 - No.11. A cut, 4 ft. wide, 15 ft. long, nearly filled, mouth bears from Cor. No. 1 N. 57° W. 615 ft., course N. 45° W. Value \$50.00
- A cut, 4 ft. wide, 10 ft. face, 10 ft. long, mouth bears from Cor. No. 1 N. 73° 30' W. 610 ft., course S. 75° E. was dug by other locators.

Note: An undivided 1/4 interest in value of shaft No. 4, on the Rosaline No. 6 lode of this survey is credited to this lode, Value, \$ 300.00

Improvements Nos. 2 and 6 on the Rosaline No. 5 Lode, Nos. 2, 4, 5, 8 and 11 on the Starr Lode were originally much deeper, but have caved and washed to their present depth. I have assigned to them a nominal value.

Note: These claims are crossed by low ridges, separated by shallow gulches. The only way to open the mine and remove the ore is through a shaft or shafts.

The sulphide Shaft, No. 4 on Rosaline No. 6 Lode, is near the bottom of one of the gulches, in one of the most accessible places to means of transportation. It will, through the drift at the bottom, which is at present in the ore body, open and develop the veins and ore bodies lying under these ridges to the best advantage and furnish a most economical means of removing the ore. The Pittsburg claim, unsurveyed, lying north of the Rosaline No. 5 Lode and parallel to it is influenced by the same conditions and can be most advantageously developed in the same manner. I credit an equal portion of the value of this shaft to each of the claims of this survey and to the Pittsburg Lode, unsurveyed, which is claimed by the applicant herein.

Total value of improvements credited to:

Rosaline No. 5 Lode.	\$1245.00
Rosaline No. 6 Lode.	\$ 650.00
Starr Lode.	\$1200.00
Total, Sur. 2494	<u>\$3095.00</u>

* Location. *in Globe Mining District, Gila Co., Ariz.*
 These claims are located, approximately in Secs. 6 and 7, Unsurveyed, T. 1 N., R. 15 E., G. & S. R. Mer.

Note: Disagreements between these field notes and the location notices are due to errors in the latter.

Instrument.

This survey was made with a Gurley Light Mountain Transit. The courses were deflected from the true meridian as determined by direct solar observations. The distances were measured with a 300-ft. steel tape.

* Adjoining Claims.

This survey is bounded on the north by the Goodenough lode, ^{owners} owners, John Collins and Jacob Kleinfelder, and the Pittsburg lode, unsurveyed, owned by claimant herein. On the East by the Ben Hur No. 2 lode, Sur. No. 2496, Rosaline No. 4 lode, Sur. No. 2493, owned by claimant herein. On the south by unknown claims, and on the west by unknown claims.
