Four hundred dollars of the improvements on the Columbia Lode, Survey No. 1491, is to be credited to each of the claims in this Survey, making a total of \$3600.00 to be so credited.

Note-

Surveys No. 1490, 1491 and 1492, form one group of contiguous mining claims. An application ^{was} ~~is~~ made for one survey of the entire group. The said survey was segregated and made into three for convenience. This group of mines is called the "Nautical Group", and is being worked by a system of mining for the development of the entire group from one main working shaft, ^{on the Columbia lode survey No. 1491.} from which levels are being run to develop the mining claims in the said group.

INSTRUMENT.

This Survey was made with a Gurley Solar Transit, The courses were deflected from the true meridian as determined by solar and polaris observation. The distances were measured with a 100-foot steel chain and a 50-foot steel tape.
