Note. These claims are situated at the base of the Mule Pass Mountains, on what is practically level ground. Shaft No. 3 on the Fredericksberg tends directly for the development of the Skukum, being not over 75 ft. from the S. side line of that claim, both said Shaft No. 3 and Shaft No. 3 on the Alexander claim tend to develop the adjoining claims on W. and S. owned by applicant herein; experience in this district has proven that mineral bearing veins do not exist on the surface, but that the ore is invariably found in deposits of varying dimensions,

the only practical and economical method of exploration and production has been found to be from centrally located shafts--from these drifts and cross-cuts are run, often thousands of feet in length in the older mines in the vicinity, and when an ore body is struck, they are removed generally from 1 shaft at which all hoisting machinery is installed. The sinking and drifting from these shafts No. 3 follows from what has been proven to be the only practical method of development, not only of the claims upon which they are located but also of the adjoining ground. Numerous companies could be cited, but a single instance is that of the Lake Superior & Pittsburg, whose main shaft is on this side of the hill on the Uncle Sam, Survey No. 1394 and not over 1000 ft. distant; this shaft is the point from which over 30 claims are being developed.

Notice of Mining Location.

LODE CLAIM.

To All Whom It May Concern:

This mining claim, the name of which is the Alexander Mining Claim, situate on lands belonging to the United States of America, and in which there are valuable mineral deposits, was entered upon and located for the purpose of exploration and purchase by Fred Hedberg & Alex. Lutcavich

the undersigned, on the 10th day of June 1901

The length of this claim is 1500 feet, and we claim 348 feet

in a N Easterly direction, and 1160 feet in a S Westerly direction from

the center of the discovery shaft, at which this notice is posted, lengthwise of the claim, together with 300 feet in width of the surface grounds, on each

side of the center of said claim. The general course of the lode deposit and premises is from the NE to the SW

The claim is situated and located in the Warren Mining District, in Cochise County, in the Territory of Arizona, about 1/2 miles

in a Southerly direction from Bigbee & is bordered on the East by the Irish Lode

The surface boundaries of the claim are marked upon the ground as follows: Beginning at a pipe post 4 ft long & 4 in sq set in a mound of stones

at a point in a N Easterly direction 370 feet from the discovery shaft (at which this notice is posted), being in the center of the

end line of said claim; thence N Westerly 300 feet to a monument & post, being the NE corner of said claim; thence

S Westerly 750 feet to a monument of stones at the center of the North side line of said claim; thence same course 1500

feet to a monument & post being at the N West corner of said claim; thence Southerly 300 feet to a monument & post

at the center of the West end of said claim; thence same bearing 600 feet to a monument & post, being at the S West

corner of said claim; thence N Easterly 700 feet to a monument of stones being at the center of the South side line of said claim;

thence same bearing 1500 feet to a monument & post at the S East corner of said claim; thence N Westerly 370

feet to the place of beginning.

All done under the provisions of Chapter Six, of Title XXXII, of the Revised Statutes of the United States, and of an Act of the General Assembly of Arizona, entitled "An Act Concerning Mines," approved March 20th, 1895, and amended March 2d, 1899.
