LOCATION.

This claim is located in West Huachuca Mining district, Cochise County, Arizona, in approximately Tp 23 S, R 19 E, G & S R Meridian, (unsurveyed).

The ledge runs through the center of the three lode claims generally parallel to the side lines and presumably the entire length of each claim: viz, N30°30'E.1500 ft. from S.E.C.

Adjoining claims are: on the north, east and south unclaimed; on the west the Treasure lode, E. W. Clark claimant, the Controller lode A. T. Gattrell claimant; lode claims formerly known as the Propeller and Puzzler, claimants unknown.

Expenditure of \$500.

The Arizona statutes the rulings of courts and the custom of miners all regard as one hundred dollars worth, a shaft ten feet deep 6x4 ft.; or an open cut equivalent, having a perpendicular face of ten feet.

I certify that the labor and improvements upon this claim, placed thereon by the claimant and his grantors are of *for each claim.*

~~value~~ not less than *five* hundred dollars, and that said improvements consist of:

On the Mendota lode,

- 1) Discovery cut and tunnel, the mouth of which bears from

the N. Center End S 30° 30' W, 183.0 ft., course of cut N N E, 25 ft., thence tunnel N 32° E on main ledge 67 ft., also from same point a tunnel on cross lode, course N 45° W, 55 ft. Tunnels both 6½ X 4½ ft.

Cut partly old work.

Value new work on cut..... \$ 36.00

Value tunnels... 112 ft. @ \$12.00..... 1344.00

1380.00

The mountain rises very abruptly from this tunnel for about 1300 ft., then after a moderate depression continues to rise to the north end of the Silver King lode. Hence work at this point is below any other workings on the Mendota, Smuggler and Silver King ledge and tends to develop the entire ledge, it being the most feasible point to establish permanent working plant from which to extract the ore from these three lode claims, I assign the last 40 ft. of this tunnel on main ledge to Silver King lode, 40 ft @ \$12.00

Value.....\$480.00.

On the Smuggler Lode.

1) Discovery cut, the mouth of which bears from S. Center End N 30° 30' E, 730.0 ft. course of cut north, cut 16 X 4½ ft., 12 ft. face.

Value.....\$100.00

2) Work in old tunnel "No.5", the mouth of which bears from S. Center End, N 30° 45' E, 285 ft. course of tunnel approximately N 31° E. Tunnel 6½ X 4½ ft., length of tunnel more than 700 ft., the last 41½ ft. of which done by claimant.

41½ ft @ \$15 = 622.50
Value.....\$620.00.

Also stoping and timbering (see affidavit of Supt. Hockley)

Value.....\$500.00

Air pipe and track, value.....\$300.00

On the Silver King.

1) Discovery cut, the S. E. corner (at face) of which bears from S. Center End N 30° 30' E., 65 ft. course of cut south, cut 22 X 4½ ft., 12 ft. face.

Value.....\$100.00

2) A cut , the mouth of which bears from a point on line 1 -2, N 30° 30' E, 1165.5 ft. from Cor. No. 1, S 83° 10' E, 159 ft., course of cut N. E., Cut 18 X 4 ft., 11 ft. face.

Value.....\$100.00.
Credit from Mendota.....\$480.00.

Other Improvements.

00 ~~100~~ Smuggler lode: 2 1/2

00 ~~100~~

1) Old "No.5" tunnel, the mouth of which bears from S. Center End N 30° 45' E, 286 ft.

2) Old "No. 4" tunnel, the mouth of which bears from S. Center End, N 28° 35' E, 726 ft.

NOTE: The numbers used are those applied to the mine when worked as the Copper Glance. I failed to locate any "No.3" tunnel.

3) Old "No. 2" tunnel the mouth of which bears from S. Center End N 30° 10' E, 908 ft.

4) Old "No. 1" tunnel, the mouth of which bears from S. Center End, N 30° 40' E, 1023.5 ft.

5) A shaft and old work which bears from N. Center End S 28° 12' W, 324 ft.

6) A cut which bears from N. Center End S 52° 20' W, 240 ft.

All work under the head of "Other Improvements" performed before present locations were made.

Instrument.

This survey was made with a Young & Sons mountain transit No. 6855, provided with a Smith solar attachment. The courses were deflected from true meridians as determined by direct solar observations. The distances were measured with 100 ft. and 500 ft. steel tapes.

EXPENDITURE OF FIVE HUNDRED DOLLARS

The Arizona Statutes, the rulings of courts and the custom of miners all regard as one hundred dollars worth, a shaft ten feet deep 6x4 ft., or an open cut equivalent, having a perpendicular face of ten feet.

I certify that the labor and improvements upon this claim placed thereon by the claimant and his grantors are of not less than Five Hundred Dollars for each claim, and that said improvements consist of:

On the Mendota Lode:

1. Discovery cut and tunnel, the mouth of which bears from the N. Cen. End S 30° 30' W., 183.0 ft., course of cut N N E, 25 ft., thence tunnel N 32° E on main ledge 67 ft., also from same point a tunnel on cross lode, course N 45° W 55 ft. Tunnels both 6½ x 4½ ft.

Cut partly old work.

Value new work in cut	\$ 36.00
Value tunnels 112 ft. at \$12.00	<u>1344.00</u>
	\$1380.00

The mountain rises very abruptly from this tunnel for about 1300 ft., then after a moderate depression continues to rise to the north end of the Silver King lode. Hence work at this point is below any other workings on the Mendota, Smuggler and Silver King ledge and tends to develop the entire ledge, it being the most feasible point to establish permanent working plant from which to extract the ore from these three lode claims, I assign the last 40 ft. of this tunnel on main ledge to Silver King lode. 40 ft. at \$12.00

Value \$480.00

On the Smuggler Lode:

1. Discovery cut, the mouth of which bears from S. Cent. End N 30° 30' E., 730.00 ft. Course of cut North Cut 16x4½ ft., 12 ft. face.

Value \$100.00

2. Work in old tunnel "No. 5", the mouth of which bears from S. Center End, N 30° 45' E., 286 ft. course of tunnel approximately N 31° E. Tunnel 6½ x 4½ ft., length of tunnel more than 700 ft., the last 41½ ft. of which done by claimant. 41½ ft. at \$15.00 - \$622.50

Value \$620.00

Also stoping and timbering (see affidavit of Supt. Hockley)

Value \$500.00

Air pipe and track, value 300.00.

On the Silver King:

1. Discovery cut, the S.E. Cor. (at face) of which bears from S. Cen. End. N 30° 30' E., 85 ft. Course of cut South, cut 23x4½ ft., 12 ft. face.

Value \$100.00

2. A cut, the mouth of which bears from a point on line 1-2, N 30° 30' E., 1165.5 ft. from Cor. No. 1, S 83° 10' E. 159 ft., course of cut N.E. Cut 18x 4 ft. 11 ft. face.

Value \$100.00

Credit from Mendota- 480.00

OTHER IMPROVEMENTS

Smuggler Lode:

1. Old "No. 5" tunnel, the mouth of which bears from S. Cen. end N 30° 45' E. 286 ft.

2. Old "No. 4" tunnel, the mouth of which bears from S. Cen. End, N 28° 35' E. 726 ft.

NOTE: The numbers used are those applied to the mine when worked as the Copper Glance. I failed to locate any "No. 3" tunnel.
