Mineral Survey No. 1508

Lot No. _____

Gila Land District.

FIELD NOTES

OF THE SURVEY OF THE MINING CLAIM OF

Copper Belle Mining Co.

KNOWN AS THE

Empire, Charleston & Durand
Lodis, Turquoise Mining District,

Cochise County, Arizona

Section _____ Township 19 S., Range 25 E unsurveyed

Surveyed under instructions dated Oct. 20, 1900

by John A. Rockefeller
U. S. Deputy Mineral Surveyor

Claim located May 5, 1898, ^{Feb. 14,} Mar. 2, 1899 & June 1st 1899

Survey commenced Oct. 20, 1900

Survey completed Oct. 22, 1900

6-100

Address of claimants
John Gussow Supt.
Pearce
Cochise Co.
Ariz.

PRELIMINARY OATHS OF ASSISTANTS IN ² SURVEY OF MINING CLAIM.

We, M. O'Connell and M. H. O'Connor,
do solemnly swear that we will well and faithfully execute the duties of chain carriers;
that we will level the chain upon even and uneven ground and plumb the tally-pins,
either by sticking or dropping the same; that we will report the true distance to all
notable objects, and the true length of all lines that we assist in measuring, to the best
of our skill and ability, and in accordance with instructions given us, in the survey of
the Mining Claim of The Copper Rule Mining
Company, known as the
Empire, Charleston Durand
situate in Triguise mining district,
Cochise County, Arizona Territory
in Section , Township No. , Range No. Unsurveyed

M. O'Connell, Chainman.
M. H. O'Connor, Chainman.

Subscribed and sworn to by the above-named persons before
me this 20th day of October, 18 1900

John A. R. [Signature]
Notary Public
My Commission expires Apr. 10 1903

I, , do solemnly swear that I will well and
truly perform the duties of axeman, in the establishment of corners and other duties,
according to instructions given me and to the best of my skill and ability, in the survey
of the Mining Claim of

known as the ,
more fully described in the preceding affidavit.

 , Axeman.

Subscribed and sworn to by the said
 before me this day of
 , 18 .

I, , do solemnly swear that I will
well and truly perform the duties of flagman, in the establishment of corners and other
duties, according to instructions given me and to the best of my skill and ability, in the
survey of the Mining Claim of

known as the ,
more fully described in the preceding affidavit.

 , Flagman.

Subscribed and sworn to by the said
 before me this day of

Locations

This claim is located in Turquoise Mining District, Cochise County, Arizona, in the S.W. portion of Twp 19 South Range 25 E. unsurveyed.

It is joined on the North by the Mono claim (patented) owners unknown, on the East by the San Juan, Maxon and Gleeson claims owned by the Turquoise Mining Company on the and S. and W. by the Chance, Kelly, Dandy, Elizabeth and Copper Belle claims owned by Copper Belle Mining Company. On the Empire the ledge extends throughout center the claim S. 42°-49' E X 1020 ft

On the Charleston the course of ledge is S 31°-32' E 800 or more feet and N 31°-32' W 610 ft from monument at discovery shaft.

From the N. center end of Durand the ledge extends S 13°-15' E about 100 ft and is presumed to continue same course throughout the claim 1500 ft.

X Expenditure of five hundred dollars.

I certify that the value of labor and improvements upon this claim placed thereon by the claimants and their grantors is not less than fifteen hundred dollars and that said improvements consist of :

Empire

- 1 The discovery shaft of the Empire which bears from N center end S 53°-30' E 49 ft 6 X 5 ft 6 ft deep
value \$ 40.
- 2 A shaft which brs from same point S. 48° W 44 ft, 6 X 5 10ft deep
value \$100.
- 3 A shaft which brs from same point S 38°-30' E 100 ft
C X 4 ft 35 ft deep
value \$300.
- 4 A shaft which brs from S. center end N. 55°-26' W 114 ft
C X 5 ft 35 ft deep
value \$350.
- 5 Center of irregular work which brs S 70°-40' W 75ft from same point
value \$100.

~~A shaft which brs from same point S 54° E 109 ft~~

~~on the Charleston~~

FINAL OATHS FOR SURVEYS.

LIST OF NAMES.

A list of the names of the individuals employed by J. A. Rockefeller
 United States Deputy Mineral Surveyor, to assist in running, measuring, and marking the lines
 corners and boundaries described in the foregoing field notes of the survey of the mining claim
 of the Copper Bee Mining Company
 known as the Empire Charlestown Durand
 and showing the respective capacities in which they acted.

M. O'Connell, Chairman.
M. H. O'Connor, Chairman.

FINAL OATH OF U. S. DEPUTY MINERAL SURVEYOR

I, John A. Rockefeller, U. S. Deputy Mineral Surveyor, do solemnly swear that, in pursuance of instructions received from the United States Surveyor General for Arizona, dated Oct 20 1900, I have, in strict conformity to the laws of the United States, the official regulations and instructions thereunder, and the instructions of said Surveyor General, faithfully and correctly executed the survey of the Mining Claim of Copper Belle Mining Co, known as the Empire, Charleston & Durand, situate in Turquoise Mining District, Cochise County, Arizona, in Section , Township No. 19 S, Range No. 25 E Unsurveyed and designated as Survey No. 1508, as represented in the foregoing field notes, which accurately show the boundaries of said mining claim as distinctly marked by monuments on the ground, and described in the attached copy of the location certificate, which was received by me from the Surveyor General with said instructions, and that all the corners of said survey have been established and perpetuated in strict accordance with the law, official regulations and instructions thereunder; and I do further solemnly swear that the foregoing are the true and original field notes of said survey and my report therein, and that the labor expended and improvements made upon said mining claim by claimant or their grantors are as therein fully stated, and that the character, extent, location and itemized value thereof are specified therein with particularity and full detail, and that no portion of said labor or improvements so credited to this claim has been included in the estimate of expenditures upon any other claim.

John A. Rockefeller
U. S. Deputy Mineral Surveyor.

NOTICE OF LOCATION.

The undersigned under the several acts of Congress of the United States pertaining to the mineral development of the mineral lands of the U.S. do hereby locate and claim 1350 feet in length with 500 feet in width on this ledge, lode vein or deposit of mineral bearing rock in place. Commencing at this initial monument of stones erected at the west end center and running 500 ft. Northerly to a monument of stones being the north west corner, thence 1350 ft. in a easterly direction to a monument of stones being the North East Cor. thence 500 ft. Southerly to a monument of stones being the East end center thence 500 ft. Southerly to a monument of stones being the South East Cor. Thence 1350 ft. westerly to a monument of stones being the South west Cor. Thence 500 ft. Northerly to the place of beginning. This is bounded in the west by the Mono Mine and in the East by the Charleston and shall be known as the Empire Mine. It is situated in the Torquose Mining District, County of Coconino and Territory of Arizona.

Dated on the ground this 14th day of February A.D. 1899.

Notice of Mining Location.

QUARTZ CLAIM.

To All Whom It May Concern:

This mining claim, the name of which is the Durand Mining Claim, situate on lands belonging to the United States of America, and in which there are valuable mineral deposits, was entered upon and located for the purpose of exploration and purchase by John Gleeson and Herman Durand

the undersigned, on the sixth day of June 1899

The length of this claim is two thousand feet, and we claim one hundred feet in a northerly direction and fourteen hundred feet in a southerly direction from the center of the discovery shaft, at which this notice is posted, lengthwise of the claim, together with three hundred feet in width of the surface grounds, on each side of the center of said claim. The general course of the lode deposit and premises is from the northerly to the southerly

The claim is situated and located in the Turquoise Mining District, in Cocouise County, in the Territory of Arizona, about Half Mile in a southerly direction from Mono mining claim

The surface boundaries of the claim are marked upon the ground as follows: Beginning at a point in a northerly direction one hundred feet from the discovery shaft (at which this notice is posted), being in the center of the North end line of said claim; thence three hundred feet to a monument of stones, being the N.E. corner of said claim; thence seven hundred fifty feet to a monument of stone at the center of the East side line of said claim; thence seven hundred fifty feet to a monument of stones being at the S.E. corner of said claim; thence three hundred feet to a monument of stone at the center of the South end of said claim; thence three hundred feet to a monument of stone, being at the South West corner of said claim; thence seven hundred fifty feet to a monument stone being at the center of the West side line of said claim; thence seven hundred fifty feet to a monument stone at the North W. corner of said claim; thence three hundred feet to the place of beginning.

All done under the provisions of Chapter Six of Title XXXII, of the Revised Statues of the United States, and of an Act of the General Assembly of Arizona, entitled "An Act Concerning Mines," approved March 20th, 1895.

Dated and posted on the ground this 6th day of June 1899

An Act Concerning Mines.

Be it Enacted by the Legislative Assembly of the Territory of Arizona:

SECTION 1. Every notice of location of a mining claim shall contain: First, the name of the claim located; second, the name of the locator; third, the date of location; fourth, the number of feet in length of said claim and the number of feet claimed on each side of the center of the discovery shaft, lengthwise of the claim; fifth, the general course of the lode deposit or premises located; sixth, the locality of the claim with reference to some natural object, or permanent monument, as will identify the claim.

SECTION 2. All mining locations hereafter located, the certificate of location of which shall not contain: First, the name of the lode or premises; second, the name of the locator or locators; third, the date of location; fourth, the number of feet in length of said claim and the number of feet claimed on each side of the center of the discovery shaft, lengthwise of the claim; fifth, the general course of the lode or premises, as near as may be; sixth, the locality of the claim with reference to some natural object, or permanent monument, as will identify the claim, shall be void.

SECTION 3. Before filing such location certificate with the County Recorder of the proper County, the discoverer shall locate his claim by: First, sinking a discovery shaft upon the premises so claimed, to a depth of at least ten feet from the lowest part of the rim of such shaft at the surface and deeper if necessary, until there is shown by such work a lode deposit of mineral in place; second, by posting at the point of discovery, on the surface, a plain sign or notice substantially conforming to the location certificate; third, by marking such claim or premises on the ground so that its boundaries can be readily traced.

SECTION 4. Such surface boundaries shall be marked by **Eight substantial Posts projecting at least Three Feet Above the Surface of the Ground**, or by substantial **Stone Monuments at least Three Feet High**, to wit: One at each corner of said claim, and one at the center of each end and side line thereof.

SECTION 5. Any open-cut, cross-cut, adit or tunnel which shall be made as above provided for, as a part of the location of a mining claim, and which shall be equal in amount of work to a shaft ten feet deep and four feet wide by six feet long, and which shall cut a lode or mineral in place at the depth of ten feet from the surface, shall be equivalent, as a discovery work, to a shaft sunk from the surface.

SECTION 6. The discoverer shall have ninety days from the date of discovering the lode and the posting of the notice thereon, to perform said discovery work thereon.

SECTION 7. If at any time the locator of any mining claim heretofore or hereafter located, or his assigns, shall learn that his original certificate was defective, or that the requirements of the law had not been complied with before filing, or shall be desirous of changing his surface boundaries, or of taking in any additional ground which is subject to location, or in case the original certificate was made prior to the passage of this law, and he shall be desirous of securing the benefits of this Act, such locator or his assigns, may file an amended certificate of location subject to the provisions of this Act, regarding the making of new locations.

SECTION 8. The amount of assessment, or representation, work or improvements to be done or made during each year, after the completion of the location as heretofore provided, and the time for doing the same, shall be as provided by the laws of the United States.

SECTION 9. Within three months after the expiration of the period of time fixed for the performance of annual labor or the making of improvements upon any mining claims or premises, the person on whose behalf such work or improvement was made, or some person for him, knowing the facts, may make and record in the office of the County Recorder of the county wherein such claim is situated an affidavit in substance as follows:

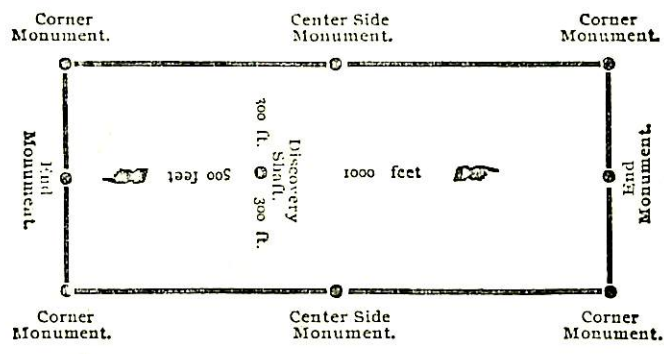

TERRITORY OF ARIZONA, }
 County, } ss
 and more than 21 years of age, and resides at County, Arizona Territory, and is personally acquainted with the mining claim and premises located and known as Mining District, County of Arizona Territory, the notice of location of which premises is recorded in the office of the County Recorder of said county, in Book of Records of Mines, at page; that between the day of A. D. 189..... and the day of A. D. 189..... at least dollars worth of work and improvements were done and performed upon said premises or lode, not including the location work of said claim. Such work and improvements were made by and at the expense of owners of said premises for the purpose of complying with the law of the United States pertaining to assessments or annual work, and (here name the miners or men who worked upon the claim in doing the work) were the men employed by said owner and who labored upon said premises and who did said work and improvements, and said work so done upon said premises is described as follows, to-wit: (Here describe the work done.)
 (Signature)
 Subscribed and sworn to before me this day of 189.....
 Notary Public.

SECTION 10. Such affidavit when so recorded shall be prima facie evidence of the performance of such labor or the making of such improvements, and said original affidavit after it has been recorded, or a certified copy of record of same, shall be received as evidence accordingly by all the Courts of this Territory.

SECTION 11. The relocation of forfeited or abandoned lode claims shall only be made by sinking a new discovery shaft and fixing new boundaries in the same manner and to same extent as is required in making a new location; or the relocater may sink the original discovery shaft ten feet deeper than it was at date of commencement of such relocation, and shall erect new or make the old monuments the same as originally required. In either case a new location monument shall be erected, and the location certificate shall state if the whole or any part of the new location is located as abandoned property.

SECTION 12. This Act shall take effect and be in force from and after July 1st. 1895.

SECTION 13. All Acts and parts of Acts in conflict with this Act are hereby repealed.

The above diagram is to give the locator a general idea of plan of location under the new law. Your discovery shaft can be in the center of claim or any distance from from either end you desire. In the diagram we have placed it 500 feet from one end and 1000 feet from the other. In description be careful to state locality of claim with reference to some natural object, or permanent monument, as will identify the claim.
