### Instrument

This survey was made with a  
Gurley fifth mountain transit,  
fitted with a Burt's solar attachment.  
The courses were deflected from  
the true meridian as determined by  
solar observations. The distances were

Measured with 50 ft. and 500 ft.  
steel tapes.

Note,

The measurements between the field  
notes and the location certificates  
with regard to the position of  
the discovery point and the  
course of the boundary lines,  
also the length of the boundary  
lines, are due to errors in the  
latter.

Note

The ledge upon which the claim  
is located lies in the center of  
the claim as surveyed and  
equals in in length.
