## Notice of Mining Location

## LODE CLAIM

## To All Whom It May Concern:

This Mining Claim, the name of which is the Buffalo Mining Claim, situate on lands belonging to the United States of America, and in which there are valuable mineral deposits, was entered upon and located for the purposes of exploration and purchase by the Pittsburgh-Jerome Copper Company

(Locator must insert either "a citizen of the United States," or, "who has declared his intention to become a citizen of the United States.")

the undersigned, on the 12 day of April 1906

The length of this claim is 1500 feet,  
and it claim 750 feet,  
in a Northwesterly direction and  
750 feet in a Southeasterly direction from  
the center of the discovery shaft, at which this notice is posted, lengthwise of the claim, together  
with 300 feet in width of the surface grounds, on each  
side of the center of said claim. The general course of the lode deposit and premises is from the  
Northwest to the Southeast

The claim is situated and located in the Verde Mining District, in  
Yavapai County, in the Territory of Arizona, about 2 miles  
in a Southerly direction from U.S.M.M. No. 1, and  
joins the westerly side line of the Newport claim.

The surface boundaries of the claim are marked upon the ground as follows: Beginning at  
a mon. of stone

at a point in a Southerly direction 750 feet from  
the discovery shaft (at which this notice is posted,) being in the center of the South  
end line of said claim; thence Southwest 300 feet to a mon. of  
stone, being the Southwest corner of said claim; thence  
Northwest 1500 feet to a mon. of stone, being at the  
Northwest corner of said claim; thence Northeast 300 feet  
to a mon. of stone at the center of the North end of said claim;  
thence Northeast 300 feet to a mon. of stone, being at the  
Northeast corner of said claim; thence Southeast 1500  
feet to a mon. of stone at the Southeast corner of said claim;  
thence Southwest 300 feet to the place of beginning.

All done under the provisions of Chapter Six, of Title XXXII, of the Revised Statutes of  
the United States, and of an Act of the General Assembly of Arizona, entitled "An Act to  
Revise and Codify the Laws of the Territory of Arizona," approved March 16, 1901.

This is an Amended Location Notice of the Buffalo  
Mining Claim, located by Geo. H. Avery, Geo. W. Avery and  
Tom Fryer on the 12 day of  
Jan 1905, and recorded in Book 73 of Records of Mines, at  
page 134, in the office of the County Recorder of the aforesaid County of Yavapai  
to which reference is hereby made, and this amended Location Notice is made and posted to  
correct errors in the description in the said original Location Notice.

The whole of this location is located as abandoned and forfeited mining

Department of the Interior,

OFFICE OF U. S. SURVEYOR-GENERAL,

Phoenix, Arizona,

September 19, 1906

I, U. S. Surveyor-General for District of Arizona

do hereby certify that the foregoing transcript of the Field Notes, return and approval of the survey of the mining claim of Pittsburgh Jerome Copper Co. known as the Hancock, Lizzie C, Lost Chance, Good Luck, Red Jacket, Lucky Steal, St. Louis, Lucky Boy, Starlight, Boston, Pittsburgh Grace, Portland, Blue Jay, Black Jack, Newport, Ajax, Rachel, Buffalo, White Wings & Excelsior, situate in Verde

Mining District, Yavapai County, Arizona

in Section APPROX., Township No. 16 N., Range No. 2 E., and

designated as Survey No. 2248, has been correctly copied from the originals on file in

this office; that said Field Notes furnish such an accurate description of said mining claim as will, if incorporated into a patent, serve fully to identify the premises, and that such reference is made therein to natural objects or permanent monuments as will perpetuate and fix the locus thereof.

And I further certify that five hundred dollars' worth of labor has been expended or improved for each of the mining claims by claimant or its grantors, and that said improvements consist of 22 shafts, hoist and 3 buildings, total value, \$16100.00

and that no portion of said labor or improvements has been included in the estimate of expenditures upon any other claim.

I further certify that the plat thereof, filed in the U. S. Land Office at Phoenix, Arizona is correct and in conformity with the foregoing Field Notes.

#### COMMON IMPROVEMENTS

Improvement No.2 Red Jacket lode was run as a main haulage tunnel in the development of the group through the shaft heretofore mentioned. The portal of the tunnel is accessible by wagon road now being constructed, and permits more economical handling of mining operations. This tunnel is situated at the lowest possible point for tunnel operations in this group. It is so situated that it connects with the main working shaft, and is used in conjunction with said shaft, in that all operations in the shaft are carried from this level. The hoisting machinery now located on the level of the collar of the shaft, will be moved and set up in the tunnel near the shaft, thus centering all operations on the tunnel level. I consider this improvement a common improvement and of such character as to redound to the benefit of the Hancock, Lizzie C, Lost Chance, Good Luck, Red Jacket, Lucky Steal, St. Louis, Lucky Boy, Starlight, Boston, Pittsburgh, Grace, Portland, Blue Jay, Black Jack, Newport, Ajax, Rachel, Buffalo, White Wings, and Excelsior lodes.

The total value of improvement No.2 , \$18438.00

Equal undivided 1/21 interest . \$ 878.00

Improvement No.2 Pittsburgh Lode, is the main working shaft, which was sunk to a depth of 250 feet at the time of survey, ~~and~~ and now is 654.6 feet deep. The original plan of development has been continued, and now that the bottom of the shaft is 172 feet below the tunnel level, drifting and cross-cutting from this shaft is the only method

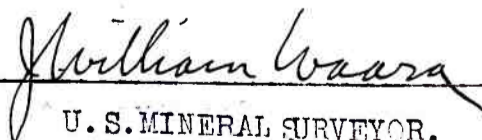

by which the group can be developed at that depth, or similarly from a greater depth. The shaft is centrally located, and operations centered there with the necessary lateral workings, will tend to develop the veins traversing the several lodes., I consider this improvement a common improvement and of such character as to redound to the benefit of all the lodes embraced in this survey, and have apportioned the improvement equally to the benefit of the Hancock, Lizzie C. Lost Chance, Good Luck, Red Jacket, Lucky Steal, St. Louis, Lucky Boy, Starlight, ~~7/8~~ Boston, Pittsburgh, Grace, Portland, Blue Jay, Black Jack, Newport, Ajax, Rachel, Buffalo, White Wings, and Excelsior lodes.

Total value of Shaft, 654.6 feet deep.	\$26,187.00
Equal Undivided 1/21 interest	\$ 1247.00

OTHER IMPROVEMENTS.

The Pittsburgh-Jerome Copper Company, claimants, <sup>is</sup> ~~are~~ now constructing a wagon road from the portal of tunnel Improvement No. 2 Red Jacket Lode, to the County highway, connecting with it at a point in Deception Gulch, just south of the Town of Jerome. This road is being constructed especially to enable claimant to haul in heavy compressor equipment, now enroute. The length of the road when completed will be 14250 feet, half of which has been completed. This road ~~is~~ will cost \$20,000.00 and can only be used for mining purposes.
