The surface embraced by the Copper bluff, Chamber, Copper Cross, Copper Prince and Truckee sides, is extremely rough and broken, portions of the

surface being inaccessible.

bar. N<sup>o</sup> 1 of the Copper bluff is at the side of Chase Creek and about 10. ft above the bed of the creek. From bar. N<sup>o</sup> 1 to bar. N<sup>o</sup> 2, of the Copper bluff. The surface is very rough, ascending 745. ft to apex of ridge at bar N<sup>o</sup> 2. From bar. N<sup>o</sup> 2 to bar. N<sup>o</sup> 3-2, the surface descends about 200. ft. following the side of the hill.

From bar. N<sup>o</sup> 3-2 to bar N<sup>o</sup> 4-1, the surface is very rough and broken, being one mass of small bluffs from Chase Creek to apex of ridge.

bar. N<sup>o</sup> 4-1 is about 10. ft. higher than bed of Chase Creek and at the base of a 75. ft bluff.

From bar. 4-1 to bar N<sup>o</sup> 1, the end line passes over a 75. ft bluff and a 125. ft bluff.

From bar N<sup>o</sup> 1 Copper Cross to bar. N<sup>o</sup> 2, the surface descends about 125 ft.

From bar. N<sup>o</sup> 2 to bottom of north fork of Yankee Gulch, the surface descends about 200. ft., then ascends quite rapidly to bar N<sup>o</sup> 3 which is on the apex of ridge, 450 ft. higher than bottom of Yankee Gulch. From bar N<sup>o</sup> 3, surface descends very rapidly for 400. ft. to bar. N<sup>o</sup> 4, which is about 50. ft above bottom of Gulch.

From bar. N<sup>o</sup> 4 to hamlet, the surface ascends very rapidly to S.E. corner of side line, being 600. ft. above Chase Creek, then descends to bottom of north fork of Yankee Gulch. bar N<sup>o</sup> 1 Copper Cross is about 75. ft higher than bed of Chase Creek. Following the course of side line, the surface descends to bottom of draw

about 50. ft lower than bar N<sup>o</sup> 1,  
From bottom of draw to bar N<sup>o</sup> 2  
the surface is very rough & broken,  
ascending about 400. ft

From bar N<sup>o</sup> 2 to bar N<sup>o</sup> 3 the  
surface ascends very rapidly, and is  
very broken, the end line crossing  
over several bluffs, one being 150. ft  
vertical.

Bar N<sup>o</sup> 3 is about 400 ft. higher than  
bar N<sup>o</sup> 2.

From bar N<sup>o</sup> 3 to bar N<sup>o</sup> 4 surface  
descends quite rapidly, bar N<sup>o</sup> 4  
being about the same level as bar  
N<sup>o</sup> 1.

Bar N<sup>o</sup> 4 of the Truckee is on the  
apex of ridge & about 625. ft. above  
Chamber Creek.

Judging from present developments and  
surface indications the ledges of the Copper  
bluff, Chamber, Copper Cross, Copper  
Purcell and Truckee, extend throughout  
the center of their respective claims.  
On Copper Cross ledge N. 29° 01' W. 1500 ft. from Cor. No 5.

In making this survey particular  
attention was paid to the north east end  
lines of the Copper bluff and Chamber,  
and the distances to the U. S. L. M. N<sup>o</sup> 3,  
and I find the distances and courses  
herein stated to be correct.

### Instrument.

This survey was made with a C. L.  
Berger and Sons Mining Transit.

The courses were deflected from the  
true meridian by direct observation  
on the Polaris.

The distances were measured with  
a 200. ft. steel tape.

FINAL OATH OF U. S. DEPUTY MINERAL SURVEYOR

I, R. J. Young, U. S. Deputy Mineral Surveyor, do solemnly swear that, in pursuance of instructions received from the United States Surveyor General for Arizona, dated Dec. 14<sup>th</sup> 1900, I have, in strict conformity to the laws of the United States, the official regulations and instructions thereunder, and the instructions of said Surveyor General, faithfully and correctly executed the survey of the Mining Claim of Julius Leszynsky, by H. D. Underwood, atty. in fact., known as the Copper Bluff, Chabonre, Copper Cross, Copper Crucel and Tribut situate in Copper Mountain and Greener Gold Mountain Mining District, Graham County, Arizona, in Section approximately 4 South, Township No. 4 South, Range No. 29 East, and designated as Survey No. 1512, as represented in the foregoing field notes, which accurately show the boundaries of said mining claim as distinctly marked by monuments on the ground, and described in the attached copy of the location certificate, which was received by me from the Surveyor General with said instructions, and that all the corners of said survey have been established and perpetuated in strict accordance with the law, official regulations and instructions thereunder; and I do further solemnly swear that the foregoing are the true and original field notes of said survey and my report therein, and that the labor expended and improvements made upon said mining claim by claimant or grantors are as therein fully stated, and that the character, extent, location and itemized value thereof are specified therein with particularity and full detail, and that no portion of said labor or improvements so credited to this claim has been included in the estimate of expenditures upon any other claim.
