This diagram is to give locator a general idea of plan of location under the new law. The Discovery Shaft can be in the center of claim or any distance from either end desired. In the diagram it is placed 500 feet from one end and 1000 feet from the other. Commence description of claim at a center end monument, giving its distance and direction from center of Discovery Shaft; thence bound the claim in either direction. In description be careful to state locality of claim with reference to some natural object, or permanent monument, as will identify the claim.

Not Enacted by the Legislative Assembly of the Territory of Arizona.
Section 1. Every notice of location of a mining claim shall contain: first, the name of the locator; second, the date of the location; third, the number of feet in length of said claim and the number of feet in width of the claim; fourth, the general course of the claim; fifth, the general course of the ledge deposit or premises located; sixth, the locality of the claim with reference to some natural object, or permanent monument, as will identify the claim.
Section 2. A mining location hereafter located, the certificate of location of which shall not contain: first, the name of the locator, or premises, as near as may be; sixth, the locality of the claim with reference to some natural object, or permanent monument, as will identify the claim.
Section 3. Before filing such location certificate with the County Recorder of the proper County, the discoverer shall locate his claim by: first, sinking a discovery shaft upon a ledge of at least ten feet from the lowest part of the rim of such shaft at the surface, and deeper if necessary, until there is shown certificate; third, by marking such claim or premises on the ground, so that its boundaries can be readily traced.
Section 4. Such surface boundaries shall be marked by **EIGHT** substantial **THREE FEET HIGH** posts, projecting at least **THREE FEET ABOVE THE SURFACE OF THE GROUND**, or by substantial **STONE MONUMENTS**, at least **THREE FEET HIGH**, to-wit: One at each corner of said claim, and one at the center of each end and along the line thereof.
Section 5. Any discoverer shall have ninety days from the date of discovering the ledge and the posting of the notice thereon, to perform said discovery work thereon. If at any time the locator of any mining claim herebefore or hereafter located, or his assigns, shall learn that his original certificate was defective, or that the requirements of the law had not been complied with before filing, or shall be desirous of changing his surface boundaries, or of taking in any additional ground which is subject to location, or in case the original certificate was made prior to the passage of this act, and he shall be desirous of securing the benefits of this act, such locator or his assigns, may file an amended certificate of location subject to the provisions of this act, regarding the making of new locations.
Section 6. The amount of assessments, or royalties, or other payments to be made or made during each year, after the completion of the location as heretofore provided, and the time for doing the same, shall be as provided by the laws of the United States.
Section 7. Within three months after the expiration of the period of time fixed for the performance of annual labor or the making of improvements upon any mining claim or premises, the person on whose behalf such work or improvement was made, or some person for him, knowing the facts, may make and record in the office of the County Recorder of the county wherein such claim is situated an affidavit in substance as follows:
TERRITORY OF ARIZONA, }

Being duly sworn deposes and says, that he is a citizen of the United States, and more than 21 years of age, and resides at _____ in _____ County, Arizona Territory, and is personally acquainted with the mining claim and premises located and known as _____ mining claim or ledge, situated in _____ Mining District, County of _____ of Records of Mines, at _____ Arizona Territory, the notice of location of which premises is recorded in the office of the County Recorder of said county, in Book _____ of Records of Mines, at page _____, that the same were made by and at the expense of _____ owners of said premises for the purpose of complying with the laws of the United States pertaining to assessments or royalties or other payments to be made or made during each year, after the completion of the location as heretofore provided, and that the time for doing the same, shall be as provided by the laws of the United States.
Section 8. In either case a new location, monument, shall be received, and the location certificate shall state if the new location is located as mentioned property.
Section 9. This Act shall take effect and be in force from and after July 1st, 1898.
Section 10. All Acts and parts of Acts in conflict with this Act are hereby repealed.
Section 11. The location of forfeited or abandoned lode claims shall only be made by sinking a new discovery shaft and fixing new boundaries in the same manner and to same extent as is required in making a new location, or the locator may sink the original discovery shaft to a greater depth than it was at date of commencement of such location, and shall receive the same as if originally required.
Section 12. This Act shall take effect and be in force from and after July 1st, 1898.
