### INSTRUMENT.

This survey was made with a Gurley Solar Transit. The courses were deflected from the true meridian as determined by solar observations. The distances were measured with a 100 ft. steel chain.

The disagreements between the field notes and the location certificates is owing to errors in the latter.

This diagram is to give locator a general idea of plan of location under the new law. The Discovery Shaft can be in the center of claim or any distance from either end desired. In the diagram it is placed 500 feet from one end and 1000 feet from the other. Commence description of claim at a center end monument, giving its distance and direction from center of Discovery Shaft; thence bound the claim in either direction. In description be careful to state locality of claim with reference to some natural object, or permanent monument, as will identify the claim.

"THOMAS FRACTION."

NOTICE OF MINING LOCATION. Lode Claim.

To all whom it may concern:

This Mining Claim, the name of which is the "Thomas Fraction" Mining Claim, situate on lands belonging to the United States of America, and in which there are valuable mineral deposits, was entered upon and located for the purpose of exploration and purchase by D. Moynahan, a citizen of the United States, the undersigned, on the 29" day of January, 1901.

The length of this claim is Fifteen Hundred(1500) feet, and I claim 500 feet in a northerly direction and 1,000 feet in a Southerly direction from the center of the discovery shaft, at which this notice is posted, lengthwise of the claim, together with three hundred (300) feet in width of the surface grounds, on each side of the center of said claim. The general course of the lode deposit and premises is from the Northerly to the Southerly.

The claim is situated and located in the Hassayampa Mining District, in Yavapai County, in the Territory of Arizona, about eight miles in a Southerly direction from Prescott and embraces all the ground between the Nil Desperandum Snipe Alex Thomson and Newark.

The surface boundaries of the claim are marked upon the ground as follows: Beginnying at a monument of stones at a point in a Northerly direction 500 feet from the discovery shaft(at which this notice is posted), being in the center of the North end line of said claim; thence Easterly 300 feet to a monument of stones being the Northeast corner of said claim; thence Southerly 750 feet to a monument at the center of the East side line of said claim; thence Southerly 750 feet to a monument of stones being at the South East corner of said claim; thence Westerly 300 feet to a monument of stones at the center of the South end of said claim; thence Westerly 300 feet to a monument of stones, being at the South West corner of said claim; thence northerly 750 feet to a monument of stones being at the center of the West side line of said claim; thence Northerly 750 feet to a monument of stone at the Northwest corner of said claim; thence Easterly 300 feet to the place of beginning.

All done under the provisions of Chapter Six, of Title XXXII, of the Revised Statutes of the United States, and of an Act of the General Assembly of Arizona, entitled "An Act Concerning Mines", approved March 20th, 1895, and amended March 2d, 1899.

Dated and posted on the ground this 29 day of January 1901.

I,P.J.FARLEY, County Recorder in and for Yavapai County, Arizona Territory, and custodian of the records thereof, do hereby certify that I have compared the above and foregoing with and the same is a full, true and correct copy of the Notice of Location of the "Thomas Fraction" Mining Claim, as the same appears of record in Book 57 of Mines, page 202, records of Yavapai County, Arizona.

In Witness Whereof, I have hereunto set my hand and affixed my Official Seal, this 26th day of March, 1901.

PRESCOTT, ARIZONA, Nov. 6th. 1902.

U. S. Surveyor General,

Phoenix Arizona.

Sir: -

I received your letter of Oct, 31st. in reference to a discrepancy between Mr. Mader's sur. #1636 and my sur. #1549.

I make a practice of filing away all my notes and computations and I imediately looked up this matterand found that my assistant in transcribing my notes and computing course and distance of a traverse line run from cor. secs. 25. 26. 35 & 36 T. 13 N. R. 2 W.to cor. No. 1, Alex Thompson ,Sur. #1549, read a course N. 54° 28' E. 86ft. whereas in my notes it is N. 54° 28' E. 886 ft.

I went out and run the traverse line again on Nov. 3rd,.o2. making it practically the same.

The true course and distance from cor. No.1, of each of the claims in Sur. #1549 to sec. cor. 25.26.35&36 T.13N. R.2.W. is:-

Alex Thompson lode S. 75° 20' W. 5809ft.

Home Run lode S. 73° 20' W. 5168.9 ft.

Grand View lode S. 73° 11' W. 5126.8 ft.

Schwartzman lode S. 76° 2' W. 6073.9 ft.

Contest & Dora lodes S. 75° 39' W. 4507 ft.

Nil Desperandum lode S. 88°23' W. 4456.9 ft.

Thomas lode S. 88° 42' W. 5078.4 ft.

U.S. Dep. Min. Surveyor.

Subscribed and sworn to before me this day of 1902

My commission expires-July 7, 1903.

Dir;

The Country is very vough and mondaneous Covered with brush and Trinter believe Survey #1549 and The See, car, I sie's 25.26.35 r 36 T134 R2 In running my troverse him on no 30%/02 I tied to Car. 1403,-1636. Z. G. and made the Course and distance from laid corner 5 80° 7'W 2796.73 to see, comer, Which checks very closely with Mindeed Survey. I have no excuse to offer for the mistake in courses and distances of sur, 41549, except that my assistant made the mestake I 800 feel in our course and I failed to discover it. I always examine his work beet it is not long to always discover mistakes.
