County, Arizona in Section _____, Township No. 45, Range No. 29 East

Witness to mark
R. F. Young
Charles Arnett

Charles Arnett, Chainman.
Juan F. Martinez, Chainman.

Subscribed and sworn to by the above-named persons before me this 11th day of October, 1898

My Commission expires April 21st 1903.
Charles H. Beck
Notary Public.

I, _____, do solemnly swear that I will well and truly perform the duties of axeman, in the establishment of corners and other duties, according to instructions given me and to the best of my skill and ability, in the survey of the Mining Claim of _____

known as the _____, more fully described in the preceding affidavit.
_____, Axeman.

Subscribed and sworn to by the said _____ before me this _____ day of _____, 18 _____

I, _____, do solemnly swear that I will well and truly perform the duties of flagman, in the establishment of corners and other duties, according to instructions given me and to the best of my skill and ability, in the survey of the Mining Claim of _____

known as the _____, more fully described in the preceding affidavit.
_____, Flagman.

Subscribed and sworn to by the said _____ before me this _____ day of _____, 18 _____

 area - see attached sheet A
 Location.

The Arizona lode and the New Mexico
 lode are located, approximately in Tract
 Township 4 South, Range 29 East,
 Gila and Salt River Meridian, Copper
 Mountain Mining District, Graham
 County, Arizona.

Expenditure of Five Hundred Dollars
 I certify that the value of labor and im-
 provements upon the Arizona lode and the
 New Mexico lode, placed thereon by
 the claimant is not less than Five Hundred
 Dollars on each claim and that said
 improvements consist of

No. 1. Discovery ^{Arizona} tunnel, ^{No. 1} 5 ft wide 7 ft
 height on the Arizona, the mouth of
 which bears from Cor 1-1480
 S 49° 23' W - 344. ft running S 23° 30' W
 to ft. to breast.

This tunnel is intended for main
 adit and will tap shaft N° 2 at
 about 150. ft. depth.

	Value	\$ 320.00
Approach to tunnel - 15 ft long.		
No. 2. Shaft N° 2, on line between Arizona lode and New Mexico lode - 4-1-1480. 3-2-1480 - 32 ft deep 4 ft. by 6 ft. The center of which bears from Cor 4-1-1480 N 82° 34' W - 231. ft		80.00

N. Mex. No. 2

Credit 1/2 of shaft 16 ft to Arizona side \$128.00

Shaft No. 2, credit 1/2 to New Mexico side - 16 ft 128.00

Shaft No. 2, 20 ft. deep 4 ft. by 6 ft. New Mexico.
The center of which bears from Cor 4-1-1480 S 83° 46' W - 457. ft

Credit New Mexico side - value 160.00

No. 3 Open cut No. 3 surrounding shaft No. 2 - 30 ft. long 20 ft. wide 12 ft. high at face

Credit New Mexico. value 150.00

No. 4 Open cut No. 4 - 10 ft long 5 ft wide 5 ft high at front, the center of which bears from Cor 4-1-1480 S 89° 42' W - 468. ft

Credit New Mexico - value 50.00

No. 5 Open cut No. 5 - 10 ft. long - 5 ft. wide 4 ft. high at face, the center of which bears from Cor. 4-1-1480 - S 76° 21' W - 310 ft.

Credit New Mexico, value 45.00

No. 6 Discovery cut ^{No. 1} New Mexico 12 ft long - 5 ft. wide - 6 ft high at face the center of which bears from Cor. 4-1-1480 S 38° 24' W - 349. ft

value 100.00

I certify that while the mouth of discovery tunnel, Arizona side is 4 ft. in the Terramas side, survey No. 1229, it was with the full consent and knowledge of claimants of Terramas side and due to the fact that Cor No. 3-1229 Terramas side was never established, or if so it has been entirely obliterated, and the claimants of the said Terramas side being under the impression that Cor No. 3-1229 laid east about 300 ft and north about 150 ft. from present Cor No. 3-1229.

Therefore I considered that the Arizona side be credited with full amount

of Discovery Tunnel, as this tunnel is intended for Main adit and the claimant has the full consent and knowledge of the claimants of the Terramas Lode Survey No. 1229, to proceed with development of said tunnel.

The fact that Cor. No. 3-1229 having been entirely obliterated, if ever set, reconstituted the filing of an "amended location certificate", and an "additional and amended location certificate" of the Arizona lode.

The surface embraced by the Arizona & New Mexico lodes, is about 800 ft higher than Chasco Creek. North side line of the Arizona lode is very rough and broken. Cor 1 is about 250 lower than Cor-4-1 which is on apex of ridge, which follows the south side line of Arizona for about 1000 ft then turned, running direct for Cor 1 north a hole which is on the apex of said ridge, dividing the west fork of Chasco Creek and the north fork of Yankee Gulch.

Discovery Tunnel, which is on the north slope of ridge if continued in its present course will tap shaft No. 2, which is on the south slope, about 150 ft deep, said shaft being about 75 ft lower than apex of ridge in direct course of tunnel. - Adjoining claim

The Terramas Lode Survey No. 1229, is owned by The Arizona Copper Company of Clifton.

To the north of the Arizona lode and to the west of the Terramas lode the ground is owned by A. D. McLean of Metcalf.

The claimants, if any, to the west of the Arizona Side and the New Mexico sides, are unknown.

The Mohican, North Dakota La Maria, El Capitan, and Comeda Survey 1033A, are owned by the Detroit Copper Mining Company of Missouri.

The Emma and Mexican Sides Survey 78, on the east of Arizona and New Mexico sides, are owned by L. F. Fassett and others.

Judging from present developments and surface indications the ledges of both the Arizona and New Mexico sides, extends throughout the center of their respective claims.

In making this survey particular attention was paid to the East end line of the Arizona and New Mexico sides, being identical with a portion of the west end lines of Emma and Mexican sides, Survey 78, and I find the courses and distances herein stated to be correct.

Posts were set at the respective intersections of the Terramas Side Survey No. 229 and North Dakota sides (unsurveyed) by request of the claimants to avoid any further controversy as to the location of their respective lines and points of intersections.

Note - The disagreement between the field notes and the original location certificate of the Arizona Side, with respect to the course of side lines, is due to the fact

9

that the monuments were so placed that in producing the side lines I found a portion of the work was entirely outside of the boundaries of said claim, and as the ground to the north and south of said claim was vacant, July 3-1900, an amended location certificate was filed.

The disagreement between the amended location certificate and the "Further and Amended Location Certificate" is due to errors in the amended location certificate

caused by a misunderstanding as to the exact position of Cor 3-1229, said corner being entirely obliterated if not established.

Instrument

This survey was made with a C.L. Berger and Sons, Mining Transit. The courses were deflected from the true meridian, as determined by direct observation on the Polaris. The distances were measured with a 200-foot tape.

R. J. Young
 Minn. Deputy Mineral Surveyor

FINAL OATHS FOR SURVEYS.

LIST OF NAMES.

A list of the names of the individuals employed by R. J. Young
 United States Deputy Mineral Surveyor, to assist in running, measuring, and marking the lines
 corners and boundaries described in the foregoing field notes of the survey of the mining claim
 of L. Grassmet
 known as the Arizona and New Mexico Lodes
 and showing the respective capacities in which they acted.

FINAL OATH OF U. S. DEPUTY MINERAL SURVEYOR

I, R. J. Young, U. S. Deputy Mineral Surveyor, do solemnly swear that, in pursuance of instructions received from the United States Surveyor General for Arizona, dated June 9th 1900, I have, in strict conformity to the laws of the United States, the official regulations and instructions thereunder, and the instructions of said Surveyor General, faithfully and correctly executed the survey of the Mining Claim of L. F. Dawson, known as the Arizona and New Mexico Lode, situate in Copper Mountain Mining District, Graham County, Arizona, in Section _____, Township No. 4 S, Range No. 29 East and designated as Survey No. 1480, as represented in the foregoing field notes, which accurately show the boundaries of said mining claim as distinctly marked by monuments on the ground, and described in the attached copy of the location certificate, which was received by me from the Surveyor General with said instructions, and that all the corners of said survey have been established and perpetuated in strict accordance with the law, official regulations and instructions thereunder; and I do further solemnly swear that the foregoing are the true and original field notes of said survey and my report therein, and that the labor expended and improvements made upon said mining claim by claimant or _____ grantors are as therein fully stated, and that the character, extent, location and itemized value thereof are specified therein with particularity and full detail, and that no portion of said labor or improvements so credited to this claim has been included in the estimate of expenditures upon any other claim.

R. J. Young
U. S. Deputy Mineral Surveyor.

Subscribed and sworn to by the said R. J. Young
U. S. Deputy Mineral Surveyor, before me Charles H. Beck

LOCATION CERTIFICATE-LODE CLAIM.

16

Territory of Arizona |
 County of Graham, | SS:

KNOW ALL MEN BY THESE PRESENTS. That L.FRAISSINET, the undersigned, has this 21st day of July, 1897, located and claimed and by these presents does locate and claim by right of discovery and location in compliance with the mining acts of Congress approved May 10th 1872 and all subsequent acts and with local customs laws and regulations, 1500 linear feet and horizontal measurements of the Arizona Lode vein ledge or deposit along the vein thereof with all its dips angles variations as allowed by law, together with three hundred feet on the northerly side and three hundred feet on the southerly side of the middle of said vein at the surface, so far as can be determined from present developements, and all veins, lodes, ledges or deposits, and surface ground within the lines of said claim, thirteen hundred feet running westerly from center of discovery shaft and two hundred feet running easterly from center of discovery shaft. Said discovery

shaft

being situate upon said lode, vein ledge or deposit and within the lines of said claim in the Copper Mountain Mining District, County of Graham, Territory of Arizona, described by meets and bounds as follows to-wit:- Beginning at Corner No.1 being identical with the southwest corner of the Emilia patent: thence in a northwesterly direction along the westerly end line of the Emilia patent, 600 hundred feet to corner No.2, being identical with the northwest corner of the Emilia patent: thence in a westerly direction along the line paralell *to* ~~with~~ the south end line of the Terrassas Patent, 1500 feet to corner No.3; thence in a southwesterly direction 600 feet to corner No.4; thence in an easterly direction 1500 feet to Corner No.1, the place of beginning.
