Instrument.

This survey was made with a 6 1/4 inch Berger Engineer's transit. The courses were deflected from the true meridian as determined by direct Solar and Polaris observations. The distances were measured with a 500 ft. steel tape.

Note: The disagreement between the notes of this survey and line 2-3, Buckeye lode, Sur. 1106, line 2-3, Badger lode, Sur. 2457, lines 2-3 and 3-4, Carrie lode, Sur. 1719 A, line 2-1, Highland lode, Sur. 2297, lines 4-5, 3-4 and 2-3, Copper Era lode, Sur. 2297, lines 1-2, 2-3, 3-4 and 4-1 of this claim as surveyed under Sur. No. 2297, is due to errors in the latter.

The disagreement between the notes of the conflict of this claim with the Badger lode, Sur. 2457 and the notes of the conflict between these two claims as reported in Sur. 2457, is due to the drawing in of

Cor. No. 2 of this claim from its position on the ground at the time of making Sur. 2457 and to the error in line 2-3 of said Sur. 2457.
